BHE Pipeline Group consists of Berkshire Hathaway Energy’s interstate natural gas pipeline companies, Kern River Gas Transmission Company and Northern Natural Gas Company.

- Kern River’s 1,700-mile system is a direct link between the abundant Rocky Mountain natural gas-producing basins and western markets, including Salt Lake City, Utah; Las Vegas, Nevada; and Southern California.

- Northern Natural Gas’ 14,600-mile system extends from southwest Texas to Michigan’s Upper Peninsula.

- Together, Kern River and Northern Natural Gas delivered approximately 8% of the natural gas consumed in the U.S. in 2019.

OPERATIONAL EXCELLENCE

- The reliability of natural gas delivery is crucial to meeting our customers’ needs. In 2019, both Kern River and Northern Natural Gas had an aggregate compression reliability rate of 99.99%.

COMMITTED TO CUSTOMER SATISFACTION

- The 2019 Mastio & Company customer satisfaction survey results for natural gas pipelines ranked BHE Pipeline Group as No. 1 among multiple pipeline operators for the 15th consecutive year. Kern River ranked No. 1 among interstate natural gas pipelines and Northern Natural Gas ranked No. 2.
COMPETITIVE PRICING

• Kern River’s Period Two rates are the lowest full-rate alternative for deliveries to the Southern California market area.

• Northern Natural Gas has access to the largest supply basins in North America and to the producing shale regions in its field area. Diverse supply sources enable Northern Natural Gas’ customers to access some of the least expensive natural gas supplies in the U.S.
