| <b>Distribution CO2e Fugitive Emissions</b>                                                                    |    |    |   |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| CO2e Fugitive Methane Emissions from Gas Distribution Operations (metric tons)                                 | NA | NA | - |  | Fugitive methane emissions (not CO2 combustion emissions) stated as CO2e, as reported to EPA under 40 CFR 98, Subpart W, sections 98.236(q)(3)(iv)(D), 98.236(r)(1)(v), and 98.236(r)(2)(v)(8) - i.e., this is Subpart W methane emissions as input in row 2.2 below and converted to CO2e here. This metric should include fugitive methane emissions above the reporting threshold for all natural gas local distribution companies (LDCs) held by the Parent Company that are above the LDC Facility reporting threshold for EPA's 40 C.F.R. 98, Subpart W reporting rule. Calculated value based on mt CH4 input in the 2.2 (below). |
| CH4 Fugitive Methane Emissions from Gas Distribution Operations (metric tons)                                  | NA | NA | - |  | INPUT VALUE (total mt CH4) as explained in definition above. Subpart W input is CH4 (mt).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| CH4 Fugitive Methane Emissions from Gas Distribution Operations (MMSCF/year)                                   | NA | NA | - |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Annual Natural Gas Throughput from Gas Distribution Operations in thousands of standard cubic feet (Mscf/year) | NA | NA | - |  | This metric provides gas throughput from distribution (quantity of natural gas delivered to end users) reported under Subpart W, 40 C.F.R. 98.236(aa)(9)(iv), as reported on the Subpart W e-GRRT integrated reporting form in the "Facility Overview" worksheet. Excel form, Quantity of natural gas delivered to end users (column 4).                                                                                                                                                                                                                                                                                                 |
| Annual Methane Gas Throughput from Gas Distribution Operations in millions of standard cubic feet (MMscf/year) | NA | NA | - |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Fugitive Methane Emissions Rate (Percent MMscf of Methane Emissions per MMscf of Methane Throughput)           | NA | NA | - |  | Calculated annual metric: (MMSCF methane emissions/MMSCF methane throughput)                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

## Gas Company ESG/Sustainability Quantitative Information

Parent Company: Berkshire Hathaway Energy Company

Operating Company(s): BHE GT&S, LLC

Report Date: As of and for the year ended December 31, 2020

Disclaimer: Data included herein is based on information available as of April 29, 2021, and is subject to change without notice should new or additional information be obtained.

| [A] BHE GT&S assets (EGTS, CGT) were acquired on November 1, 2020. As a result, 2020 emissions for BHE GT&S only include the months of November 2020 and December 2020 and 2019 emissions for BHE GT&S are not included. Furthermore, the BHE GT&S emissions only reflect transmission and storage assets and do not include associated LNG import/export, production, processing, and gathering & boosting assets. |           |              |          |                                                                                                                                                                                                                                                                                                                            |
