End of <u>2011/Q4</u>

INSTRUCTIONS FOR FILING FERC FORMS 2, 2-A and 3-Q

GENERAL INFORMATION

I Purpose

FERC Forms 2, 2-A, and 3-Q are designed to collect financial and operational information form natural gas companies subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be a non-confidential public use forms.

II. Who Must Submit

Each natural gas company whose combined gas transported or stored for a fee exceed 50 million dekatherms in each of the previous three years must submit FERC Form 2 and 3-Q.

Each natural gas company not meeting the filing threshold for FERC Form 2, but having total gas sales or volume transactions exceeding 200,000 dekatherms in each of the previous three calendar years must submit FERC Form 2-A and 3-Q.

Newly established entities must use projected data to determine whether they must file the FERC Form 3-Q and FERC Form 2 or 2-A.

III. What and Where to Submit

- (a) Submit Forms 2, 2-A and 3-Q electronically through the submission software at http://www.ferc.gov/docs-filing/eforms/form-2/elec-subm-soft.asp.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Form 2 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mailing two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Form 2, Page 3, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared. Unless eFiling the Annual Report to Stockholders, mail these reports to the Secretary of the Commission at:

Secretary of the Commission Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

- (d) For the Annual CPA certification, submit with the original submission of this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984) prepared in conformity with the current standards of reporting which will:
 - (i) Contain a paragraph attesting to the conformity, in all material respects, of the schedules listed below with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
 - (ii) be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 158.10-158.12 for specific qualifications.)

Reference	<u>Reference</u>		
	Schedules Pages		
Comparative Balance Sheet	110-113		
Statement of Income	114-117		
Statement of Retained Earnings	118-119		
Statement of Cash Flows	120-121		
Notes to Financial Statements	122-123		

Filers should state in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist

- (e) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders" and "CPA Certification Statement," have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission website at http://www.ferc.gov/help/how-to.asp
- (f) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 2 and 2-A free of charge from: http://www.ferc.gov/docs-filing/eforms/form-2.pdf and http://www.ferc.gov/docs-filing/eforms/form-2a/form-2a.pdf, respectively. Copies may also be obtained from the Public Reference and Files Maintenance Branch, Federal Energy Regulatory Commission, 888 First Street, NE. Room 2A, Washington, DC 20426 or by calling (202).502-8371

IV. When to Submit:

FERC Forms 2, 2-A, and 3-Q must be filed by the dates:

- (a) FERC Form 2 and 2-A --- by April 18th of the following year (18 C.F.R. §§ 260.1 and 260.2)
- (b) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2 must file the FERC Form 3-Q within 60 days after the reporting quarter (18 C.F.R.§ 260.300), and
- (c) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2-A must file the FERC Form 3-Q within 70 days after the reporting quarter (18 C.F.R. § 260.300).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the Form 2 collection of information is estimated to average 1,623 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the Form 2A collection of information is estimated to average 250 hours per response. The public reporting burden for the Form 3-Q collection of information is estimated to average 165 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

- I. Prepare all reports in conformity with the Uniform System of Accounts (USofA) (18 C.F.R. Part 201). Interpret all accounting words and phrases in accordance with the USofA.
- II. Enter in whole numbers (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- III Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions.
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII For any resubmissions, submit the electronic filing using the form submission only. Please explain the reason for the resubmission in a footnote to the data field.
- VIII. Footnote and further explain accounts or pages as necessary.
- IX. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- X. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.
- XI. Report all gas volumes in Dth unless the schedule specifically requires the reporting in another unit of measurement.

DEFINITIONS

- Btu per cubic foot The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30°F, and under standard gravitational force (980.665 cm. per sec) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state (called gross heating value or total heating value).
- II. <u>Commission Authorization</u> -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- III. Dekatherm A unit of heating value equivalent to 10 therms or 1,000,000 Btu.
- IV <u>Respondent</u> The person, corporation, licensee, agency, authority, or other legal entity or instrumentality on whose behalf the report is made.

EXCERPTS FROM THE LAW (Natural Gas Act, 15 U.S.C. 717-717w)

"Sec. 10(a). Every natural-gas company shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or order prescribe as necessary or appropriate to assist the Commission in the proper administration of this act. The Commission may prescribe the manner and form in which such reports shall be made and require from such natural-gas companies specific answers to all questions upon which the Commission may need information. The Commission may require that such reports include, among other things, full information as to assets and liabilities, capitalization, investment and reduction thereof, gross receipts, interest dues and paid, depreciation, amortization, and other reserves, cost of facilities, costs of maintenance and operation of facilities for the production, transportation, delivery, use, or sale of natural gas, costs of renewal and replacement of such facilities, transportation, delivery, use and sale of natural gas..."

"Section 16. The Commission shall have power to perform all and any acts, and to prescribe, issue, make, amend, and rescind such orders, rules, and regulations as it may find necessary or appropriate to carry out the provisions of this act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this act; and may prescribe the form or forms of all statements declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and time within they shall be filed..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. See NGA § 22(a), 15 U.S.C. § 717t-1(a).

Report below the names of all corporations, business trusts, and similar organizations, controlled directly or indirectly by espondent at any time during the year. If control ceased prior to end of year, give particulars (details) in a footnote. 2. If control was by other means than a direct holding of voting rights, state in a footnote the manner in which control was held, naming any intermediaries involved. 3. If control was held jointly with one or more other interests, state the fact in a footnote and name the other interests. 4. In column (b) designate type of control of the respondent as "D" for direct, an "I" for indirect, or a "J" for joint control. DEFINITIONS 1. See the Uniform System of Accounts for a definition of control. 2. Direct control is that which is exercised without interposition of an intermediary. 3. Indirect control is that which is exercised by the interposition of an intermediary that exercises direct control. 4. Joint control is that in which neither interest can effectively control or direct action without the consent of the other, as where the roting control is equally divided between two holders, or each party holds a veto power over the other. Joint control may exist by mutual regreement or understanding between two or more parties who together have control within the meaning of the definition of control in the Uniform System of Accounts, regardless of the relative voting rights of each party.

Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4		
FOOTNOTE DATA					

Schedule Page: 107 Line No.: 7 Column: e
KR Acquisition 1, LLC and KR Acquisition 2, LLC each own a fifty percent (50%) general partnership interest in Kern River Gas Transmission Company.

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report		
Kern River Gas Transmission Company	(2) _ A Resubmission	/ / /	2011/Q4		
Important Changes During the Quarter/Year					

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.

Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.

- 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
- 13. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio.

- 3. None
- 4. None
- 5. On September 16, 2010, the Federal Energy Regulatory Commission issued an order in Docket No. CP10-14-000 authorizing the Respondent to construct and operate facilities to expand the summer design capacity of its pipeline system by 266,000 dekatherms per day ("Apex Expansion") from receipt points in Wyoming to delivery points in the Las Vegas, Nevada area. The Respondent commenced construction of the facilities on October 4, 2010, and the Apex Expansion project was placed in service on October 1, 2011. Beginning on October 1, 2011, the Apex Expansion capacity was sold under a twenty year firm contract with one shipper that will generate annual demand revenue of approximately \$40 million.
- 6. None
- 7. None
- 8. None
- 9. For the status of material important legal proceedings, see Note 9 included in the Notes to Financial Statements on page 122.

Notes to Financial Statements				

- 1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
- 2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
- 3. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets. Entities that participate in multiemployer postretirement benefit plans (e.g. parent company sponsored pension plans) disclose in addition to the required disclosures for the consolidated plan, (1) the amount of cost recognized in the respondent's financial statements for each plan for the period presented, and (2) the basis for determining the respondent's share of the total plan costs.
- 4. Furnish details on the respondent's asset retirement obligations (ARO) as required by instruction no. 1 and, in addition, disclose the amounts recovered through rates to settle such obligations. Identify any mechanism or account in which recovered funds are being placed (i.e. trust funds, insurance policies, surety bonds). Furnish details on the accounting for the asset retirement obligations and any changes in the measurement or method of accounting for the obligations. Include details on the accounting for settlement of the obligations and any gains or losses expected or incurred on the settlement.
- 5. Provide a list of all environmental credits received during the reporting period.
- 6. Provide a summary of revenues and expenses for each tracked cost and special surcharge.
- 7. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these item. See General Instruction 17 of the Uniform System of Accounts.
- 8. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 9. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
- 10. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
- 11. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
- 12. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- 13. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
- 14. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.
- 15. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

(1) Organization and Operations

Kern River Gas Transmission Company (the "Respondent") is an indirect wholly owned subsidiary of MidAmerican Energy Holdings Company ("MEHC"), a holding company based in Des Moines, Iowa, that owns subsidiaries principally engaged in the energy business. MEHC is a consolidated subsidiary of Berkshire Hathaway Inc. ("Berkshire Hathaway"). The Respondent owns an interstate natural gas pipeline system that extends from supply areas in the Rocky Mountains to consuming markets in Utah, Nevada and California. The Respondent's pipeline system consists of 1,700 miles of natural gas pipelines, including 1,400 miles of mainline section and 300 miles of common facilities, with a design capacity of 2,166,575 decatherms ("Dth") per day. The Respondent owns the entire mainline section, which extends from the system's point of origination near Opal, Wyoming, through the Central Rocky Mountains area into Daggett, California. The mainline section consists of 1,300 miles of 36-inch diameter pipeline and 100 miles of various laterals that connect to the mainline. The common facilities are jointly owned by the Respondent and Mojave Pipeline Company ("Mojave"), a wholly owned subsidiary of El Paso Corporation, as tenants-in-common, and ownership may increase or decrease pursuant to the capital contributions made by each respective joint owner. The Respondent has exclusive rights to 1,613,392 Dth per day of the common facilities' capacity, and Mojave has exclusive rights to 414,001 Dth per day of capacity.

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report	
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4	
Notes to Financial Statements				

Operation and maintenance of the common facilities are the responsibility of Mojave Pipeline Operating Company, an affiliate of Mojave. The Respondent reimburses Mojave for its share of the pipeline expenses. The common facilities and associated operating costs are included in the Financial Statements on a prorated basis. Except for quantities of natural gas owned for operational purposes, the Respondent does not own the natural gas that is transported through its system. The Respondent's transportation operations are subject to a regulated tariff that is on file with the Federal Energy Regulatory Commission ("FERC"). The tariff rates are designed to provide the Company with an opportunity to recover its costs of providing services and earn a reasonable return on its investments. The Company also owns Kern River Funding Corporation ("Funding") which is an entity organized to issue and make payments on debt securities for the Company.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The Financial Statements have been prepared based upon the accounting regulations of the FERC pursuant to the Code of Federal Regulations, Title 18, Part 201, Uniform System of Accounts ("FERC accounting regulations"). Therefore, the Financial Statements contain certain differences from general purpose financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP"), including the recognition of income taxes and certain regulatory assets for levelized depreciation and financial statement classifications such as deferred income taxes, income tax expense and accumulated negative salvage.

The Financial Statements present the Respondent's stand-alone information. In accordance with FERC accounting regulations, the Respondent's 100% ownership of Funding is accounted for by the equity method. The Respondent's investment in Funding is included in other deferred debits on the Balance Sheets.

The presentation of customer deposits, deferred debits, other deferred credits, depreciation and amortization and depletion of utility plant in the prior year Financial Statements has been reclassified to conform to the current year presentation, which follows FERC accounting regulations. Such reclassifications did not impact previously reported net income, retained deficit, or net cash flows from operating activities. The Respondent has evaluated subsequent events through April 17, 2012, which is the date the Financial Statements were available to be issued.

Use of Estimates in Preparation of Financial Statements

The preparation of the Financial Statements in conformity with FERC accounting regulations requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenue and expenses during the period. These estimates include, but are not limited to, the effects of regulation; income taxes; long-lived asset recovery; and accounting for contingencies. Actual results may differ from the estimates used in preparing the Financial Statements.

Accounting for the Effects of Certain Types of Regulation

The Respondent prepares its Financial Statements in accordance with authoritative guidance for regulated operations, which recognizes the economic effects of regulation. Accordingly, the Respondent is required to defer the recognition of certain costs or income if it is probable that, through the ratemaking process, there will be a corresponding increase or decrease in future regulated rates.

The Respondent's rates for transportation service are derived on the basis of a levelized cost-of-service. In the FERC orders certificating the Respondent's original system and subsequent expansions, the FERC approved depreciation expense schedules designed to maintain a constant total cost-of-service over the initial contract terms ("Period One"). Rather than recovering plant costs through the depreciation allowance in rates on a straight-line basis, the Respondent's annual depreciation recovery in rates increases as the return on equity, interest expense and income taxes decrease, to obtain a constant or level cost-of-service. Because application of a straight-line depreciation rate to the Respondent's plant investment would result in substantial depreciation expense in the Respondent's early years of service, the effect of levelization has been to transfer some portion of the Respondent's cost recovery from the early years to the later years of the customers' initial contract terms. The cumulative difference between the composite or

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report	
Kern River Gas Transmission Company	(2) _ A Resubmission	/ / /	2011/Q4	
Notes to Financial Statements				

straight-line method described above and the plant cost recovered through levelized depreciation is recorded as a regulatory asset or liability pending recovery or return in future years. Refer to Note 4 of Notes to Financial Statements for additional information regarding regulatory matters and the Respondent's levelized rates.

The Respondent continually evaluates the applicability of the guidance for regulated operations and whether its regulatory assets and liabilities are probable of inclusion in future regulated rates by considering factors such as a change in the regulator's approach to setting regulated rates from cost-based ratemaking to another form of regulation, other regulatory actions or the impact of competition which could limit the Respondent's ability to recover its costs. Based upon this continuous evaluation, the Respondent believes the application of the guidance for regulated operations is appropriate and its existing regulatory assets and liabilities are probable of inclusion in future regulated rates. The evaluation reflects the current political and regulatory climate at the federal level and is subject to change in the future. If it becomes no longer probable that the deferred costs or income will be included in future regulated rates, the related regulatory assets and liabilities will be written-off to net income or returned to customers.

Cash Equivalents and Restricted Cash

Cash equivalents consist of funds invested in money market funds and other investments with a maturity of three months or less when purchased. Cash and cash equivalents exclude amounts where availability is restricted by legal requirements, loan agreements or other contractual provisions. Restricted amounts are included in miscellaneous current and accrued assets and other property and investments on the Balance Sheets.

Allowance for Doubtful Accounts

Receivables are stated at the outstanding principal amount, net of estimated allowances for doubtful accounts. The allowance for doubtful accounts is based on the Respondent's assessment of the collectability of amounts owed to the Respondent by its customers. This assessment requires judgment regarding the ability of customers to pay or the outcome of any pending disputes. As of December 31, 2011 and 2010, there was no significant allowance for doubtful accounts.

Transportation Imbalances

Shippers schedule their volumes into the Respondent's system with subsequent deliveries to various markets. Imbalance receivables from and payables to shippers are created when receipts to the system from shippers vary from deliveries off the system, including quantities retained by the pipeline for fuel. Receipts and deliveries from third parties in connection with balancing and other natural gas service contracts also result in imbalances. Temporary encroachments on line pack due to transportation imbalances are valued at current market prices and recorded as miscellaneous current and accrued assets and liabilities on the Balance Sheets with offsetting entries to operation and maintenance on the Statements of Income. Settlement of imbalances occurs in accordance with the contractual terms of the agreements and timing of delivery of natural gas based on operational conditions. *Plant Materials and Supplies*

Plant materials and supplies consist mainly of replacement parts used in the periodic overhaul of gas compressor units and materials for construction, operation and maintenance and are stated at average cost, except for compressor engines which are stated at historical cost.

Utility Plant, Net

General

Additions to utility plant are recorded at cost. The Respondent capitalizes all construction related material, direct labor and contract services, as well as indirect construction costs, which include debt and equity allowance for funds used during construction ("AFUDC") on rate base assets. The cost of additions and betterments are capitalized, while costs incurred that do not improve or extend the useful lives of the related assets are generally expensed.

Depreciation and amortization are generally computed by applying the composite or straight-line method based on either estimated useful lives or mandated recovery periods as prescribed by the FERC. Under the composite method when utility plant is retired, the

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report	
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4	
Notes to Financial Statements				

original cost of the property retired is charged to accumulated depreciation and amortization, net of salvage and removal costs. For general plant, the original cost of the property retired is charged to accumulated depreciation and amortization at the end of the depreciable lives of the asset vintages with the exception of software, vehicles and large equipment, which are retired individually. Retirement gains or losses are not included in income except in the case of sales of operating units.

The Respondent capitalizes AFUDC, which represents the estimated costs of debt and equity funds necessary to finance the construction of regulated facilities, as a component of utility plant, with offsetting credits to the Statements of Income. AFUDC is computed based on guidelines set forth by the FERC. After construction is completed, the Respondent is permitted to earn a return on these costs as a component of the related assets, as well as recover these costs through depreciation expense over the useful lives of the related assets.

Line Pack Gas

Line pack gas is accounted for utilizing the fixed asset accounting method as prescribed by the FERC. Under this approach, line pack gas volumes are classified as utility plant, net and valued at cost.

Asset Retirement Obligations

The Respondent recognizes asset retirement obligations ("ARO") when it has a legal obligation to remove or abandon-in-place an asset upon retirement. The Respondent's AROs are primarily related to the retirement of long-lived assets that result from the acquisition, construction, development or normal use of assets. The fair value of an ARO liability is recognized in the period in which it is incurred, if a reasonable estimate of fair value can be made, and is added to the carrying amount of the associated asset, which is then depreciated over the remaining useful life of the asset. The Respondent has concluded that it is legally obligated to remove, or abandon-in-place, its pipeline and related equipment upon the final retirement of the pipeline. While interim removal or abandonment-in-place and replacement of such equipment is probable, the final retirement dates of these assets are not determinable, and therefore, the liabilities for their removal cannot be reasonably estimated.

Negative Salvage

Negative salvage is removal cost after salvage proceeds at the time the asset is removed from service. The Respondent recognizes a negative salvage reserve in accumulated depreciation and amortization and as of December 31, 2011 and 2010 the balance of this reserve was \$19.2 million and \$16.4 million, respectively. The negative salvage amount, which is 0.12% of transmission plant and is reflected in depreciation expense on the Statements of Income, was \$2.8 million and \$2.7 million for the years ended December 31, 2011 and 2010, respectively.

Impairment

The Respondent evaluates long-lived assets for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of such assets may not be recoverable or the assets are being held for sale. Upon the occurrence of a triggering event, the asset is reviewed to assess whether the estimated undiscounted cash flows expected from the use of the asset plus the residual value from the ultimate disposal exceeds the carrying value of the asset. If the carrying value exceeds the estimated recoverable amounts, the asset is written down to the estimated fair value. The impacts of regulation are considered when evaluating the carrying value of regulated assets. For all other assets, any resulting impairment loss is reflected on the Statements of Income. There were no impairments for the years ended December 31, 2011 and 2010.

Revenue Recognition

Revenue from customers is recognized as natural gas is delivered or services are provided. The majority of the Respondent's transportation revenue is derived from fixed reservation charges based on contractual quantities and regulated rates. The remaining revenue is market-oriented, which is based on market-indexed, discounted or negotiated rates, and commodity charges. The rates are applied to scheduled quantities. Differences between scheduled quantities and actual measured quantities are reflected in revenue during the following month and are not material.

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report	
Kern River Gas Transmission Company	(2) _ A Resubmission	/ / /	2011/Q4	
Notes to Financial Statements				

The Respondent is subject to FERC regulations and, accordingly, certain revenue collected may be subject to refund upon final FERC orders in pending regulated rate proceedings. The Respondent may record revenue that is subject to refund based on its best estimates of the final outcomes of such proceedings and other third party regulatory proceedings, advice of counsel and estimated total exposure, as well as collection and other risks. Estimates of any refunds are included as provision for rate refunds on the Balance Sheets.

Unamortized Financing Costs

Financing costs incurred for the issuance of long-term debt are included as a component of approved rates and are amortized over the term of the related financing based on the percentage of debt principal retired each year, as prescribed by the FERC. The unamortized balance of debt issuance costs as of December 31, 2011 and 2010 was \$10.3 million and \$13.5 million, respectively, and is included in deferred debits on the Balance Sheets.

Income Taxes

Berkshire Hathaway includes MEHC and its subsidiaries in its United States federal income tax return. Consistent with established regulatory practice, the Respondent's provision for income taxes has been computed on a separate return basis, and substantially all of its respective currently payable or receivable income taxes are remitted to or received from MEHC.

Deferred income tax assets and liabilities are based on differences between the financial statement and income tax basis of assets and liabilities by shipper group using estimated income tax rates expected to be in effect for the year in which the differences are expected to reverse. Changes in deferred income tax assets and liabilities that are associated with the components of other comprehensive income are charged or credited directly to other comprehensive income. Other changes in deferred income tax assets and liabilities are included as a component of income tax expense. Valuation allowances are established for certain deferred income tax assets where realization is not likely.

In determining the Respondent's income taxes, management is required to interpret complex income tax laws and regulations. The Respondent's income tax returns are subject to continuous examinations by federal, state and local income tax authorities that may give rise to different interpretations of these complex laws and regulations. Due to the nature of the examination process, it generally takes years before these examinations are completed and these matters are resolved. The Respondent recognizes the tax benefit from an uncertain tax position only if it is more-likely-than-not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the Financial Statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Although the ultimate resolution of the Respondent's federal, state and local income tax examinations is uncertain, the Respondent believes it has made adequate provisions for these income tax positions. The aggregate amount of any additional income tax liabilities that may result from these examinations, if any, is not expected to have a material adverse impact on the Respondent's financial results. The Respondent's unrecognized tax benefits are included in income taxes payable on the Balance Sheets. Estimated interest and penalties, if any, related to uncertain tax positions are included as other interest expense and penalties, respectively, on the Statements of Income.

New Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-05, which amends FASB Accounting Standards Codification ("ASC") Topic 220, "Comprehensive Income." ASU No. 2011-05 provides an entity with the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of the option chosen, this guidance also requires presentation of items on the face of the financial statements that are reclassified from other comprehensive income to net income. This guidance does not change the items that must be reported in other comprehensive income, when an item of other comprehensive income must be reclassified to net income or how tax effects of each item of other comprehensive income are presented. This guidance is effective for reporting periods ending after December 15, 2012. The Respondent is currently evaluating which presentation option will be implemented. In December 2011, the FASB issued ASU No. 2011-12, which also amends FASB ASC Topic 220 to defer indefinitely the ASU No. 2011-05 requirement to present items on the face of the financial statements that are reclassified from other comprehensive income to net income. ASU No. 2011-12 is also

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)		
Kern River Gas Transmission Company	(2) _ A Resubmission	/ /	2011/Q4	
Notes to Financial Statements				

effective for reporting periods ending after December 15, 2012.

In May 2011, the FASB issued ASU No. 2011-04, which amends FASB ASC Topic 820, "Fair Value Measurements and Disclosures." The amendments in this guidance are not intended to result in a change in current accounting. ASU No. 2011-04 requires additional disclosures relating to fair value measurements categorized within Level 3 of the fair value hierarchy, including quantitative information about unobservable inputs, the valuation process used by the entity and the sensitivity of unobservable input measurements. Additionally, entities are required to disclose the level of the fair value hierarchy for assets and liabilities that are not measured at fair value in the balance sheet, but for which disclosure of the fair value is required. This guidance is effective for reporting periods beginning after December 15, 2011. The Respondent is currently evaluating the impact of adopting this guidance on its disclosures included within Notes to Financial Statements.

(3) Utility Plant, Net

Utility plant, net consists of the following as of December 31 (in thousands):

	Depreciation Rates	2011	2010
	Rates	2011	2010
Transmission plant – Original and 2002 Expansion ("Rolled-in") system(1)	1.95%	\$1,065,815	\$1,064,232
Transmission plant – 2003 and 2010 Expansion ("Incremental") system ⁽¹⁾	3.00%	1,209,944	1,210,086
Transmission plant – Apex Expansion system ⁽¹⁾	3.00%	295,745	-
Transmission plant – other	4.76% to 6.67%	32,922	32,431
Compressor engines	9.92%	108,333	81,748
Intangible plant(2)	1.95% to 20.00%	26,417	20,554
General plant	4.00% to 33.33%	10,217	9,342
Total operating assets		2,749,393	2,418,393
Accumulated depreciation and amortization		<u>(910,117</u>)	(856,935)
Net operating assets		1,839,276	1,561,458
Construction work-in-progress		13,660	146,591
Utility plant, net		<u>\$1,852,936</u>	\$1,708,049

- (1) Includes recoverable line pack gas of \$3.6 million, \$7.3 million and \$0.3 million for the Rolled-in, Incremental and Apex Expansion systems, respectively, as of December 31, 2011 and \$3.6 million, \$7.3 million and \$- million for the Rolled-in, Incremental and Apex Expansion systems, respectively, as of December 31, 2010. Recoverable line pack gas is not depreciated.
- (2) Includes costs for capitalized software development, contributions in aid of construction and leasehold improvements.

The Respondent had gross costs for capitalized right of use or right of way of \$60.9 million and \$60.8 million and accumulated amortization of \$24.8 million and \$22.9 million as of December 31, 2011 and 2010, respectively, which is reflected in utility plant, net on the Balance Sheets. Capitalized right of use or right of way costs are amortized at rates ranging from 1.95% to 6.67%.

For the years ended December 31, 2011 and 2010, depreciation expense of \$68.1 million and \$68.7 million, respectively, and amortization expense of \$1.8 million and \$1.8 million, respectively, were included in depreciation and amortization on the Statements of Income. The Respondent expects amortization expense to be \$2.4 million for 2012, \$2.4 million for 2013, \$2.1 million for 2014, \$1.5 million for 2015 and \$1.5 million for 2016.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
· ·	(1) X An Original	(Mo, Da, Yr)		
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4	
Notes to Financial Statements				

(4) Regulatory Matters

Regulatory assets represent costs that are expected to be recovered in future regulated rates. The Respondent's regulatory assets reflected on the Balance Sheets consist of the following as of December 31 (in thousands):

	Weighted Average <u>Remaining Life</u>	2011	-	2010
Levelized depreciation on utility plant ⁽¹⁾ Deferred income taxes associated with equity AFUDC	28 years 28 years	\$ 64,993 28,683	\$	77,445 24,044
Other	Various	 4,636		4,313
Total		\$ 98,312	\$	105,802

(1) Levelized depreciation on utility plant is in a net asset position for the Rolled-in, Apex Expansion and High Desert systems.

The Respondent had regulatory assets not earning a return on investment of \$3.9 million and \$5.5 million as of December 31, 2011 and 2010, respectively.

Regulatory liabilities represent income to be recognized or amounts to be returned to customers in future periods. The Respondent's regulatory liabilities reflected on the Balance Sheets consists of the following as of December 31 (in thousands):

	Weighted Average Remaining Life	2011	2010
Levelized depreciation on utility plant ⁽¹⁾ Other Total	28 years Various	\$ 81,024 1,946 \$ 82,970	\$ 49,560 4,010 \$ 53,570

(1) Levelized depreciation on utility plant is in a net liability position for the Incremental system.

In December 2009, the FERC issued an order establishing revised rates for the period of the Respondent's current long-term contracts ("Period One rates") and required that rates be established based on a levelized rate design for eligible customers to elect to take service following the expiration of their current contracts ("Period Two rates"). The FERC set all other issues related to Period Two rates for hearing. In November 2010, the FERC issued an order that denied all requests for rehearing related to Period One rates from the FERC's December 2009 order and established that the Respondent is entitled to base its Period Two rates on a 100% equity capital structure. In January 2011, the Respondent filed a motion for clarification on certain depreciation issues with the FERC.

In July 2011, the FERC issued its order substantially adopting the presiding administrative law judge's initial decision issued in April 2011 regarding the Respondent's Period Two rates. According to the decisions, Period Two rates should be based on a return on equity of 11.55%, a capital structure of 100% equity, and a levelization period that coincides with a contract length of 10 or 15 years. The Respondent has a regulatory asset approved by the FERC associated with compressor engines and general plant replacements that can be recovered in a future rate case and was not incorporated into Period Two rates at this time. The Respondent, as well as others, requested rehearing and clarification of the FERC's July 2011 order on a majority of these issues. The Respondent filed tariffs in compliance with the FERC's order in August 2011 and, following an order on compliance, again in September 2011. In late September 2011, the FERC issued a second order on compliance, accepting the Respondent's tariff filing. The FERC has not yet responded to the requests for rehearing and clarification of the July 2011 order.

(5) Fair Value Measurements

The carrying value of cash, certain cash equivalents, receivables, payables and accrued liabilities approximates fair value because of

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
Kern River Gas Transmission Company	(1) <u>X</u> An Original (2) <u>A Resubmission</u>	(Mo, Da, Yr)	2011/Q4	
Notes to Financial Statements				

the short-term maturity of these instruments. The Respondent uses a three level hierarchy for determining fair value and a financial asset or liability classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The Respondent has investments in money market mutual funds that are accounted for as available for sale securities, are stated at fair value and are included in temporary cash investments and other special funds on the Balance Sheets. The fair value of the Respondent's money market mutual funds, which approximates cost, was \$21.9 million and \$17.0 million as of December 31, 2011 and 2010, respectively. The Respondent considers these money market mutual funds to be valued using Level 1 inputs, which are determined by using, when available, a readily observable quoted market price or net asset value of an identical security in an active market.

The Respondent's long-term notes payable to subsidiary is carried at cost on the Balance Sheets. The fair value of the Respondent's long-term notes payable to subsidiary has been estimated based upon quoted market prices. The following table presents the carrying value and estimated fair value of the Respondent's long-term notes payable to subsidiary as of December 31 (in thousands):

	2011		20:	10
	Carrying <u>Value</u>	Fair <u>Value</u>	Carrying <u>Value</u>	Fair <u>Value</u>
Long-term notes payable to subsidiary	<u>\$ 715,705</u>	\$ 822,180	<u>\$790,034</u>	\$904,395

(6) Long-Term Notes Payable to Subsidiary

The Respondent's long-term notes payable to subsidiary, which amortize monthly, consist of the following as of December 31 (dollars in thousands):

6.676% Senior Notes, due 2016	\$ 257,33	3 \$ 283,000
4.893% Senior Notes, due 2018	458,37	2 507,034
Total long-term notes payable to subsidiary	715,70	5 790,034
Less-current portion	(87,84	<u>(81,086)</u>
Long-term portion	\$ 627,86	<u>\$ 708,948</u>

The Respondent provides a debt service reserve letter of credit in amounts that approximate the next six months of principal and interest payments due on the loans, which were equal to \$62.0 million and \$64.4 million as of December 31, 2011 and 2010, respectively.

The annual repayments of the Respondent's long-term notes payable to subsidiary for the years beginning January 1, 2012 and thereafter are as follows (in thousands):

2012	\$ 87,843
2013	79,742
2014	81,414
2015	85,340
2016	190,340
Thereafter	 191,026
Total	\$ 715,705

Both the 6.676% Senior Notes and the 4.893% Senior Notes are secured equally and ratably by a collateral assignment of the long-term gas transportation agreements of the Respondent.

The terms of Funding's debt indentures to which the Respondent is guarantor preclude the issuance of mortgage bonds by Funding and

|--|

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report							
Kern River Gas Transmission Company	(2) _ A Resubmission	/ / /	2011/Q4							
Notes to Financial Statements										

the Respondent. The indentures contain provisions for the acceleration of repayment under certain conditions. The indentures also contain restrictions which, under certain circumstances, limit Funding and the Respondent's ability to issue additional debt, pay cash distributions, and dispose of a major portion of the Respondent's natural gas pipeline system. As of December 31, 2011 and 2010, Funding is in compliance with all debt covenants.

(7) Employee Benefit Plans

The Respondent participates in multi-employer benefit plans sponsored by MidAmerican Energy Company ("MEC"), an indirect wholly owned subsidiary of MEHC. The MidAmerican Energy Company Retirement Plan provides pension benefits for eligible employees ("pension plan") and the MidAmerican Energy Company Welfare Benefit Plan provides certain postretirement health care and life insurance benefits for eligible retirees ("other postretirement plan") on behalf of the Respondent. Employees hired on or after January 1, 2008 for the pension plan or after June 30, 2004 for the other postretirement plan are not eligible to participate. Benefit obligations under the pension plan are based on a cash balance arrangement for salaried employees. Under the other postretirement plan, certain employees may become eligible for these benefits if they reach retirement age while working for the Respondent. Effective January 1, 2012, MEC changed the medical benefits for all Medicare-eligible participants in its other postretirement benefit plan. Medicare-eligible participants now enroll in individual medical plans, rather than company-sponsored plans, under which MEC contributes fixed amounts to the participant's health reimbursement account. Benefit obligations under the pension plan and other postretirement plans are determined for the Respondent's employees by an independent actuary.

Net Periodic Benefit Cost

For purposes of calculating the expected return on pension plan assets, a market-related value is used. The market-related value of plan assets is calculated by spreading the difference between expected and actual investment returns on equity investments over a five-year period beginning after the first year in which they occur.

Net periodic benefit cost for the plans of MEC and its participating affiliates included the following components for the years ended December 31 (in millions):

						Otl	her		
		Pension				Postretireme			
		2011		2010	2011		_	2010	
Service cost	\$	18	\$	17	\$	4	\$	4	
Interest cost		39		39		10		11	
Expected return on plan assets		(43)		(40)		(13)		(13)	
Net amortization	_					<u>(2</u>)		<u>(2</u>)	
Net periodic benefit cost (benefit)	<u>\$</u>	14	\$	16	<u>\$</u>	<u>(1</u>)	\$		

The Respondent's share of pension cost totaled \$0.7 million and \$0.8 million for the years ended December 31, 2011 and 2010, respectively. The Respondent's share of other postretirement cost totaled \$0.1 million for each of the years ended December 31, 2011 and 2010.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report						
·	(1) X An Original	(Mo, Da, Yr)							
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4						
Notes to Financial Statements									

Funded Status

The following table is a reconciliation of the fair value of plan assets for MEC and its participating affiliates for the years ended December 31 (in millions):

	Pension				<u>Othe</u>			ment
		2011		2010		2011		2010
Plan assets at fair value, beginning of year	\$	546	\$	497	\$	216	\$	204
Employer contributions		55		24		2		2
Participant contributions		-		-		7		8
Actual return on plan assets		-		62		4		20
Benefits paid		(46)		(37)		<u>(16</u>)		(18)
Plan assets at fair value, end of year	\$	555	\$	546	\$	213	\$	216

The Respondent's contributions to the pension plan and the other postretirement plan, including net periodic benefit cost, totaled \$1.1 million and \$1.3 million for the years ended December 31, 2011 and 2010, respectively. As of December 31, 2011 and 2010, the fair value of plan assets attributable to the Respondent in the pension plan was \$11.2 million and \$11.4 million, respectively, and the other postretirement plan was \$5.3 million and \$4.8 million, respectively. Amounts attributable to the Respondent were allocated from MEC to the Respondent in accordance with the intercompany administrative service agreement.

The following table is a reconciliation of the benefit obligations for MEC and its participating affiliates for the years ended December 31 (in millions):

		Pe	ension			ent		
		2011		2010	2011		2010	
Benefit obligation, beginning of year	\$	738	\$	687	\$	189	\$	201
Service cost		18		17		4		4
Interest cost		39		39		10		11
Participant contributions		-		-		7		8
Plan amendments		-		-		(18)		(7)
Actuarial loss (gain)		50		32		22		(10)
Benefits paid, net of Medicare subsidy		<u>(46</u>)		(37)		<u>(16</u>)		(18)
Benefit obligation, end of year	\$	799	\$	738	\$	198	\$	189
Accumulated benefit obligation, end of year	\$	771	\$	707_				

MEC paid benefits from the plans to the Respondent's participants totaling \$1.0 million and \$0.6 million for the years ended December 31, 2011 and 2010, respectively. As of December 31, 2011 and 2010, the benefit obligation attributable to the Respondent for the pension plan was \$11.8 million and \$10.8 million, respectively, and for the other postretirement plan was \$4.4 million and \$3.7 million, respectively.

Kern River Gas Transmission Company	(1) <u>X</u> An Original (2) <u>A Resubmission</u>	(Mo, Da, Yr)	2011/Q4						
Notes to Financial Statements									

The funded status of the plans for MEC and its participating affiliates as of December 31 is as follows (in millions):

	Pension					Other Pos	stretire	ment
	2011		2010		2011		2010	
Plan assets at fair value, end of year	\$	555	\$	546	\$	213	\$	216
Less - Benefit obligation, end of year		799		738		198		189
Funded status	\$	(244)	\$	(192)	\$	15	\$	27

As of December 31, 2011, the Respondent recorded an affiliate company payable included in accumulated provision for pensions and benefits relating to the under funded status of the pension plan and an affiliate company receivable included in other special funds relating to the over funded status of the other postretirement plan of \$0.6 million and \$0.9 million, respectively on the Balance Sheets. As of December 31, 2010, the Respondent recorded an affiliate company receivable included in other special funds relating to the over funded status of the pension and other postretirement plans of \$2.9 million on the Balance Sheets. Amounts attributable to the Respondent were allocated from MEC to the Respondent in accordance with the intercompany administrative service agreement. Offsetting regulatory assets and liabilities have been recorded related to the amounts not yet recognized as a component of net periodic benefit costs that will be included in regulated rates.

Unrecognized Amounts

The portion of the funded status of the plans for MEC and its participating affiliates not yet recognized in net periodic benefit cost as of December 31 is as follows (in millions):

		Pension				ension Other Post		
	_	2011	2	2010	2	2011		2010
Net loss	\$	111	\$	18	\$	48	\$	21

⁽¹⁾ Represents adjustments to regulatory assets associated with income tax benefits that will no longer be realized when the net periodic benefit cost is recognized as a result of the healthcare reform legislation.

The net loss and prior service cost (credit) for MEC and its participating affiliates that will be amortized in 2012 into net periodic benefit cost are estimated to be as follows (in millions):

	, ,		Pri Serv			
	Ne	t Loss	Cost (C	Credit)	To	<u>tal</u>
Pension	\$	3	\$	1	\$	4
Other postretirement	<u></u>	3		<u>(6</u>)		(3)
Total	\$	6	\$	(5)	\$	1

The net loss and prior service cost amounts expected to be recognized by the Respondent for the year ended December 31, 2012 for the pension plan and the other postretirement plan are a credit of \$0.1 million.

Plan Assumptions

Assumptions used to determine benefit obligations and net periodic benefit cost for MEC and its participating affiliates were as follows:

	Pension		Other P	ostretirement
	2011	2010	2011	2010
Benefit obligations as of December 31:				
Discount rate	4.75%	5.50%	4.75%	5.50%
Rate of compensation increase	3.50%	3.50%	N/A	N/A
Net periodic benefit cost for the years endedDecember 31:				
Discount rate	5.50%	6.00%	5.50%	6.00%
Expected return on plan assets(1)	7.50%	7.50%	7.50%	7.50%
Expected return on plan assets ⁽¹⁾ Rate of compensation increase	3.50%	3.00%	N/A	N/A

FERC FORM NO. 2/3-Q (REV 12-07)	122.12	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) <u>X</u> An Original	(Mo, Da, Yr)		
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4	
Notes to Financial Statements				

(1) Amounts reflected are pre-tax values. Assumed after-tax returns for a taxable, non-union other postretirement plan were 5.75% for 2011 and 2010.

	<u> 2011</u>	<u> 2010</u>
Assumed healthcare cost trend rates as of December 31:		
Healthcare cost trend rate assumed for next year	7.40%	8.00%
Rate that the cost trend rate gradually declines to	5.00%	5.00%
Year that the rate reaches the rate it is assumed to remain at	2016	2016

In establishing MEC's assumption as to the expected return on plan assets, MEC utilizes the expected asset allocation and return assumptions for each asset class based on historical performance and forward-looking views of the financial markets.

A one percentage-point change in assumed healthcare cost trend rates would have the following effects for MEC and its participating affiliates (in millions):

	One Per	centage-Point
Increase (decrease) in:	Increase	Decrease
Total service and interest cost	\$ -	\$ -
Other postretirement benefit obligation	3	(2)

Contributions and Benefit Payments

MEC's contributions to its pension and other postretirement benefit plans are expected to be \$32 million and \$- million, respectively, during 2012. Funding to MEC's pension benefit plan trust is based upon the actuarially determined costs of the plan and the requirements of the Internal Revenue Code, the Employee Retirement Income Security Act of 1974 and the Pension Protection Act of 2006, as amended. MEC considers contributing additional amounts from time to time in order to achieve certain funding levels specified under the Pension Protection Act of 2006, as amended. MEC's funding policy for its other postretirement benefit plan is to contribute an amount equal to the net periodic benefit cost. The Respondent's contributions to the pension plan and the other postretirement plan are expected to be \$0.7 million and \$0.5 million, respectively, during 2012.

Net periodic benefit costs assigned to MEC affiliates are reimbursed currently in accordance with the intercompany administrative service agreement. The expected benefit payments to participants in MEC's pension and other postretirement benefit plans for 2012 through 2016 and for the five years thereafter are summarized below (in millions):

	Proj	Projected Benefit Payments		
	Pension	Other Postretirement		
2012	\$ 52	\$ 14		
2013	53	15		
2014	56	16		
2015	56	16		
2016	59	17		
2017-21	316	91		

Plan Assets

Investment Policy and Asset Allocations

MEC's investment policy for its pension and other postretirement benefit plans is to balance risk and return through a diversified portfolio of debt securities, equity securities, and other alternative investments. Maturities for debt securities are managed to targets consistent with prudent risk tolerances. The plans retain outside investment advisors to manage plan investments within the parameters

FERC FORM NO. 2/3-Q (REV 12-07) 122.13	
--	--

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)		
Kern River Gas Transmission Company	(2) _ A Resubmission	/ /	2011/Q4	
Notes to Financial Statements				

outlined by the MidAmerican Energy Pension and Employee Benefits Plans Administrative Committee. The investment portfolio is managed in line with the investment policy with sufficient liquidity to meet near-term benefit payments. The return on assets assumption for each plan is based on a weighted-average of the expected historical performance for the types of assets in which the plans invest.

The target allocations (percentage of plan assets) for MEC's pension and other postretirement benefit plan assets are as follows as of December 31, 2011:

		Other
	Pension	Postretirement
Debt securities(1)	20-30%	25-35%
Equity securities ⁽¹⁾	65-75%	60-80%
Real estate funds	0-10%	- %
Other	0-5%	0-5%

(1) For purposes of target allocation percentages and consistent with the plans' investment policy, investment funds have been allocated based on the underlying investments in debt and equity securities.

Fair Value Measurements

A financial asset or liability classification within the three levels of the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The three levels are as follows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that an entity has the ability to access at the measurement date.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).
- Level 3 Unobservable inputs reflect an entity's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. An entity develops these inputs based on the best information available, including its own data.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
· ·	(1) X An Original	(Mo, Da, Yr)	-	
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4	
Notes to Financial Statements				

When available, a readily observable quoted market price or net asset value of an identical security in an active market is used to record the fair value. In the absence of a quoted market price or net asset value of an identical security, the fair value is determined using pricing models or net asset values based on observable market inputs and quoted market prices of securities with similar characteristics. When observable market data is not available, the fair value is determined using unobservable inputs, such as estimated future cash flows, purchase multiples paid in other comparable third-party transactions or other information. The real estate funds determine fair value of their underlying assets using independent appraisals given there is no current liquid market for the underlying assets. The following table reconciles the beginning and ending balances of MEC's pension plan assets measured at fair value using significant Level 3 inputs for the years ended December 31 (in millions):

	 Real Estate Funds		
	 2011		2010
Beginning balance	\$ 17	\$	15
Actual return on plan assets still held at period end	4		2
Purchases	3		-
Sales	 		
Ending balance	\$ 24	\$	17

MEC sponsors a defined contribution plan for MEC and its participating affiliates covering substantially all employees. MEC's contributions are based primarily on each participant's level of contribution and cannot exceed the maximum allowable for tax purposes. MEC's contributions to the plan were \$15 million for each of the years ended December 31, 2011 and 2010, respectively.

The Respondent participates in the MEC sponsored defined contribution plan and contributed \$0.5 million for each of the years ended December 31, 2011 and 2010.

(8) Income Taxes

Income tax expense consists of the following for the years ended December 31 (in thousands):

	_	2011	_	2010
Current:				
Federal	\$	43,939	\$	28,177
State		6,416		3,981

Total deferred income tax liabilities		(470,527)		(350,764)
Net deferred income tax liability	<u>\$</u>	(338,983)	\$	(323,277)

As of December 31, 2011, the Respondent has federal and state carryforwards for net operating losses totaling \$92.8 million, which expire between 2026 and 2031.

The United States Internal Revenue Service has closed examinations of MEHC's income tax returns through February 2006, including components related to the Respondent. In addition, state jurisdictions have closed examination of MEHC's income tax returns through at least February 9, 2006.

(9) Commitments and Contingencies

Legal Matters

The Respondent is party to a variety of legal actions arising out of the normal course of business. Plaintiffs occasionally seek punitive or exemplary damages. The Respondent does not believe that such normal and routine litigation will have a material effect on its financial results.

Construction Commitments

The Respondent has future capital requirements for its ongoing construction program. The Respondent has approved plans to meet new market opportunities and system reliability objectives. Capital expenditure needs are reviewed regularly by management and may change significantly as a result of such reviews. Estimates may change significantly at any time as a result of, among other factors, changes in rules and regulations, including environmental; changes in income tax laws; general business conditions; load projections; system reliability standards; the cost and efficiency of construction labor, equipment, and materials; and the cost and availability of capital. The Respondent's firm construction commitments as of December 31, 2011 were \$36.1 million for the year ended December 31, 2012.

Operating Leases, Easements and Maintenance Contracts

The Respondent has non-cancelable operating leases primarily for computer equipment, office space and land. These leases generally require the Respondent to pay for insurance, taxes and maintenance applicable to the leased property. Certain leases contain renewal options for varying periods and escalation clauses for adjusting rent to reflect changes in price indices. The minimum payments under these leases as of December 31, 2011 were \$1.4 million, for each of the years 2012 through 2016 and \$3.7 million for the years thereafter. These amounts are not reflected on the Balance Sheets. For each of the years ended December 31, 2011 and 2010, rent expense on non-cancelable operating leases totaled \$1.1 million, and was included in operating expenses on the Statements of Income.

FERC FORM NO. 2/3-Q (REV 12-07)	122.18	
---------------------------------	--------	--

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report				
Kern River Gas Transmission Company	(2) _ A Resubmission	/ / /	2011/Q4				
Notes to Financial Statements							

The Respondent has a construction, operation and maintenance agreement with Mojave and Mojave Pipeline Operating Company, ("Mojave Pipeline Operating"). Mojave Pipeline Operating serves as operator and agent of the common facilities beginning at Daggett, California. The twenty year term of the construction, operation and maintenance agreement ended on February 15, 2012 and was amended. The amended term expires on December 31, 2013. The agreement automatically renews each year thereafter unless the Respondent or Mojave provides six months written notice of intent to terminate. Under the terms of this agreement, the Respondent and Mojave reimburse Mojave Pipeline Operating for their share of the pipeline expenses under a fixed arrangement. In the event that Mojave Pipeline Operating is unwilling or unable to serve as an operator following the expiration of this agreement, the Respondent believes that it or one of its affiliates could fulfill this role. The expected minimum payments under this agreement as of December 31, 2011 were \$2.2 million for 2012 and \$2.2 million for 2013.

(10) Credit Risk

The Respondent has a concentration of customers, which includes utilities, marketers and major oil and natural gas companies in California, Nevada and Utah. This concentration of customers may impact the Respondent's overall exposure to credit risk in that the customer base may be similarly affected by changes in economic, industry, weather or other conditions.

The following customers accounted for 10% or more of the Respondent's total revenues for the years ended December 31 and accounts receivable as of December 31:

	Rev	<u> Revenue</u>		<u>Receivable</u>
	2011	2010	2011	2010
NV Energy	14%	12%	17%	10%
Southwest Gas Corporation	6%	3%	12%	13%

As a general policy, collateral is not required for receivables from creditworthy customers. Customers' financial condition and creditworthiness are regularly evaluated, and historical losses have been minimal. In order to provide protection against credit risk, and as permitted by the terms of the Respondent's tariff, the Respondent has, among other alternatives, required customers that lack creditworthiness, as defined by the tariff, to provide letters of credit, cash security deposits or to establish separate legally restricted escrow funds to be held until these customers' creditworthiness can be demonstrated. As of December 31, 2011 and 2010, the Respondent has reflected escrow funds of \$0.1 million and \$-million, respectively, in special deposits and \$21.9 million and \$9.0 million, respectively, in other special funds. The Respondent also had offsetting cash security deposit and escrow fund obligations of \$22.0 million and \$9.0 million as of December 31, 2011 and 2010, respectively, in customer deposits on the Balance Sheets. Letters of credit, not reflected on the Balance Sheets, were \$127.8 million and \$137.1 million as of December 31, 2011 and 2010, respectively.

(11) Other Related Party Transactions

MEHC provides certain administrative and management services, including executive, financial, legal, and tax, to the Respondent. Expenses incurred by MEHC and billed to the Respondent are based on the individual services and expense items provided and were \$2.3 million and \$2.5 million for the years ended December 31, 2011 and 2010, respectively. Income tax transactions with MEHC resulted in net payments of \$47.2 million and \$39.3 million for the years ended December 31, 2011 and 2010, respectively.

MEC provides certain administrative and management services, including executive, financial, legal, human resources, payroll and tax, to the Respondent. Expenses incurred by MEC and billed to the Respondent are based on the individual services and expense items provided and were \$0.8 million and \$0.6 million for the years ended December 31, 2011 and 2010, respectively.

As of December 31, 2011 and 2010, the Respondent had net accounts payable to MEHC and certain subsidiaries for intercompany transactions totaling \$1.3 million and \$0.6 million, respectively, which is reflected in accounts payable on the Balance Sheets.

Northern Natural Gas Company ("Northern"), an indirect wholly owned subsidiary of MEHC, provides certain administrative and management services, including executive, financial, regulatory, and legal, to the Respondent. The Respondent was billed \$1.1 million and \$0.8 million for the years ended December 31, 2011 and 2010, respectively, for these services.

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report				
Kern River Gas Transmission Company	(2) _ A Resubmission	/ /	2011/Q4				
Notes to Financial Statements							

Northern provides risk management services to the Respondent, pursuant to a service agreement dated August 1, 2008. The Respondent assumes all risks, liabilities, losses and profits associated with these risk management services. Northern entered into specific risk management transactions that settled on behalf of the Respondent totaling \$0.6 million and \$3.8 million for the years ended December 31, 2011 and 2010, respectively.

The Respondent provided natural gas transportation and other services to PacifiCorp, an indirect subsidiary of MEHC, of \$3.4 million and \$3.3 million for the years ended December 31, 2011 and 2010, respectively. PacifiCorp provided electricity and other services to the Respondent of \$0.6 million and \$0.5 million for the years ended December 31, 2011 and 2010, respectively. PacifiCorp provides certain administrative and management services, including information technology, legislative and financial, to the Respondent. Expenses incurred by PacifiCorp and billed to the Respondent are based on the individual services and expense items provided and were \$0.2 million and \$- million for the years ended December 31, 2011 and 2010, respectively. As of December 31, 2011 and 2010, the Respondent had net accounts receivable from PacifiCorp for intercompany transactions totaling \$0.3 million, which is reflected in customer accounts receivable on the Balance Sheets.

For the years ended December 31, 2011 and 2010, the Respondent distributed to its partners \$- million and \$15.0 million, respectively, and received a contribution from its partners of \$55.0 million and \$55.0 million, respectively.

	G	as Plant in Service (Accounts 1	01, 102, 103, and 106) (conti	nued)				
Accoude 6. So classification of the classifi	including the reversals of the prior years tentative account distributions of these amounts. Careful observance of the above instructions and the texts of account 101 and 106 will avoid serious omissions of respondent's reported amount for plant actually in service at end of year. 6. Show in column (f) reclassifications or transfers within utility plant accounts. Include also in column (f) the additions or reductions of primary account classifications arising from distribution of amounts initially recorded in Account 102. In showing the clearance of Account 102, include in column (e) the mounts with respect to accumulated provision for depreciation, acquisition adjustments, etc., and show in column (f) only the offset to the debits or redits to primary account classifications. 7. For Account 399, state the nature and use of plant included in this account and if substantial in amount submit a supplementary statement showing ubaccount classification of such plant conforming to the requirements of these pages. 8. For each amount comprising the reported balance and changes in Account 102, state the property purchased or sold, name of vendor or purchaser, and date of transaction. If proposed journal entries have been filed with the Commission as required by the Uniform System of Accounts, give date of uch filing.

FOOTNOTE DATA								

Schedule Page: 217 Line No.: 1 Column: b

The Commission authorized Respondent's 2003 Expansion in Docket No. CP01-422 and Respondent's 2010 Expansion in Docket No. CP08-429. The Commission's June 4, 2009 order in Docket No. CP08-429 authorized rolled in rate treatment, allowing the 2010 Expansion to be rolled into the Respondent's incremental 2003 Expansion rates.

Schedule Page: 217 Line No.: 1 Column: e

Accumulated depreciation reported of \$282,957,979 reflects depreciation accrued on tangible plant in service of \$1,245,742,432 for Responent's 2003 and 2010 Expansions. In addition to accumulated depreciation, Respondent has recorded accumulated amortization in the amount of \$6,626,572 on intangible plant in service of \$34,868,961 for its 2003 and 2010 Expansions.

Schedule Page: 217 Line No.: 1 Column: i

Depreciation expense reported of \$69,017,979 reflects depreciation accrued on tangible plant in service of \$1,245,742,432 for Respondent's 2003 and 2010 Expansions. In addition to reported depreciation expense for tangible plant, Respondent has accrued amortization expense in the amount of \$896,938 on intangible plant in service of \$34,868,961 for its 2003 and 2010 Expansions.

Schedule Page: 217 Line No.: 2 Column: i

Reported depreciation expense of \$1,027,585 reflects depreciation accrued on tangible plant in service of \$27,407,102 for Respondent's High Desert Expansion. In addition to reported depreciation expense, Respondent has accrued amortization expense in the amount of \$118,263 on intangible plant in service of \$2,484,514 for its High Desert Expansion.

Schedule Page: 217 Line No.: 1 Column: d

Plant in service for Respondent's 2003 and 2010 Expansions includes tangible plant in the amount of \$1,245,742,432 and intangible plant in the amount of \$34,868,961 for total reported plant in service of \$1,280,611,393.

Schedule Page: 217 Line No.: 2 Column: d

Plant in service for Respondent's High Desert Expansion includes tangible plant of \$27,407,102 and intangible plant of \$2,484,514 for total reported plant in service of \$29,891,616.

Schedule Page: 217 Line No.: 2 Column: e

Accumulated depreciation reported of \$11,798,375 reflects depreciation accrued on tangible plant in service of \$27,407,102 for the High Desert Expansion. In addition to accumulated depreciation, Respondent has recorded accumulated amortization of \$1,090,772 on intangible plant in service of \$2,484,514 for the High Desert Expansion.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report					
·	(1) X An Original	(Mo, Da, Yr)	·					
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4					
General Description of Construction Overhead Procedure								

1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or

indirectly assigned.

2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.

3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

- (a) Engineering, supervision, general office salaries and expenses and supervision provided by others, related to the general oversight of capital construction projects are charged to an overhead work order.
- (b) A study was conducted to determine which employees devote a portion of their time in support of construction activities. Based on this study a percentage of such employees' payroll and, based on Salt Lake City office personnel payroll charged to capital, a portion of Respondent's Salt Lake City office rent are charged each month to the overhead work order to be allocated to construction projects.
- (c) The overhead costs are allocated to individual projects based on direct charges to each capital construction project excluding overhead and AFUDC.
- (d) A minimum overhead rate has been established for non expansion construction projects to ensure that a representative share of construction overhead is charged to these smaller projects.
- (e) Each month the total overhead charges for the month are divided by the total current month direct charges to construction projects excluding AFUDC and overhead charges to determine an overall overhead rate. If the overall overhead rate is less than the established minimum overhead rate for non-expansion projects, the minimum overhead rate is applied to the direct current month charges of the non-expansion project excluding overhead and AFUDC. The balance of unallocated construction overhead is allocated to expansion projects based on the rate determined by dividing the overhead balance by the direct charges to expansion projects for the month excluding overhead and AFUDC.

If the overall overhead rate is greater than the minimum overhead rate established for non-expansion projects, the overall overhead rate is applied to all direct charges for all construction projects regardless if the project is for expansion or non-expansion construction.

Overheads allocated to Compressor engine exchanges are allocated at the same rate as non-expansion projects, but are capped at \$15,000 because the purchase price of the engine is disproportional to the construction overhead required to change out the engine.

(f) Overhead is directly assigned to each work order based on current month charges excluding overheads and AFUDC.

Securities Issued or Assumed and Securities Refunded or Retired During the Year							

- 1. Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.
- 2. Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gain or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.
- 3. Include in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for the different accounting and state the accounting method.
- 5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

During 2011, the Respondent made all the monthly scheduled principal and interest payments on its 6.676% Senior Notes, due 2016 as required by its indenture agreement. For 2011, principal payments were \$25,666,667 and interest payments were \$16,604,695.

During 2011, the Respondent made all the monthly scheduled principal and interest payments on its 4.893% Senior Notes, due 2018 as required by its indenture agreement. For 2011, principal payments were \$48,662,167 and interest payments were \$21,749,643.

With respect to members of the MEHC Sub-Group, MidAmerican Energy Holdings Company (MEHC) requires all subsidiaries to pay to or receive from MEHC an amount of tax based primarily on the stand-alone method of allocation. The computation includes all tax benefits from tax deductions stemming from cost borne by utility customers.

The Apex expansion incremental facility generated a tax net operating loss in the amount of \$244,820,144 for the year ended December 31, 2011. Under the Respondent's current rate structure, this amount may not be utilized to offset taxable income generated by other Respondent incremental facilities. Therefore, this amount will be carried forward and utilized to offset future taxable income generated by the Apex expansion incremental facility. The amount may be carried forward for twenty years.

FOOTNOTE DATA									

Schedule Page: 313 Line No.: 2 Column: b

Discounted revenue and quantities are reported for all interruptible transactions that were less than the maximum interruptible rate. In addition, all firm contracts that have a discounted rate component (either for demand or for commodity or both) are reported. If a firm contract is defined as a discounted contract, all commodity quantities are shown and all revenue - both demand and commodity are reported. If a contract can be considered both a negotiated rate contract and a discounted contract, the contract quantities and revenues are all reported in the negotiated rate columns.

Schedule Page: 317 Line No.: 260 Column: b

The following is the disclosure required by RP04-274 for the qualified pension plan:

Service cost	\$ 2011 939,724	\$	2010 990,122
Interest cost	605,908		576,827
Expected return on assets	(873,555)		(700,000)
Prior service cost amortization	17,261		(763,093) 17,261
Net loss/(gain) amortization	-		(44.070)
Amortization of regulatory asset (liability)	(16,607)		(11,679)
Respondent's actual benefit cost incurred*	 672,731		(16,607) 792,831
Less: cost included for the pension plan in	1,305,325		1,305,325
RP04-274 Expense more (less) than RP04-274	\$ (632,594)	\$	(512,494)

^{*}Reported actual expenses were based upon actuarial studies provided to the Respondent for the reporting periods shown and charged to the Respondent.

The funded status of the qualified pension plan was \$(581k) and \$608k as of December 31, 2011 and 2010, respectively.

Amounts which are chargeable from another affiliate are assigned first by coding to the specific affiliate. These charges were based on actual labor, benefits, and operational costs incurred. Amounts not directly assignable to an individual affiliate, such as work performed where multiple affiliates benefit, are assigned on the basis of allocations from MidAmerican Energy Holdings Company, MHC Inc., and MidAmerican Energy Company, as described below:

Allocator	Description
Labor and Assets	An equal weighting of each company's labor and assets expressed as a percentage of the whole ((labor % + assets %) / 2) determines the portion assigned to each company. Labor is 12 months ended through December of the prior year. Assets are total assets at December 31 of the prior year. Five combinations of this allocator are used for allocating services that benefit different companies within the holding company organization.
Legislative and Regulatory	The Legislative and Regulatory allocation is used to allocate costs incurred by the holding company's Legislative & Regulatory groups. The Legislative & Regulatory groups work on a variety of legislative and regulatory subject matter for select groups of companies within the holding company organization. The Legislative & Regulatory allocation percentages are based on the Legislative & Regulatory groups' estimation of the time and resources that are being spent on these selected companies.
Information Technology Infrastructure	Allocates costs related to shared information technology infrastructure owned by the affiliate to other benefited affiliates based on an aggregation of various measures of usage of such infrastructure including storage capacity utilized, number of servers utilized, server processing times, etc.
Employee Count	This allocator distributes costs to benefited affiliates based on employee counts at such affiliates as of the prior year end.
Processes	This allocator distributes costs of electronic data interchange software and services based on the number of employees within each affiliate using such software or services.
Oracle Users	This allocator distributes costs of Oracle software and services based on the number of employees within each affiliate using such software and services.
Plant	This allocator distributes costs of managing the corporate insurance function based on assets for each affiliate.

New compressor station added in 2011 as part of the Apex Expansion project. The newly added compressor station was available for operation on October 1, 2011.

Schedule Page: 508 Line No.: 11 Column: a

Additional unit added in 2011 as part of the Apex Expansion project. The newly added compressor unit was available for operation on June 23, 2011.

Schedule Page: 508 Line No.: 13 Column: a

The Daggett compressor station was run for one hour in 2011 for the sole purpose of determining the readiness of the compressor. Respondent retains the compressor station in ready for service status in anticipation that operating conditions may change that would require placing the station on line to meet the certificated capacity of the pipeline system.

Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4				
FOOTNOTE DATA							

Schedule Page: 520 Line No.: 5 Column: c

Quantity plus line 10 equals lines 1 and 2 of column J on page 305. The Respondent bills on net scheduled receipt quantities; therefore, it is necessary to include shipper imbalances from gross scheduled quantities to match the billable quantity booked to account 489.2.

Schedule Page: 520 Line No.: 9 Column: c

Exchanged gas received from others represents operational balancing agreement balances which are the difference between actual receipts and scheduled receipts.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520 Line No.: 10 Column: c

Gas received as imbalances represents transportation imbalances which are the difference between scheduled deliveries and net scheduled receipts.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520 Line No.: 15 Column: c

Other Deliveries and Gas Used for Other Operations is represented by the following (all amounts in decatherms):

	Year to date Mainline and Common Facility	Quarter to date Mainline and Common Facility
Apex linepack purchase	466,465	295,705
Apex compressor fuel usage Apex Expansion blow down	(193,748)	-
	(155,181)	(92,026)
	117,536	203,679

Schedule Page: 520 Line No.: 20 Column: c

Quantity plus line 10 equals lines 1 and 2 of column J on page 305. The Respondent bills on net scheduled receipt quantities; therefore, it is necessary to include shipper imbalances from gross scheduled quantities to match the billable quantity booked to account 489.2.

Use the total on page 305 for ACA collection purposes. Kern River collected ACA on quantities of 848,458,279 decatherms for calendar year 2011, which is the total on page 305 column J.

Schedule Page: 520 Line No.: 24 Column: c

Exchanged gas delivered from others represents operational balancing agreement imbalances which are the difference between actual deliveries and scheduled deliveries.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of

December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520 Line No.: 25 Column: c

Gas delivered as imbalances represents transportation imbalances which are the difference between actual deliveries and scheduled deliveries.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520 Line No.: 32 Column: c

Gas losses and gas unaccounted for represents transmission system losses of 1,082,601 Dth and change in linepack of 255,000 Dth for a total of 1,337,601 Dth.

Schedule Page: 520.1 Line No.: 5 Column: c

Quantity equals line 3 and 4 of column J on pg 305.

Schedule Page: 520.1 Line No.: 9 Column: c

Exchanged gas received from others represents operational balancing agreement balances which are the difference between actual receipts and scheduled receipts.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520.1 Line No.: 20 Column: c

Quantity equals line 3 and 4 of column J on page 305.

Use the total on page 305 for ACA collection purposes. Kern River collected ACA on quantities of 848,458,279 decatherms for calendar year 2011, which is the total on page 305 column J.

Schedule Page: 520.1 Line No.: 24 Column: c

Exchanged gas delivered from others represents operational balancing agreement imbalances which are the difference between actual deliveries and scheduled deliveries.

Quantity does not match that on page 328 because quantity on page 328 is a cumulative life-to-date imbalance as of December 31, 2011. Line 9 reflects total quantity of exchange gas received from others during 2011 only. It is more accurate to use said quantity here rather than page 328.

Schedule Page: 520.1 Line No.: 32 Column: c

Gas losses and gas unaccounted for represents transmission system losses of 12,363 Dth and change in linepack of 364 Dth for a total of 12,727 Dth.

Schedule Page: 520 Line No.: 9 Column: d

Exchanged gas received from others represents operational balancing agreement imbalances which are the difference between actual receipts and scheduled receipts.

Schedule Page: 520 Line No.: 10 Column: d

Gas received as imbalances represents transportation imbalances which are the difference between scheduled deliveries and net scheduled receipts.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
·	(1) X An Original	(Mo, Da, Yr)	
Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 521 Line No.: 4 Column: n

The Respondent accounts for gas used in compressors by debiting account 854 and crediting account 810. The amount is calculated by multiplying the Dth quantity by the Kern River Wyoming index rate published in the Platts Gas Daily Price Guide at the first of every month. The Respondent does not account for shipper supplied gas, gas lost and unaccounted for, disposition of excess gas and gas acquired to meet deficiency on its general ledger. The Respondent tracks its fuel and lost and unaccounted for gas outside of its general ledger and adjusts its fuel and loss rates monthly. The Respondent files an annual report with FERC as required by its Gas Tariff that supports the fuel and lost and unaccounted for gas factors used in the previous calendar year.

Schedule Page: 521 Line No.: 4 Column: o

The Respondent accounts for gas used in compressors by debiting account 854 and crediting account 810. Kern River Gas Transmission Company	(2) _ A Resubmission	11	2011/Q4
	System Mans		

- 1. Furnish five copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- 2. Indicate the following information on the maps:
 - (a) Transmission lines.
 - (b) Incremental facilities.
 - (c) Location of gathering areas.
 - (d) Location of zones and rate areas.
 - (e) Location of storage fields.
 - (f) Location of natural gas fields.
 - (g) Location of compressor stations.
 - (h) Normal direction of gas flow (indicated by arrows).
 - (i) Size of pipe.
 - (j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.
 - (k) Principal communities receiving service through the respondent's pipeline.
- 3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger then this report. Bind the maps to the report.
