Northern Natural Gas Company

Year/Period of Report

End of <u>2011/Q4</u>

INSTRUCTIONS FOR FILING FERC FORMS 2, 2-A and 3-Q

GENERAL INFORMATION

I Purpose

FERC Forms 2, 2-A, and 3-Q are designed to collect financial and operational information form natural gas companies subject to the jurisdiction of the Federal Energy Regulatory Commission. These reports are also considered to be a non-confidential public use forms.

II. Who Must Submit

Each natural gas company whose combined gas transported or stored for a fee exceed 50 million dekatherms in each of the previous three years must submit FERC Form 2 and 3-Q.

Each natural gas company not meeting the filing threshold for FERC Form 2, but having total gas sales or volume transactions exceeding 200,000 dekatherms in each of the previous three calendar years must submit FERC Form 2-A and 3-Q.

Newly established entities must use projected data to determine whether they must file the FERC Form 3-Q and FERC Form 2 or 2-A.

III. What and Where to Submit

- (a) Submit Forms 2, 2-A and 3-Q electronically through the submission software at http://www.ferc.gov/docs-filing/eforms/form-2/elec-subm-soft.asp.
- (b) The Corporate Officer Certification must be submitted electronically as part of the FERC Form 2 and 3-Q filings.
- (c) Submit immediately upon publication, by either eFiling or mailing two (2) copies to the Secretary of the Commission, the latest Annual Report to Stockholders and any annual financial or statistical report regularly prepared and distributed to bondholders, security analysts, or industry associations. Do not include monthly and quarterly reports. Indicate by checking the appropriate box on Form 2, Page 3, List of Schedules, if the reports to stockholders will be submitted or if no annual report to stockholders is prepared. Unless eFiling the Annual Report to Stockholders, mail these reports to the Secretary of the Commission at:

Secretary of the Commission Federal Energy Regulatory Commission 888 First Street, NE Washington, DC 20426

- (d) For the Annual CPA certification, submit with the original submission of this form, a letter or report (not applicable to respondents classified as Class C or Class D prior to January 1, 1984) prepared in conformity with the current standards of reporting which will:
 - (i) Contain a paragraph attesting to the conformity, in all material respects, of the schedules listed below with the Commission's applicable Uniform Systems of Accounts (including applicable notes relating thereto and the Chief Accountant's published accounting releases), and
 - (ii) be signed by independent certified public accountants or an independent licensed public accountant certified or licensed by a regulatory authority of a State or other political subdivision of the U. S. (See 18 C.F.R. §§ 158.10-158.12 for specific qualifications.)

Reference	<u>Reference</u>
	Schedules Pages
Comparative Balance Sheet	110-113
Statement of Income	114-117
Statement of Retained Earnings	118-119
Statement of Cash Flows	120-121
Notes to Financial Statements	122-123

Filers should state in the letter or report, which, if any, of the pages above do not conform to the Commission's requirements. Describe the discrepancies that exist

- (e) Filers are encouraged to file their Annual Report to Stockholders, and the CPA Certification Statement using eFiling. To further that effort, new selections, "Annual Report to Stockholders" and "CPA Certification Statement," have been added to the dropdown "pick list" from which companies must choose when eFiling. Further instructions are found on the Commission website at http://www.ferc.gov/help/how-to.asp
- (f) Federal, State and Local Governments and other authorized users may obtain additional blank copies of FERC Form 2 and 2-A free of charge from: http://www.ferc.gov/docs-filing/eforms/form-2.pdf and http://www.ferc.gov/docs-filing/eforms/form-2a/form-2a.pdf, respectively. Copies may also be obtained from the Public Reference and Files Maintenance Branch, Federal Energy Regulatory Commission, 888 First Street, NE. Room 2A, Washington, DC 20426 or by calling (202).502-8371

IV. When to Submit:

FERC Forms 2, 2-A, and 3-Q must be filed by the dates:

- (a) FERC Form 2 and 2-A --- by April 18th of the following year (18 C.F.R. §§ 260.1 and 260.2)
- (b) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2 must file the FERC Form 3-Q within 60 days after the reporting quarter (18 C.F.R.§ 260.300), and
- (c) FERC Form 3-Q --- Natural gas companies that file a FERC Form 2-A must file the FERC Form 3-Q within 70 days after the reporting quarter (18 C.F.R. § 260.300).

V. Where to Send Comments on Public Reporting Burden.

The public reporting burden for the Form 2 collection of information is estimated to average 1,623 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data-needed, and completing and reviewing the collection of information. The public reporting burden for the Form 2A collection of information is estimated to average 250 hours per response. The public reporting burden for the Form 3-Q collection of information is estimated to average 165 hours per response.

Send comments regarding these burden estimates or any aspect of these collections of information, including suggestions for reducing burden, to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426 (Attention: Information Clearance Officer); and to the Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503 (Attention: Desk Officer for the Federal Energy Regulatory Commission). No person shall be subject to any penalty if any collection of information does not display a valid control number (44 U.S.C. § 3512 (a)).

GENERAL INSTRUCTIONS

- I. Prepare all reports in conformity with the Uniform System of Accounts (USofA) (18 C.F.R. Part 201). Interpret all accounting words and phrases in accordance with the USofA.
- II. Enter in whole numbers (dollars or Dth) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important. The truncating of cents is allowed except on the four basic financial statements where rounding is required.) The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting period, and use for statement of income accounts the current year's year to date amounts.
- III Complete each question fully and accurately, even if it has been answered in a previous report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page(s) that is not applicable to the respondent, omit the page(s) and enter "NA," "NONE," or "Not Applicable" in column (d) on the List of Schedules, pages 2 and 3.
- V. Enter the month, day, and year for all dates. Use customary abbreviations. The "Date of Report" included in the header of each page is to be completed only for resubmissions.
- VI. Generally, except for certain schedules, all numbers, whether they are expected to be debits or credits, must be reported as positive. Numbers having a sign that is different from the expected sign must be reported by enclosing the numbers in parentheses.
- VII For any resubmissions, submit the electronic filing using the form submission only. Please explain the reason for the resubmission in a footnote to the data field.
- VIII. Footnote and further explain accounts or pages as necessary.
- IX. Do not make references to reports of previous periods/years or to other reports in lieu of required entries, except as specifically authorized.
- X. Wherever (schedule) pages refer to figures from a previous period/year, the figures reported must be based upon those shown by the report of the previous period/year, or an appropriate explanation given as to why the different figures were used.
- XI. Report all gas volumes in Dth unless the schedule specifically requires the reporting in another unit of measurement.

DEFINITIONS

- Btu per cubic foot The total heating value, expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60°F if saturated with water vapor and under a pressure equivalent to that of 30°F, and under standard gravitational force (980.665 cm. per sec) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state (called gross heating value or total heating value).
- II. <u>Commission Authorization</u> -- The authorization of the Federal Energy Regulatory Commission, or any other Commission. Name the commission whose authorization was obtained and give date of the authorization.
- III. Dekatherm A unit of heating value equivalent to 10 therms or 1,000,000 Btu.
- IV <u>Respondent</u> The person, corporation, licensee, agency, authority, or other legal entity or instrumentality on whose behalf the report is made.

EXCERPTS FROM THE LAW (Natural Gas Act, 15 U.S.C. 717-717w)

"Sec. 10(a). Every natural-gas company shall file with the Commission such annual and other periodic or special reports as the Commission may by rules and regulations or order prescribe as necessary or appropriate to assist the Commission in the proper administration of this act. The Commission may prescribe the manner and form in which such reports shall be made and require from such natural-gas companies specific answers to all questions upon which the Commission may need information. The Commission may require that such reports include, among other things, full information as to assets and liabilities, capitalization, investment and reduction thereof, gross receipts, interest dues and paid, depreciation, amortization, and other reserves, cost of facilities, costs of maintenance and operation of facilities for the production, transportation, delivery, use, or sale of natural gas, costs of renewal and replacement of such facilities, transportation, delivery, use and sale of natural gas..."

"Section 16. The Commission shall have power to perform all and any acts, and to prescribe, issue, make, amend, and rescind such orders, rules, and regulations as it may find necessary or appropriate to carry out the provisions of this act. Among other things, such rules and regulations may define accounting, technical, and trade terms used in this act; and may prescribe the form or forms of all statements declarations, applications, and reports to be filed with the Commission, the information which they shall contain, and time within they shall be filed..."

General Penalties

The Commission may assess up to \$1 million per day per violation of its rules and regulations. See NGA § 22(a), 15 U.S.C. § 717t-1(a).

		olders and Voting F	owers		,				
or co and s footr the tr year, show comi 2. votin conti 3. of co 4. the r infor	1. Give the names and addresses of the 10 security holders of the respondent who, at the date of the latest closing of the stock book or compilation of list of stockholders of the respondent, prior to the end of the year, had the highest voting powers in the respondent, and state the number of votes that each could cast on that date if a meeting were held. If any such holder held in trust, give in a footnote the known particulars of the trust (whether voting trust, etc.), duration of trust, and principal holders of beneficiary interests in the trust. If the company did not close the stock book or did not compile a list of stockholders within one year prior to the end of the year, or if since it compiled the previous list of stockholders, some other class of security has become vested with voting rights, then show such 10 security holders as of the close of the year. Arrange the names of the security holders in the order of voting power, commencing with the highest. Show in column (a) the titles of officers and directors included in such list of 10 security holders. 2. If any security other than stock carries voting rights, explain in a supplemental statement how such security became vested with voting rights and give other important details concerning the voting rights of such security. State whether voting rights are actual or contingent; if contingent, describe the contingency. 3. If any class or issue of security has any special privileges in the election of directors, trustees or managers, or in the determination of corporate action by any method, explain briefly in a footnote. 4. Furnish details concerning any options, warrants, or rights outstanding at the end of the year for others to purchase securities of the respondent or any securities or other assets owned by the respondent, including prices, expiration dates, and other material information relating to exercise of the options, warrants, or rights. Specify the amount of such securities or assets any officer, director, associated company, or any of

Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4						
Important Changes During the Quarter/Year									

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.

Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.

- 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
- 13. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio.

3. Transmission Facilities Sold

Milbank and Ortonville, South Dakota Transmission System (Milbank) - On March 31, 2011, the Respondent sold to Northwestern Corporation D/B/A Northwestern Energy its South Dakota transmission system from the Milbank town border station (TBS) located in the NE1/4 SE1/4of Sec. 22, T114N, R50W, Deuel County, South Dakota, to the end of the pipeline in Big Stone City, at the South Dakota and Minnesota state line valve set located at the east line of the NE1/4 of Sec. 17, T121N, R46W, Grant County, South Dakota, and the west line of the NW1/4 of Sec. 16, T121N, R46W, Big Stone County, Minnesota. This includes the complete Ortonville TBS located in part of Outlot 45 in the NW1/4 SW1/4 of Sec. 17, T121N, R46W, Grant County, South Dakota, and all take-off piping from the pipeline to the inlet of the delivery point regulator settings that supply the communities of Clear Lake, LaBolt, Milbank and Big Stone City in South Dakota.

Respondent constructed the Milbank system in 1992 pursuant to Section 311A of the Natural Gas Policy Act (NGPA). Therefore, Commission approval to sell the facilities was not required. Respondent filed the proposed accounting entries with the Commission on September 26, 2011 and the Commission approved the proposed accounting on January 11, 2012.

4. None

5. CP11-98-000

By Commission order issued April 5, 2011, the Respondent was granted approval to abandon units #5, #6 and #7, totaling

Name of Respondent	This Report is:	Date of Report	Year/Period of Report

	Important Changes During the Quarter/Year									

4,800 horsepower, at the Sunray compressor station located in Moore County, Texas. The units were abandoned November 1, 2011.

BLANKET CERTIFICATE ACTIVITIES

Pursuant to the Respondent's blanket authority granted September 1, 1982, in Docket No. CP82-401-000, the following facilities were constructed/abandoned:

The Northern Lights 2011 facilities were constructed which include: (1) replacement of the existing 350-horsepower (HP) electric unit with an 800-HP electric unit at the Pierz compressor station in Morrison County, Minnesota, the existing unit was abandoned in-place; (2) an 1,100-HP compressor driven by an electric motor at the new Elk River compressor station in Sherburne County, Minnesota; (3) replacement of the existing 1,500-HP electric motor with a 2,000-HP electric motor at the Popple Creek compressor station in Benton County, Minnesota; and (4) modifications at the existing Becker and Stacy town border stations located in Sherburne and Chisago counties in Minnesota, respectively. The Northern Lights 2011 facilities provide phased-in incremental capacity of 10,149 dekatherms/day (DTH/day) effective November 1, 2011, 10,393 DTH/day in 2012, 10,629 DTH/day in 2013, and 10,684 DTH/day, effective November 1, 2014. The facilities were all ready for and/or in-service October 2011.

Approximately 2.7 miles of 12-inch-diameter branch line was constructed in Itasca County, Minnesota, for Essar Steel Minnesota, LLC. The pipeline, which provides phased-in incremental capacity of 50 DTH/day effective December 31, 2011, 5,000 DTH/day in 2012, and 10,000 DTH/day in 2013, was ready for service December 27, 2011.

§311 FACILITIES

No important extensions or reductions of the Respondent's transmission system occurred pursuant to §311(a) of the Natural Gas Policy Act of 1978 from January 1 through December 31, 2011.

Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 117 Line No.: 5 Column: g

The (\$742,993) pertains to natural gas commodity swaps.

Fair Value Hedges

The Respondent has entered into natural gas commodity swaps accounted for as fair value hedges with the following objectives: 1) hedge the change in fair value of firm fixed-price gas sale and purchase contracts required for operational storage balancing purposes, and 2) hedge the change in fair value of firm fixed-price storage revenue contracts.

During 2010 the Respondent changed its accounting for fair value changes associated with derivatives related to the management of operational storage. Fair value changes are now recorded as a net regulatory asset or liability until the derivative settles. See Note 6 included in the Notes to Financial Statements. As a result, for the twelve-month period ending December 31, 2010, the Respondent recognized a pre-tax gain of \$675,739 in account 483 for gas sales contracts; and a pre-tax loss of \$419,219 in account 803 for gas purchase contracts and deferred pre-tax losses of \$254,454 in account 182.3 for operational gas purchase and sales contracts and recognized a pre-tax loss of \$3,084,700 in account 489.4 for storage revenue contracts.

As of December 31, 2010, the fair value of the hedged items was \$9,441,319 reported in account 174. The fair value of the hedging instruments was \$(11,196,486) reported in account 245, and \$(10,071,874) reported in account 242 related to settlements of hedging instruments and amortization of net settlement losses.

Schedule Page: 117 Line No.: 10 Column: g

The (\$1,595,847) pertains to natural gas commodity swaps.

Fair Value Hedges

As of December 31, 2011, there were no fair value hedges.

For the twelve-month period ending December 31, 2011, the Respondent recognized a pre-tax gain of \$4,762,500 in account 483 for gas sales contracts; and a pre-tax loss of \$4,044,875 in account 803 for gas purchase contracts and recognized a pre-tax gain of \$1,061,887 in account 489.4 for storage revenue contracts.

Statement of Retained Earnings 1. Report all changes in appropriated retained earnings, unappropriated retained earnings and unappropriated undistributed subsidiary earnings for the year. 2. Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4			
Notes to Financial Statements						

- 1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
- 2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
- 3. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets. Entities that participate in multiemployer postretirement benefit plans (e.g. parent company sponsored pension plans) disclose in addition to the required disclosures for the consolidated plan, (1) the amount of cost recognized in the respondent's financial statements for each plan for the period presented, and (2) the basis for determining the respondent's share of the total plan costs.
- 4. Furnish details on the respondent's asset retirement obligations (ARO) as required by instruction no. 1 and, in addition, disclose the amounts recovered through rates to settle such obligations. Identify any mechanism or account in which recovered funds are being placed (i.e. trust funds, insurance policies, surety bonds). Furnish details on the accounting for the asset retirement obligations and any changes in the measurement or method of accounting for the obligations. Include details on the accounting for settlement of the obligations and any gains or losses expected or incurred on the settlement.
- 5. Provide a list of all environmental credits received during the reporting period.
- 6. Provide a summary of revenues and expenses for each tracked cost and special surcharge.
- 7. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these item. See General Instruction 17 of the Uniform System of Accounts.
- 8. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 9. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
- 10. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
- 11. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
- 12. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- 13. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
- 14. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.
- 15. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

(1) Organization and Operations

Northern Natural Gas Company (the "Respondent") is an indirect wholly-owned subsidiary of MidAmerican Energy Holdings Company ("MEHC"), a holding company based in Des Moines, Iowa, that owns subsidiaries principally engaged in the energy business. MEHC is a consolidated subsidiary of Berkshire Hathaway Inc. ("Berkshire Hathaway"). The Respondent owns an interstate natural gas pipeline system in the United States, which reaches from southern Texas to Michigan's Upper Peninsula (the "System"). The System, which is interconnected with many interstate and intrastate pipelines in the national grid system, consists of two distinct, but operationally integrated, markets. Its traditional end-use and distribution market area, referred to as the Market Area, includes points in Iowa, Nebraska, Minnesota, Wisconsin, South Dakota, Michigan and Illinois. Its natural gas supply and delivery service area, referred to as the Field Area, includes points in Kansas, Texas, Oklahoma and New Mexico. The Respondent primarily transports and stores natural gas for utilities, municipalities, other pipeline companies, gas marketing companies, industrial and commercial users and other end-users. The System consists of 14,900 miles of natural gas pipelines, including 6,500 miles of mainline transmission pipelines and 8,400 miles of branch and lateral pipelines, with a Market Area design capacity of 5.5 billion cubic feet ("bcf") per day and a Field Area delivery capacity of 2.0 bcf per day to the Market Area. Additionally, the Respondent has three underground natural gas storage

	(1) <u>X</u> An Original	(Mo, Da, Yr)				
Northern Natural Gas Company	(2) _ A Resubmission	/ /	2011/Q4			
Notes to Financial Statements						

facilities and two liquefied natural gas storage peaking units that have a total firm service and operational storage cycle capacity of 73 bcf and over 2.0 bcf of peak day delivery capability. The System is configured with approximately 2,400 active receipt and delivery points (excluding farm taps) which are integrated with the facilities of local distribution companies ("LDC"). Many of the Respondent's LDC customers are part of combined utilities that also use natural gas as a fuel source for electric generation. The Respondent delivers approximately 0.9 trillion cubic feet of natural gas to its customers annually. Based on a review of relevant 2010 industry data, the System is the largest single pipeline in the United States as measured by pipeline miles.

(2) Summary of Significant Accounting Policies

Basis of Presentation

The financial statements and supporting schedules were prepared in accordance with the Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission ("FERC"). The FERC-approved tariff establishes rates, terms and conditions under which the Respondent provides services to its customers. The Uniform System of Accounts is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"). Financial accounting and reporting differences between FERC and GAAP for the Respondent are principally related to account classifications such as but not limited to: Plant held for sale is a current asset for GAAP and is included in gas plant for FERC; costs incurred and revenues collected for future plant retirement costs are classified as a regulatory liability for GAAP and as accumulated provision for depreciation for FERC; and deferred tax assets and liabilities are presented as gross assets and liabilities for FERC purposes, but are netted for GAAP.

Use of Estimates in Preparation of Financial Statements

The preparation of the Financial Statements in conformity with FERC guidelines requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. These estimates include, but are not limited to, the effects of regulation; unbilled revenue; income taxes; valuation of certain financial assets and liabilities, including derivative contracts; long-lived asset recovery; asset retirement obligations ("AROs"); and accounting for contingencies. Actual results may differ from the estimates used in preparing the Financial Statements. The Respondent has evaluated subsequent events through April 17, 2012, which is the date the audited Financial Statements were available to be issued.

Accounting for the Effects of Certain Types of Regulation

The Respondent prepares its financial statements in accordance with authoritative guidance for regulated operations, which recognizes the economic effects of regulation. Accordingly, the Respondent is required to defer the recognition of certain costs or income if it is probable that, through the ratemaking process, there will be a corresponding increase or decrease in future regulated rates.

The Respondent continually evaluates the applicability of the guidance for regulated operations and whether its regulatory assets and liabilities are probable of inclusion in future regulated rates by considering factors such as a change in the regulator's approach to setting regulated rates from cost-based ratemaking to another form of regulation, other regulatory actions or the impact of competition which could limit the Respondent's ability to recover its costs. Based upon this continuous evaluation, the Respondent believes the application of the guidance for regulated operations is appropriate and its existing regulatory assets and liabilities are probable of inclusion in future regulated rates. The evaluation reflects the current political and regulatory climate at the federal level and is subject to change in the future. If it becomes no longer probable that the deferred costs or income will be included in future regulated rates, the related regulatory assets and liabilities will be written-off to net income, returned to customers or re-established as accumulated other comprehensive income ("AOCI").

Fair Value Measurements

As defined under GAAP, fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants in the principal market or in the most advantageous market when no principal market exists. Adjustments to transaction prices or quoted market prices may be required in illiquid or disorderly markets in order to estimate fair value. Different valuation techniques may be appropriate under the circumstances to determine the value that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Market participants are assumed to be independent, knowledgeable, able and willing to transact an

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report				
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4				
Notes to Financial Statements							

exchange and not under duress. Nonperformance or credit risk is considered in determining fair value. Considerable judgment may be required in interpreting market data used to develop the estimates of fair value. Accordingly, estimates of fair value presented herein are not necessarily indicative of the amounts that could be realized in a current or future market exchange.

Cash Equivalents and Restricted Cash

Cash equivalents consist of funds invested in money market funds and other investments with a maturity of three months or less when purchased. Cash and cash equivalents exclude amounts where availability is restricted by legal requirements or other contractual provisions. Restricted amounts are included in special deposits and other special funds on the Balance Sheets.

Allowance for Doubtful Accounts

Trade receivables are stated at the outstanding principal amount, net of estimated allowances for doubtful accounts. The allowance for doubtful accounts is based on the Respondent's assessment of the collectibility of amounts owed to the Respondent by its customers. This assessment requires judgment regarding the ability of customers to pay or the outcome of any pending disputes. As of December 31, 2011 and 2010, the allowance for doubtful accounts totaled \$0.8 million and \$1.3 million, respectively, and is included in customer accounts receivable and other accounts receivable on the Balance Sheets.

Derivatives

The Respondent employs a number of different derivative contracts, including forward gas purchase and gas sale contracts and gas price commodity and basis swaps to manage price risk for natural gas. Derivative contracts are recorded on the Balance Sheets as either assets or liabilities and are stated at estimated fair value unless they are designated as normal purchases or normal sales and qualify for the exception afforded by GAAP. Derivative balances reflect offsetting permitted under master netting agreements with counterparties.

Commodity derivatives used in normal business operations that are settled by physical delivery, among other criteria, are eligible for and may be designated as normal purchases or normal sales. Normal purchases or normal sales contracts are not marked-to-market and settled amounts are recognized as gas operating revenues, operating expenses and other income and deductions on the Statements of Income.

For the Respondent's derivatives not designated as hedging contracts, the settled amount is generally includable in regulated rates. Accordingly, the net unrealized gains and losses associated with interim price movements on contracts that are accounted for as derivatives and probable of inclusion in regulated rates are recorded as regulatory assets and liabilities. For the Respondent's derivatives not designated as hedging contracts and for which changes in fair value are not recorded as regulatory assets and liabilities, unrealized gains and losses are recognized on the Statements of Operations as gas operating revenues for sales contracts and operating expenses or other income and deductions for purchase contracts and natural gas and fuel swap contracts.

For the Respondent's derivatives designated as hedging contracts, the Respondent formally assesses, at inception and thereafter, whether the hedging contract is highly effective in offsetting changes in the hedged item. The Respondent formally documents hedging activity by transaction type and risk management strategy.

Changes in the estimated fair value of a derivative contract designated and qualified as a cash flow hedge, to the extent effective, are included on the Statement of Accumulated Comprehensive Income and Hedging Activities as AOCI, net of tax, until the contract settles and the hedged item is recognized in earnings. The Respondent discontinues hedge accounting prospectively when it has determined that a derivative contract no longer qualifies as an effective hedge, or when it is no longer probable that the hedged forecasted transaction will occur. When hedge accounting is discontinued because the derivative contract no longer qualifies as an effective hedge, future changes in the estimated fair value of the derivative contract are charged to earnings. Gains and losses related to discontinued hedges that were previously recorded in AOCI will remain in AOCI until the contract settles and the hedged item is recognized in earnings, unless it becomes probable that the hedged forecasted transaction will not occur at which time associated deferred amounts in AOCI will be immediately recognized in earnings. Changes in the estimated fair value of a derivative contract designated and qualified as a fair value hedge are recognized in earnings.

·	(1) X An Original	(Mo, Da, Yr)				
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4			
Notes to Financial Statements						

Transportation Imbalances

Shippers schedule their volumes into the Respondent's System with subsequent deliveries to various markets. Imbalance receivables from and payables to shippers are created when receipts to the System from shippers vary from deliveries off the System, including quantities retained by the pipeline for fuel. Receipts and deliveries from third parties in connection with balancing and other gas service contracts also result in imbalances. Such imbalances are valued at contractual or market rates and recorded as miscellaneous current and accrued assets or liabilities on the Balance Sheets with offsetting entries to operating expenses on the Statements of Income. The imbalances cause offsetting changes in the volumes of system balancing gas, which are priced at contractual or market rates, and are recorded as adjustments to system gas balances in the gas owed to system gas utility account on the Balance Sheets and to operating expenses on the Statements of Income. Settlement of imbalances occurs in accordance with the contractual terms of the agreements and timing of delivery of gas based on operational conditions.

Inventories

Inventories consist primarily of materials and supplies, which mainly include replacement parts used in the periodic overhaul of gas compressor units and materials for construction, operation and maintenance and are stated at average cost.

Utility Plant, Net

General

Additions to utility plant are recorded at cost. The Respondent capitalizes all construction-related material, direct labor and contract services, as well as indirect construction costs, which include debt and equity allowance for funds used during construction ("AFUDC") on rate base assets. The cost of additions and betterments is capitalized, while costs incurred that do not improve or extend the useful lives of the related assets are generally expensed. The Respondent is permitted to earn a return on the cost of its rate base assets as well as recover these costs through depreciation expense over the useful lives of the assets.

Depreciation and amortization are computed by applying the composite or straight-line method based on either estimated useful lives or mandated recovery periods as prescribed by the FERC. Depreciation studies are completed by the Respondent to determine the appropriate group lives, net salvage and group depreciation rates. These studies are reviewed and rates are ultimately approved by the FERC. Under the composite method when utility plant is retired, the original cost of the property retired is charged to accumulated depreciation and amortization, net of salvage and removal costs. For general plant, the original cost of the property retired is charged to accumulated depreciation and amortization at the end of the depreciable lives of the asset vintages. Retirement gains or losses are not included in income except in the case of sales of operating units.

The Respondent capitalizes debt and equity AFUDC, which represents the estimated costs of debt and equity funds necessary to finance the construction of regulated facilities, as a component of utility plant, with offsetting credits to the Statements of Income. AFUDC is computed based on guidelines set forth by the FERC. After construction is completed, the Respondent is permitted to earn a return on these costs as a component of the related assets, as well as recover these costs through depreciation expense over the useful lives of the related assets.

AFUDC on borrowed funds totaled \$0.4 million and \$0.9 million for the years ended December 31, 2011 and 2010, respectively, and is included in interest charges on the Statements of Income. AFUDC on equity funds totaled \$1.0 million and \$1.9 million for the years ended December 31, 2011 and 2010, respectively, and is included in other income on the Statements of Income.

System Gas

Storage base gas and system balancing gas are accounted for utilizing the fixed asset accounting method as prescribed by the FERC. Under this approach, system gas volumes are classified as utility plant and valued at cost. Temporary encroachments upon system gas are valued at contractual or current market prices.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report				
·	(1) X An Original	(Mo, Da, Yr)					
Northern Natural Gas Company	(2) A Resubmission	11	2011/Q4				
Notes to Financial Statements							

Asset Retirement Obligations

The Respondent recognizes AROs when it has a legal obligation to remove or abandon-in-place an asset upon retirement. The Respondent's AROs are primarily related to the decommissioning of all offshore Gulf Coast facilities. The fair value of an ARO liability is recognized in the period in which it is incurred, if a reasonable estimate of fair value can be made, and is added to the carrying amount of the associated asset, which is then depreciated over the remaining useful life of the asset. Subsequent to the initial recognition, the ARO liability is adjusted for any revisions to the original estimate of undiscounted cash flows (with corresponding adjustments to utility plant) and for accretion of the ARO liability due to the passage of time. The difference between the ARO liability, the corresponding ARO asset included in utility plant and amounts recovered in regulated rates to satisfy such liabilities is recorded as a regulatory asset or liability. When an ARO is settled, the related ARO asset net of accumulated depreciation and the ARO regulatory asset are cleared against the ARO liability. ARO settlement costs are charged to the accumulated depreciation reserve and are collected from the Respondent's customers through a provision in the Respondent's rates.

Impairment

The Respondent evaluates long-lived assets for impairment, including utility plant, when events or changes in circumstances indicate that the carrying value of such assets may not be recoverable, or the assets are being held for sale. Upon the occurrence of a triggering event, the asset is reviewed to assess whether the estimated undiscounted cash flows expected from the use of the asset plus the residual value from the ultimate disposal exceeds the carrying value of the asset. If the carrying value exceeds the estimated recoverable amounts, the asset is written down to the estimated fair value. The impacts of regulation are considered when evaluating the carrying value of rate base assets. For non-rate base assets, any resulting impairment loss is reflected on the Statements of Income.

Revenue Recognition

Revenue from customers is recognized as natural gas is delivered or services are provided. Revenue recognized includes billed, as well as unbilled, amounts. As of December 31, 2011 and 2010, unbilled revenue was \$5.0 million and \$9.1 million, respectively, and is included in customer accounts receivables on the Balance Sheets. The Respondent's transportation and storage revenue is primarily derived from fixed reservation charges based on contractual quantities and regulated rates. The remaining revenue, consisting primarily of commodity charges, is based on contractual rates and estimated usage based on scheduled quantities. Differences between scheduled quantities and actual measured quantities are reflected in revenue during the following month and historically have been immaterial.

The Respondent is subject to FERC regulations and, accordingly, certain revenue collected may be subject to refund upon final FERC orders in pending regulated rate proceedings. The Respondent may record revenue that is subject to refund based on its best estimates of the final outcomes of such proceedings and other third party regulatory proceedings, advice of counsel and estimated total exposure, as well as collection and other risks. The Respondent had no earned revenue subject to refund for the years ended December 31, 2011 and 2010.

Income Taxes

Berkshire Hathaway includes MEHC and its subsidiaries in its United States federal income tax return. Consistent with established regulatory practice, the Respondent's provision for income tax expense has been computed on a stand-alone basis, and substantially all of its respective currently payable or receivable income taxes are remitted to or received from MEHC.

Deferred income tax assets and liabilities are based on differences between the financial statement and income tax basis of assets and liabilities using estimated income tax rates expected to be in effect for the year in which the differences are expected to reverse. Changes in deferred income tax assets and liabilities that are associated with components of other comprehensive income ("OCI") are charged or credited directly to OCI. Other changes in deferred income tax assets and liabilities are included as a component of income tax expense. Valuation allowances are established for certain deferred income tax assets where realization is not likely.

In determining the Respondent's income taxes, management is required to interpret complex income tax laws and regulations, which includes consideration of regulatory implications imposed by the FERC. The Respondent's income tax returns are subject to continuous examinations by federal, state and local income tax authorities that may give rise to different interpretations of these complex laws and regulations. Due to the nature of the examination process, it generally takes years before these examinations are

Name of Respondent	This Report is:	Date of Report	Year/Period of Report				
·	(1) X An Original	(Mo, Da, Yr)					
Northern Natural Gas Company	(2) A Resubmission	11	2011/Q4				
Notes to Financial Statements							

completed and these matters are resolved. The Respondent recognizes the tax benefit from an uncertain tax position only if it is more-likely-than-not that the tax position will be sustained on examination by the taxing authorities, based on the technical merits of the position. The tax benefits recognized in the Financial Statements from such a position are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. Although the ultimate resolution of the Respondent's federal, state and local income tax examinations is uncertain, the Respondent believes it has made adequate provisions for these income tax positions. The aggregate amount of any additional income tax liabilities that may result from these examinations, if any, is not expected to have a material adverse impact on the Respondent's financial results.

New Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-11, which amends FASB Accounting Standards Codification ("ASC") Topic 210, "Balance Sheet." The amendments in this guidance require an entity to provide quantitative disclosures about offsetting financial instruments and derivative instruments. Additionally, this guidance requires qualitative and quantitative disclosures about master netting agreements or similar agreements when the financial instruments and derivative instruments are not offset. This guidance is effective for fiscal years beginning on or after January 1, 2013, and for interim periods within those fiscal years. The Respondent is currently evaluating the impact of adopting this guidance on its disclosures included within Notes to Financial Statements.

In June 2011, the FASB issued ASU No. 2011-05, which amends FASB ASC Topic 220, "Comprehensive Income." ASU No. 2011-05 provides an entity with the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of the option chosen, this guidance also requires presentation of items on the face of the financial statements that are reclassified from other comprehensive income to net income. This guidance does not change the items that must be reported in other comprehensive income, when an item of other comprehensive income must be reclassified to net income or how tax effects of each item of other comprehensive income are presented. This guidance is effective for reporting periods ending after December 15, 2012. The Respondent is currently evaluating which presentation option will be implemented. In December 2011, the FASB issued ASU No. 2011-12, which also amends FASB ASC Topic 220 to defer indefinitely the ASU No. 2011-05 requirement to present items on the face of the financial statements that are reclassified from other comprehensive income to net income. ASU No. 2011-12 is also effective for reporting periods ending after December 15, 2012.

In May 2011, the FASB issued ASU No. 2011-04, which amends FASB ASC Topic 820, "Fair Value Measurements and Disclosures." The amendments in this guidance are not intended to result in a change in current accounting. ASU No. 2011-04 requires additional disclosures relating to fair value measurements categorized within Level 3 of the fair value hierarchy, including quantitative information about unobservable inputs, the valuation process used by the entity and the sensitivity of unobservable input measurements. Additionally, entities are required to disclose the level of the fair value hierarchy for assets and liabilities that are not measured at fair value in the balance sheet, but for which disclosure of the fair value is required. This guidance is effective for reporting periods beginning after December 15, 2011. The Respondent is currently evaluating the impact of adopting this guidance on its disclosures included within Notes to Financial Statements.

In January 2010, the FASB issued ASU No. 2010-06, which amends FASB ASC Topic 820, "Fair Value Measurements and Disclosures." ASU No. 2010-06 requires disclosure of (a) the amount of significant transfers into and out of Levels 1 and 2 of the fair value hierarchy and the reasons for those transfers and (b) gross presentation of purchases, sales, issuances and settlements in the Level 3 fair value measurement rollforward. This guidance clarifies that existing fair value measurement disclosures should be presented for each class of assets and liabilities. The existing disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements have also been clarified to ensure such disclosures are presented for the Levels 2 and 3 fair value measurements. The Respondent adopted this guidance as of January 1, 2010 with the exception of the disclosure requirement to present purchases, sales, issuances and settlements gross in the Level 3 fair value measurement rollforward, which the Respondent adopted as of January 1, 2011. The adoption of this guidance did not have a material impact on the Respondent's disclosures included within Notes to Financial Statements.

(3) Utility Plant, Net

Property, plant and equipment, net consists of the following as of December 31 (in thousands):

	Depreciation		
	Rates	2011	2010
Transmission and other plant	1.5%/4.64%	\$ 2,656,259	\$ 2,599,962
Storage plant ⁽¹⁾	1.25% to 3.33%	447,292	432,671
Intangible plant ⁽²⁾	4.4% to 20.0%	121,623	175,068
General plant and buildings	2.75%/10.0%	112,821	125,175
Utility plant		3,337,995	3,332,876
Construction in progress		9,534	16,957
Total utility plant		3,347,529	3,349,833
Accumulated depreciation and amortization		(1,192,560)	(1,231,105)
Net utility plant		2,154,969	2,118,728
System gas		68,908	65,374
Total utility plant, net		<u>\$ 2,223,877</u>	<u>\$ 2,184,102</u>

⁽¹⁾ Includes market-based underground storage facilities.

The Respondent had gross costs for capitalized software development of \$99.7 million and \$154.4 million and accumulated amortization of \$38.3 million and \$93.0 million as of December 31, 2011 and 2010, respectively, which is included in intangible plant and reflected in utility plant, net on the Balance Sheets. Capitalized software development costs are amortized at a rate of 4.4%.

The Respondent had gross costs for capitalized right of use or right of way of \$102.5 million and \$100.4 million and accumulated amortization of \$26.8 million and \$25.3 million as of December 31, 2011 and 2010, respectively, which is included in transmission and other plant and storage plant and reflected in utility plant, net on the Balance Sheets. Capitalized right of use or right of way costs are amortized at rates ranging from 1.25% to 4.64%.

For the years ended December 31, 2011 and 2010, depreciation expense of \$56.4 million and \$53.5 million, respectively, and amortization expense of \$6.9 million and \$6.6 million, respectively, were included in depreciation and amortization on the Statements of Income. The Respondent expects amortization expense to be, \$7.3 million for 2012, \$7.3 million for 2013, \$7.6 million for 2014, \$7.8 million for 2015 and \$7.9 million for 2016.

⁽²⁾ Includes costs for capitalized software development, contributions in aid of construction, organization and leasehold improvements.

(4) Regulatory Matters

Regulatory assets represent costs that are expected to be recovered in future regulated rates. The Respondent's regulatory assets reflected on the Balance Sheets consist of the following as of December 31 (in thousands):

	Weighted Average Remaining Life	2011	2010
	Kemaning Life	2011	2010
Unrealized loss on regulated derivative contracts	11 years	63,907	50,124
AROs	7 years	14,072	32,042
Smart pigging and hydrostatic testing costs	7 years	25,047	22,759
Deferred income taxes associated with equity AFUDC(1)	67 years	14,980	14,601
Computer systems development and other deferred costs	N/A	-	7,863
Post retirement benefit costs	1 year	1,027	5,733
Migration and system upgrade costs	3 years	3,370	4,560
Employee benefit plan ⁽²⁾	12 years	5,119	2,586
Fuel and unaccounted for gas	1 year	6,466	-
Other	Various	8,472	6,308
Total regulatory assets		<u>\$ 142,460</u>	<u>\$ 146,576</u>

⁽¹⁾ Amortized at the same rate as onshore transmission plant.

The Respondent had regulatory assets not earning a return on investment of \$110.5 million and \$116.3 million as of December 31, 2011 and 2010, respectively.

⁽²⁾ Represents amounts not yet recognized as a component of net periodic benefit cost that are expected to be included in regulated rates when recognized.

Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4			
	Notes to Financial Statements					

The fuel and unaccounted for gas regulatory asset (liability) is a periodic rate adjustment ("PRA") tracker, which is comprised of trackers for fuel and storage, unaccounted for gas and electric compression charges. The PRA surcharges, when approved, are added to the firm and interruptible transportation rates and storage rates. The fuel and unaccounted for gas regulatory asset (liability) consists of the following as of December 31 (in thousands):

	2011	2010
Electric compression tracker:		
Balance, January 1	\$ 32	\$ 129
Gas operating revenue	262	294
Operating expenses	(447)	(391)
Balance, December 31	(153)	32
Fuel and storage volumetric tracker:		
Balance, January 1	(4,733)	(18,494)
Gas used (1)	46,486	53,451
Gas retained (1)	(41,818)	(39,690)
Balance, December 31	(65)	(4,733)
Unaccounted for gas volumetric tracker:		
Balance, January 1	3,671	(6,964)
Unaccounted for activity (1)	4,103	5,252
Gas retained (1)	(1,090)	5,383
Balance, December 31	6,684	3,671
Total	<u>\$ 6,466</u>	<u>\$ (1,030)</u>

⁽¹⁾ Represents amounts recorded to the gas owed to system gas on the Balance Sheets.

Regulatory liabilities represent income to be recognized or amounts to be returned to customers in future periods. The Respondent's regulatory liabilities reflected on the Balance Sheets consist of the following as of December 31 (in thousands):

	Weighted Average Remaining Life	2011	2010
Employee benefit plan(1)	14 years	15,445	16,137
Post retirement benefit obligation	N/A	-	3,680
Fuel and unaccounted for gas	N/A	-	1,062
Interest rate lock gain	4 years	685	869
Other	Various	1,466	1,530
Total regulatory liabilities		<u>\$ 17,596</u>	\$ 23,278

⁽¹⁾ Represents amounts not yet recognized as a component of net periodic benefit cost that are to be returned to customers in future periods when recognized.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
	(1) X An Original	(Mo, Da, Yr)				
Northern Natural Gas Company (2) _ A Resubmission		11	2011/Q4			
	Notes to Financial Statements					

Other regulatory liabilities include Carlton surcharge revenue and daily delivery variance charge (DDVC) and penalty trackers. Pursuant to the tariff, the Respondent is allowed to collect Carlton surcharge revenues and DDVC and penalty revenues from the customers during the year. The amounts collected from customers earn interest. The customers are reimbursed each year with interest based on a weighted value proration. Other regulatory liabilities consist of the following as of December 31 (in thousands):

		2010
DDVC and penalty revenue tracker:		
Balance, January 1	\$ 735	\$ 1,616
Revenue collected (1)	596	569
Interest expense	19	28
Customer reimbursements	(686)	(1,478)
Balance, December 31	<u>664</u>	<u>735</u>
Carlton surcharge revenue tracker:		
Balance, January 1	795	740
Revenue collected (2)	2,196	2,179
Interest expense	20	20
Customer reimbursements	(2,209)	(2,144)
Balance, December 31	<u>\$ 802</u>	<u>\$ 795</u>

- (1) Represents amounts collected from customers and recorded to other revenue with offsetting amounts recorded to operating expenses in the Statements of Income.
- (2) Represents amounts collected from customers and recorded to gas transportation revenue with offsetting amounts recorded to operating expenses in the Statements of Income.

(5) Fair Value Measurements

The carrying value of the Respondent's cash, certain cash equivalents, receivables, payables and accrued liabilities approximates fair value because of the short-term maturity of these instruments. The Respondent has various financial assets and liabilities that are measured at fair value on the Financial Statements using inputs from the three levels of the fair value hierarchy. A financial asset or liability classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The three levels are as follows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Respondent has the ability to access at the measurement date.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).
- Level 3 Unobservable inputs reflect the Respondent's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. The Respondent develops these inputs based on the best information available, including its own data.

•	\$ 82,275	\$ 6,712	<u>\$</u>	<u>\$ (6,680)</u>	<u>\$ 82,307</u>
Liabilities - commodity derivatives	<u>\$ -</u>	<u>\$ (74,038</u>)	<u>\$ -</u>	\$ 6,680	<u>\$ (67,358</u>)

⁽¹⁾ Represents netting under master netting arrangements.

Derivative contracts are recorded on the Balance Sheets as either assets or liabilities and are stated at fair value unless they are designated as normal purchases or normal sales and qualify for the exception afforded by GAAP. When available, the fair value of derivative contracts is estimated using unadjusted quoted prices for identical contracts in the market in which the Respondent transacts. When quoted prices for identical contracts are not available, the Respondent uses forward price curves. Forward price curves represent the Respondent's estimates of the prices at which a buyer or seller could contract today for delivery or settlement at future dates. The Respondent bases its forward price curves upon market price quotations, when available, or internally developed and commercial models, with internal and external fundamental data inputs. Market price quotations are obtained from independent energy brokers, exchanges, direct communication with market participants and actual transactions executed by the Respondent. Market price quotations for certain major natural gas trading hubs are generally readily obtainable for the applicable term of the Respondent's outstanding derivative contracts; therefore, the Respondent's forward price curves for those locations and periods reflect observable market quotes. The estimated fair value of these derivative contracts is a function of underlying forward commodity prices, related volatility, counterparty creditworthiness and duration of contracts. Refer to Note 6 for further discussion regarding the Respondent's risk management and hedging activities.

The Respondent's investments in money market mutual funds are accounted for as available-for-sale securities and are stated at fair value. A readily observable quoted market price or net asset value of an identical security in an active market is used to record the fair value.

⁽²⁾ Amounts are included in cash, temporary cash investments and other special funds on the Balance Sheets. The fair value of these money market mutual funds approximates cost.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) X An Original	(Mo, Da, Yr)			
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4		
Notes to Financial Statements					

The Respondent's long-term debt is carried at cost on the Financial Statements. The fair value of the Respondent's long-term debt has been estimated based upon quoted market prices. The following table presents the carrying value and estimated fair value of the Respondent's long-term debt as of December 31 (in thousands):

		2011		2010
	Carrying <u>Value</u>	Fair <u>Value</u>	Carrying Value	Fair Value
Long-term debt	\$ 949,729	\$ 1,078,876	\$ 999,700	\$ 1,076,146

(6) Risk Management and Hedging Activities

The Respondent is exposed to the impact of market fluctuations in natural gas prices as supply and demand are impacted by, among many other unpredictable items, weather, market liquidity, customer usage, storage and transportation constraints. The Respondent does not engage in a material amount of proprietary trading activities.

The Respondent has established a risk management process that is designed to identify, assess, monitor, report, manage and mitigate each of the various types of risk involved in its business. To mitigate a portion of its natural gas price risk, the Respondent uses commodity derivative contracts generally at fixed prices to hedge natural gas for operational and preferred deferred delivery ("PDD") storage, storage losses, fuel requirements and other transactions. The Respondent uses natural gas commodity swaps to hedge the margin on forecasted gas sales and purchases required for operational storage balancing purposes to hedge the margin on anticipated future PDD storage contracts and to hedge the cost of replacing forecasted storage losses.

For certain designated markets, certain customers pay a fixed price of \$.09 per decatherm ("dth") of volumes delivered to purchase compressor fuel and system use gas from the Respondent. The Respondent estimates it will be required to purchase an annual average of 1.0 bcf of natural gas through October 2022 to meet these requirements based on a projected average system requirements factor of 1.2% of volumes delivered. The Respondent's contracts with these customers provide service through October 2019, with annual renewal options for one customer to continue service through October 2022. As of December 31, 2011, the Respondent had purchased gas and entered into swap agreements covering more than the expected contractual requirements through October 2022.

Interest rate risk exists on future debt issuances. The Respondent manages its interest rate risk by limiting its exposure to variable interest rates primarily through the issuance of fixed-rate long-term debt and by monitoring market changes in interest rates. Additionally, the Respondent may from time to time enter into interest rate derivative contracts, such as interest rate swaps or locks, to mitigate the Respondent's exposure to interest rate risk. The Respondent does not hedge all of its commodity price and interest rate risks, thereby exposing the unhedged portion to changes in market prices.

There have been no significant changes in the Respondent's accounting policies related to derivatives. Refer to Notes 2 and 5 for additional information on derivative contracts.

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report

Northern Natural Gas Company	(2) A Resubmission	11	2011/Q4		
Notes to Financial Statements					

Not Designated as Hedging Contracts

The following table reconciles the beginning and ending balances of the Respondent's regulatory assets and summarizes the pre-tax gains and losses on commodity derivative contracts recognized in regulatory assets, as well as amounts reclassified to earnings for the years ended December 31 (in thousands):

	<u>2011</u>	2010
Beginning balance	\$ 50,124	\$ -
Changes in fair value recognized in regulatory assets	22,407	2,053
Net losses reclassified from AOCI	-	49,260
Net losses reclassified to gas operating revenues	(6,227)	-
Net losses reclassified to operating expenses	(2,397)	(1,189)
Ending balance	\$ 63,907	\$ 50,124

The Respondent recognized pre-tax losses of \$0.4 million and \$6.1 million resulting from unrealized losses on purchase contracts for the years ended December 31, 2011 and 2010, respectively, which are included in operating expenses and other income and deductions on the Statement of Income.

Designated as Hedging Contracts

The following table reconciles the beginning and ending balances of the Respondent's accumulated other comprehensive loss (pre-tax) and summarizes pre-tax gains and losses on commodity derivative contracts designated and qualifying as cash flow hedges recognized in OCI, as well as amounts reclassified to earnings and regulatory assets for the years ended December 31 (in thousands):

	<u> 2011 </u>	2010
Beginning balance ⁽¹⁾	\$ 2,475	\$ 17,926
Changes in fair value recognized in OCI	(1,898)	36,918
Net losses reclassified to regulatory assets	-	(49,260)
Net gains reclassified to gas operating revenues	3,575	10,601
Net losses reclassified to operating expenses	(1,501)	(13,710)
Ending balance ⁽¹⁾	<u>\$ 2,651</u>	<u>\$ 2,475</u>

Certain derivative contracts have settled and the fair value at the date of settlement remains in accumulated other comprehensive loss and is recognized in earnings when the forecasted transactions impact earnings.

Realized gains and losses on hedges and hedge ineffectiveness are recognized on the Statements of Income as gas operating revenues or operating expenses depending upon the nature of the item being hedged. For the years ended December 31, 2011 and 2010, the Respondent recognized pre-tax losses of \$- million and \$0.8 million, respectively, in gas operating revenues resulting from cash flow hedge ineffectiveness and a pre-tax loss of \$0.2 million and a pre-tax gain of \$3.6 million, respectively, in operating expenses resulting from cash flow hedge ineffectiveness. As of December 31, 2011, the Respondent had cash flow hedges with expiration dates extending through December 2013 and the pre-tax unrealized gains forecasted to be reclassified from accumulated other comprehensive loss into earnings over the next twelve months are insignificant.

Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4			
Notes to Financial Statements						

Credit Risk

The Respondent extends unsecured credit to energy marketing companies, financial institutions and other market participants in conjunction with its derivative contracts. Credit risk relates to the risk of loss that might occur as a result of nonperformance by counterparties on their contractual obligations to make or take delivery of natural gas and to make financial settlements of these obligations. Credit risk may be concentrated to the extent that one or more groups of counterparties have similar economic, industry or other characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in market or other conditions. In addition, credit risk includes not only the risk that a counterparty may default due to circumstances relating directly to it, but also the risk that a counterparty may default due to circumstances involving other market participants that have a direct or indirect relationship with the counterparty.

The Respondent analyzes the financial condition of each counterparty before entering into any transactions, establishes limits on the amount of unsecured credit to be extended to each counterparty and evaluates the appropriateness of unsecured credit limits on an ongoing basis. To mitigate exposure to the financial risks of counterparties, the Respondent enters into netting arrangements that may include margining and cross-product netting agreements and may obtain third-party guarantees, letters of credit and cash deposits. Counterparties may be assessed fees for delayed payments. If required, the Respondent exercises rights under these arrangements, including calling on the counterparty's credit support arrangement.

Collateral and Contingent Features

In accordance with industry practice, certain derivative contracts contain provisions that require the Respondent to maintain specific credit ratings from one or more of the major credit rating agencies on its unsecured debt. These derivative contracts may either specifically provide bilateral rights to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features"). These rights can vary by contract and by counterparty. As of December 31, 2011, the Respondent's credit ratings from the three recognized credit rating agencies were investment grade.

The aggregate fair value of the Respondent's derivative contracts in liability positions with specific credit-risk-related contingent features totaled \$71.0 million and \$74.0 million as of December 31, 2011 and 2010, respectively, for which the Respondent had not posted collateral. If all credit-risk-related contingent features for derivative contracts in liability positions had been triggered as of December 31, 2011 and 2010, the Respondent would have been required to post \$68.6 million and \$67.4 million, respectively, of collateral. The Respondent's collateral requirements could fluctuate considerably due to market price volatility, changes in credit ratings, changes in legislation or regulation, or other factors.

(7) Long-Term Debt

Long-term debt consists of the following, including unamortized premiums and discounts, as of December 31 (dollars in thousands):

	Par Value	<u>2011</u>	2010
Long-term debt:			
7.0% Senior Notes, due 2011	\$ -	\$ -	\$ 250,000
5.375% Senior Notes, due 2012	300,000	299,955	299,904
5.125% Senior Notes, due 2015	100,000	99,948	99,934
5.75% Senior Notes, due 2018	200,000	199,967	199,963
4.25% Senior Notes, due 2021	200,000	199,958	-
5.8% Senior Bonds, due 2037	150,000	149,901	149,899
Total long-term debt	\$ 950,000	\$ 949,729	\$ 999,700

All of the Respondent's senior notes and bonds are due and payable on their respective maturity dates and none have mandatory prepayment terms.

Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4			
Notes to Financial Statements						

(8) Asset Retirement Obligations

The Respondent estimates its ARO liabilities based upon detailed engineering calculations of the amount and timing of the future cash spending for a third party to perform the required work. Spending estimates are escalated for inflation and then discounted at a credit-adjusted, risk-free rate. Changes in estimates could occur for a number of reasons, including plan revisions, inflation and changes in the amount and timing of the expected work.

The Respondent has concluded that it is legally obligated to remove, or abandon-in-place, its onshore pipeline and related equipment upon the final retirement of the pipeline. While interim removal or abandonment-in-place and replacement of such equipment is probable, the final retirement dates of these assets are not determinable, and therefore, the liabilities for their removal cannot be reasonably estimated. The Respondent has also identified AROs related to asbestos siding on some of its buildings. Because both the methods of settlement and the timing of the retirements are unknown, the amounts of these obligations cannot be reasonably estimated to determine the fair value of these obligations.

The following table reconciles the beginning and ending balances of the Respondent's ARO liabilities for the years ended December 31(in thousands):

		2011	2010
Beginning balance	\$	60,966	\$ 63,944
Change in estimated costs		(14,270)	(1,175)
Retirements		-	(5,454)
Accretion		2,905	 3,651
Ending balance	<u>\$</u>	49,601	\$ 60,966

The Respondent's most significant ARO liability relates to the abandonment of pipeline assets located in offshore waters. In 2008, the United States Army Corps of Engineers Galveston District ("Galveston District") informed the Respondent that its policy requires all pipelines in offshore Texas waters to be removed unless it would be detrimental to the environment or too hazardous to remove. The Respondent previously believed that it would be allowed to abandon the pipeline assets in-place based on approvals from the FERC and the Bureau of Ocean Energy Management, formerly known as the Minerals Management Service ("BOEM"), since the removal of pipelines may cause environmental and safety concerns. As a result, the Respondent recognized an additional probability-weighted ARO liability to include the potential removal of pipelines that meet these conditions.

In May 2011, the Galveston District sent a letter to the Respondent in response to the Respondent's request to abandon in-place certain pipelines located in offshore Texas waters. The Galveston District has determined that one of the pipelines, which is located in San Antonio Bay, must be removed. The remaining pipelines, as identified in the Respondent's request, will be allowed to be abandoned in-place pending approval of modifications to the existing permits for those pipelines. As a result, the Respondent's asset retirement obligation decreased primarily due to the changes in its assumptions regarding the removal of its offshore Texas facilities. These changes in the ARO liabilities did not impact earnings in 2011 or 2010.

In May 2011, the FERC approved the Respondent's Petition for Approval of Modified Settlement Amendment ("Settlement") to modify its Stipulation and Agreement of Settlement in Docket Nos. RP03-398-000 and RP04-155-000. The Settlement allows the Respondent to suspend effective April 1, 2011, the \$3.0 million annual payment to its Voluntary Employee Beneficiary Association ("VEBA") trust fund and increase its ARO allowance by the same amount. The Respondent currently recovers \$4.3 million per year in its cost of service for its ARO and such recovered funds are included in its general bank account. The ARO cost settlements and the ARO recovery amount are recorded in a separate subaccount of Account 108-Accumulated provision for depreciation of gas utility plant. Gains or losses are not recognized in the settlement of the Respondent's ARO liabilities. As of December 31, 2011 and 2010, the Respondent had incurred inception to date ARO settlements of \$32.8 million and \$32.7 million, respectively, and recovered a total of \$11.7 million and \$8.1 million, respectively, through its current regulated rates.

(9) Employee Benefit Plans

The Respondent participates in multi-employer benefit plans sponsored by MidAmerican Energy Company ("MEC"), an indirect wholly owned subsidiary of MEHC. The MidAmerican Energy Company Retirement Plan provides pension benefits for eligible

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
Northern Natural Gas Company	(1) <u>X</u> An Original (2) A Resubmission	(Mo, Da, Yr) / /	2011/Q4			
Notes to Financial Statements						

employees ("pension plan") and the MidAmerican Energy Company Welfare Benefit Plan provides certain postretirement health care and life insurance benefits for eligible retirees ("other postretirement plan") on behalf of the Respondent. Employees hired on or after January 1, 2008 for the pension plan or after June 30, 2004 for the other postretirement plan are not eligible to participate. Benefit obligations under the pension plan are based on a cash balance arrangement for salaried employees. Under the other postretirement plan, certain employees may become eligible for these benefits if they reach retirement age while working for the Respondent. Effective January 1, 2012, MEC changed the medical benefits for all Medicare-eligible participants in its other postretirement benefit plan. Medicare-eligible participants now enroll in individual medical plans, rather than company-sponsored plans, under which MEC contributes fixed amounts to the participant's health reimbursement account. Benefit obligations under the pension plan and other postretirement plans are determined for the Respondent's employees by an independent actuary.

Net Periodic Benefit Cost

For purposes of calculating the expected return on pension plan assets, a market-related value is used. The market-related value of plan assets is calculated by spreading the difference between expected and actual investment returns on equity investments over a five-year period beginning after the first year in which they occur.

Net periodic benefit cost for the plans of MEC and its participating affiliates included the following components for the years ended December 31 (in millions):

	Pension				Other Postretirement			
	_	2011	_	2010	2011			2010
Service cost	\$	18	\$	17	\$	4	\$	4
Interest cost		39		39		10		11
Expected return on plan assets		(43)		(40)		(13)		(13)
Net amortization Net periodic benefit cost (benefit)	\$	<u>-</u> 14	\$	<u>-</u> 16	\$	(<u>2</u>) (<u>1</u>)	<u>\$</u>	<u>(2)</u>

The Respondent's share of pension cost totaled \$1.1 million and \$1.5 million for the years ended December 31, 2011 and 2010, respectively. The Respondent's share of other postretirement cost totaled \$(1.2) million and \$(0.8) million for the years ended December 31, 2011 and 2010, respectively.

Funded Status

The following table is a reconciliation of the fair value of plan assets for MEC and its participating affiliates for the years ended December 31 (in millions):

	Pension				(Other Postretirement			
		2011_	_	<u>2010</u>	_	<u>2011</u>		2010	
Plan assets at fair value, beginning of year	\$	546	\$	497	\$	216	\$	204	
Employer contributions		55		24		2		2	
Participant contributions		-		-		7		8	
Actual return on plan assets		-		62		4		20	
Benefits paid		(46)		(37)		(16)		(18)	
Plan assets at fair value, end of year	\$	555	\$	546	\$	213	\$	216	

The Respondent's contributions to the pension plan and the other postretirement plan, including net periodic benefit cost, totaled \$2.3 million and \$1.4 million for the years ended December 31, 2011 and 2010, respectively. As of December 31, 2011 and 2010, the fair value of plan assets attributable to the Respondent in the pension plan was \$27.1 million and \$28.5 million, respectively, and the other postretirement plan was \$39.1 million and \$40.5 million, respectively. Amounts attributable to the Respondent were allocated from MEC to the Respondent in accordance with the intercompany administrative service agreement.

Benefits paid, net of Medicare subsidy		<u>(46</u>)		(37)		<u>(16</u>)		(18)
Benefit obligation, end of year	\$	799	\$	738	\$	198	\$	189
Accumulated benefit obligation, end of year	\$	771	\$	707				

MEC paid benefits from the plans to the Respondent's participants totaling \$7.5 million and \$7.8 million for the years ended December 31, 2011 and 2010, respectively. As of December 31, 2011 and 2010, the benefit obligation attributable to the Respondent for the pension plan was \$32.2 million and \$31.1 million, respectively, and for the other postretirement plan was \$23.6 million and \$25.2 million, respectively.

The funded status of the plans for MEC and its participating affiliates as of December 31 is as follows (in millions):

	Pension				Other Postretirement			ement
		2011_	_	<u>2010</u>	-	2011	_	2010
Plan assets at fair value, end of year	\$	555	\$	546	\$	213	\$	216
Less - Benefit obligation, end of year		799		738		198		189
Funded status	\$	(244)	\$	(192)	\$	15	\$	27

As of December 31, 2011, the Respondent recorded an affiliate company payable included in accumulated provision for pension and benefits relating to the under funded status of the pension plan and an affiliate company receivable included in other special funds relating to the over funded status of the other postretirement plan of \$5.1 million and \$15.4 million, respectively. As of December 31, 2010, the Respondent recorded an affiliate company payable included in accumulated provision for pension and benefits relating to the under funded status of the pension plan and an affiliate company receivable included in other special funds relating to the over funded status of the other postretirement plan of \$2.6 million and \$15.2 million, respectively. Amounts attributable to the Respondent were allocated from MEC to the Respondent in accordance with the intercompany administrative service agreement. Offsetting regulatory assets and liabilities have been recorded related to the amounts not yet recognized as a component of net periodic benefit costs that will be included in regulated rates.

FERC FORM NO. 2/3-Q (REV 12-07)	122.19	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
	(1) X An Original	(Mo, Da, Yr)				
Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4			
Notes to Financial Statements						

(1) Represents adjustments to regulatory assets associated with income tax benefits that will no longer be realized when the net periodic benefit cost is recognized as a result of the healthcare reform legislation.

The net loss and prior service cost (credit) for MEC and its participating affiliates that will be amortized in 2012 into net periodic benefit cost are estimated to be as follows (in millions):

	Prior Service							
	<u>Ne</u>	t Loss	Cos	t (Credit)	_ <u>To</u>	<u>tal</u>		
Pension	\$	3	\$	1	\$	4		
Other postretirement		3		<u>(6</u>)		(3)		
Total	<u>\$</u>	6	\$	<u>(5</u>)	\$	1_		

The net loss and prior service cost amounts expected to be recognized by the Respondent for the year ended December 31, 2012 for the pension plan and the other postretirement plan are a credit of \$- million and \$0.8 million, respectively.

Plan Assumptions

Assumptions used to determine benefit obligations and net periodic benefit cost for MEC and its participating affiliates were as follows:

	Per	nsion	Other Postretirement		
	2011	2010	2011	2010	
Benefit obligations as of December 31:					
Discount rate	4.75%	5.50%	475%	5.50%	
Rate of compensation increase	3.50%	3.50%	N/A	N/A	
Net periodic benefit cost for the years ended					
December 31:					
Discount rate	5.50%	6.00%	5.50%	6.00%	
Expected return on plan assets(1)	7.50%	7.50%	7.50%	7.50%	
Rate of compensation increase	3.50%	3.00%	N/A	N/A	

(1) Amounts reflected are pre-tax values. Assumed after-tax returns for a taxable, non-union other postretirement plan were 5.75% for 2011 and 2010.

	<u>2011</u>	2010
Assumed healthcare cost trend rates as of December 31:		
Healthcare cost trend rate assumed for next year	7.40%	8.00%
Rate that the cost trend rate gradually declines to	5.00%	5.00%
Year that the rate reaches the rate it is assumed to remain at	2016	2016

In establishing MEC's assumption as to the expected return on plan assets, MEC utilizes the expected asset allocation and return assumptions for each asset class based on historical performance and forward-looking views of the financial markets.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report				
	(1) X An Original	(Mo, Da, Yr)					
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4				
	Notes to Financial Statements						

A one percentage-point change in assumed healthcare cost trend rates would have the following effects for MEC and its participating affiliates (in millions):

	One Percen			
Increase (decrease) in:	Increase	Decrease		
Total service and interest cost	\$ -	\$ -		
Other postretirement benefit obligation	3	(2)		

Contributions and Benefit Payments

MEC's contributions to its pension and other postretirement benefit plans are expected to be \$32 million and \$- million, respectively, during 2012. Funding to MEC's pension benefit plan trust is based upon the actuarially determined costs of the plan and the requirements of the Internal Revenue Code, the Employee Retirement Income Security Act of 1974 and the Pension Protection Act of 2006, as amended. MEC considers contributing additional amounts from time to time in order to achieve certain funding levels specified under the Pension Protection Act of 2006, as amended. MEC's funding policy for its other postretirement benefit plan is to contribute an amount equal to the net periodic benefit cost.

The Respondent's contributions to the pension plan and the other postretirement plan are expected to be \$2.5 million and \$- million, respectively, during 2012. Refer to Note 8 for further discussion regarding the Respondent's Settlement and related transfer of VEBA contributions to ARO allowance.

Net periodic benefit costs assigned to MEC affiliates are reimbursed currently in accordance with the intercompany administrative service agreement. The expected benefit payments to participants in MEC's pension and other postretirement benefit plans for 2012 through 2016 and for the five years thereafter are summarized below (in millions):

Projected Benefit Payments		
Pension	Other Postretirement	
\$ 52	\$ 14	
53	15	
56	16	
56	16	
59	17	
316	91	
	\$ 52 53 56 56 59	

Plan Assets

Investment Policy and Asset Allocations

MEC's investment policy for its pension and other postretirement benefit plans is to balance risk and return through a diversified portfolio of debt securities, equity securities, and other alternative investments. Maturities for debt securities are managed to targets consistent with prudent risk tolerances. The plans retain outside investment advisors to manage plan investments within the parameters outlined by the MidAmerican Energy Pension and Employee Benefits Plans Administrative Committee. The investment portfolio is managed in line with the investment policy with sufficient liquidity to meet near-term benefit payments. The return on assets assumption for each plan is based on a weighted-average of the expected historical performance for the types of assets in which the plans invest.

FERC FORM NO. 2/3-Q (REV 12-07)	122.21	

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report					
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4					
	Notes to Financial Statements							

The target allocations (percentage of plan assets) for MEC's pension and other postretirement benefit plan assets are as follows as of December 31, 2011:

	Pension	Other Postretirement
Debt securities(1) Equity securities(1)	20-30% 65-75%	25-35% 60-80%
Equity securities ⁽¹⁾ Real estate funds Other	0-10% 0-5%	- % 0-5%

(1) For purposes of target allocation percentages and consistent with the plans' investment policy, investment funds have been allocated based on the underlying investments in debt and equity securities.

Fair Value Measurements

A financial asset or liability classification within the three levels of the fair value hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The three levels are as follows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that an entity has the ability to access at the measurement date.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means (market corroborated inputs).
- Level 3 Unobservable inputs reflect an entity's judgment about the assumptions market participants would use in pricing the asset or liability since limited market data exists. An entity develops these inputs based on the best information available, including its own data.

⁽¹⁾ Investment funds are comprised of mutual funds and collective trust funds. These funds represent equity and fixed maturity securities of approximately 83% and 17%, respectively, for 2011 and 81% and 19%, respectively, for 2010. Additionally, these funds are invested in United States and international securities of approximately 59% and 41%, respectively, for 2011 and 2010.

When available, a readily observable quoted market price or net asset value of an identical security in an active market is used to record the fair value. In the absence of a quoted market price or net asset value of an identical security, the fair value is determined using pricing models or net asset values based on observable market inputs and quoted market prices of securities with similar characteristics. When observable market data is not available, the fair value is determined using unobservable inputs, such as estimated future cash flows, purchase multiples paid in other comparable third-party transactions or other information. The real estate funds determine fair value of their underlying assets using independent appraisals given there is no current liquid market for the underlying assets.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
	(1) X An Original	(Mo, Da, Yr)				
Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4			
Notes to Financial Statements						

The following table reconciles the beginning and ending balances of MEC's pension plan assets measured at fair value using significant Level 3 inputs for the years ended December 31 (in millions):

	Real Estate Fun		unds	
		2011		2010
Beginning balance	\$	17	\$	15
Actual return on plan assets still held at period end Purchases		4		2
Sales		3		-
Ending balance			ф.	<u>-</u>
	\$	24	\$	17

MEC sponsors a defined contribution plan for MEC and its participating affiliates covering substantially all employees. MEC's contributions are based primarily on each participant's level of contribution and cannot exceed the maximum allowable for tax purposes. MEC's contributions to the plan were \$15 million for each of the years ended December 31, 2011 and 2010, respectively.

The Respondent participates in the MEC sponsored defined contribution plan and contributed \$3.8 million and \$4.2 million for the years ended December 31, 2011 and 2010, respectively.

(10) Income Taxes

Income tax expense consists of the following for the years ended December 31 (in thousands):

	<u>2011</u>	<u>2010</u>
Current:		
Federal	\$ (14,331)	\$ (16)
State	 536	 2,531
	 (13,795)	 2,515
Deferred:		
Federal	84,689	70,985
State	 16,383	 20,746
	 101,072	 91,731
Total	\$ 87,277	\$ 94,246

A reconciliation of the federal statutory income tax rate to the effective income tax rate applicable to income before income tax expense is as follows for the years ended December 31:

	<u>2011</u>	<u>2010</u>
Federal statutory income tax rate	35.0%	35.0%
State income tax, net of federal income tax benefit	4.8	4.8
Change in valuation allowance	=	2.0
Other, net	0.3	0.3
Effective income tax rate	<u>40.1</u> %	<u>42.1</u> %

FERC FORM NO. 2/3-Q (REV 12-07)	122.25	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
	(1) X An Original	(Mo, Da, Yr)	
Northern Natural Gas Company	(2) A Resubmission	11	2011/Q4
	Notes to Financial Statements		

The net deferred income tax liability consists of the following as of December 31 (in thousands):

	<u>2011</u>	<u> 2010</u>
Deferred income tax assets:		
Acquired goodwill	\$ 138,364	\$ 165,583
Regulatory liabilities ⁽¹⁾	33,099	33,608
Unrealized losses on derivative contracts	27,329	22,337
AROs	19,742	24,266
Utility plant, net	17,019	21,023
State carryforwards	11,985	15,700
Other	17,123	22,019
Total deferred income tax assets	264,661	304,536
Valuation allowance	(9,151)	(13,043)
Total deferred income tax assets, net	<u>255,510</u>	291,493
Deferred income tax liabilities:		
Utility plant, net	(529,362)	(468,072)
Regulatory assets	(49,296)	(49,884)
Other	(12,103)	(7,380)
Total deferred income tax liabilities	(590,761)	(525,336)
Net deferred income tax liability	<u>\$ (335,251)</u>	<u>\$ (233,843)</u>

⁽¹⁾ Includes \$21.5 million and \$22.3 million of deferred income tax assets associated with regulatory assets as of December 31, 2011 and 2010, respectively.

Acquired goodwill resulted from the income tax treatment by the Respondent's predecessor owners of their January 2002 acquisition of the Respondent. Acquired goodwill is being amortized for tax purposes through January 2017.

As of December 31, 2011, the Respondent has available \$12.0 million of state carryforwards, consisting of net operating losses and credits that expire at various intervals between 2012 and 2016. The valuation allowance primarily relates to Nebraska state credit carryforwards that are not expected to be realized.

The United States Internal Revenue Service has closed examination of MEHC's income tax returns through February 2006, including components related to the Respondent. In addition, state jurisdictions have closed examination of MEHC's income tax returns through at least February 9, 2006.

(11) Commitments and Contingencies

Legal Matters

The Respondent is party to a variety of legal actions arising out of the normal course of business. Plaintiffs occasionally seek punitive or exemplary damages. The Respondent does not believe that such normal and routine litigation will have a material impact on its financial results. The Respondent is also involved in other kinds of legal actions, some of which assert or may assert claims or seek to impose fines, penalties and other costs in substantial amounts and are described below.

The Respondent's storage gas has migrated from its certificated storage field boundaries near Cunningham, Kansas and has been produced on leaseholds held by Nash Oil & Gas, Inc. ("Nash"), L.D. Drilling Company ("LD Drilling"), Val Energy, Inc. ("Val

FERC FORM NO. 2/3-Q (REV 12-07)	122.26	

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report
Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4
	Notes to Financial Statements		

Energy") and Luka-Carmi Development, LLC. In order to mitigate its losses, the Respondent has initiated the following actions:

- In September 2009, the Respondent filed an application with the FERC to extend the boundaries of the Cunningham natural gas storage facility by 14,240 acres. In June 2010, FERC issued an order granting the Respondent certificate authority to extend the boundaries of the Cunningham natural gas storage facility by 12,320 acres. The Respondent extended good faith offers to the interested parties in the extension area, and in July 2010, filed a complaint in District Court to acquire the necessary interests by eminent domain. The Respondent has either acquired leases or purchased the property on 3,580 acres, or 29% of the extension area. In June 2011, the Respondent filed a motion for preliminary injunction seeking access to the extension area to construct the facilities necessary to implement its containment plan to control the migrating storage gas. A hearing on the access motion was held in October 2011. The magistrate issued a recommended decision in November 2011, granting the Respondent's motion. On March 13, 2012, the federal district court judge issued an order granting the Respondent's motion for the preliminary injunction. The March 2012 order requires security in the form of a cash deposit of \$2.7 million and a bond of \$7.8 million, both of which were deposited with the court by the Respondent.
- The Respondent filed a lawsuit in December 2008 against Nash, LD Drilling and Val Energy in the United States District Court for the District of Kansas ("District Court") for conversion, nuisance and unjust enrichment. Shortly after the FERC order granting the Respondent authority to expand the boundaries of the Cunningham natural gas storage facility was issued in June 2010, the Respondent filed a motion to shut-in the production of the third-party wells producing the Respondent's storage gas. In December 2010, the District Court granted the Respondent's motion and ordered all of the wells in the extension area to be shut-in, which was completed in February 2011. The defendants appealed the injunction order to the Tenth Circuit Court of Appeals and requested a stay. Oral argument on the appeal was held in November 2011 and a decision is pending. Discovery has been stayed pending the outcome of the Kansas Supreme Court appeal discussed below.
- In December 2009, the Respondent filed a lawsuit in the 13th Judicial District, District Court, Pratt County, Kansas ("Pratt County State District Court") against ONEOK Field Services Company and Lumen Energy Corporation alleging conversion based on their purchase of the storage gas from the producers. In April 2010, the Pratt County State District Court granted the defendants' motion for summary judgment, finding that the Respondent does not have title to storage gas that has migrated beyond adjoining property. The Respondent appealed the decision to the Kansas Court of Appeals in April 2010, and the appeal was transferred to the Kansas Supreme Court at the Respondent's request. Oral argument was held in March 2011. A decision on the merits is expected in the second quarter of 2012.

In December 2011, state court petitions were filed against the Respondent in three counties in Kansas, alleging trespass, nuisance and unjust enrichment, arising out of the migration of the Respondent's storage gas. The Respondent filed petitions to move the cases to federal district court in Wichita, Kansas on December 27, 2011 and the petitions were granted. The Respondent filed responses to the petitions in January 2012, and the actions have been stayed pending the outcome of the Kansas Supreme Court appeal discussed above.

The Respondent has recorded Cunningham storage gas losses of 13.7 bcf since 2004. The replacement cost of storage gas losses is \$6.0 million and \$13.8 million for the years ended December 31, 2011 and 2010, respectively, which are included in operating expenses on the Statements of Income.

While it is not possible to predict with certainty the outcome of the aforementioned litigation and other contingencies, the Respondent believes that the ultimate resolution of these matters will not have a material adverse effect on the Respondent's financial results.

Purchase Obligations

The Respondent expects to incur significant future capital expenditures to meet increased customer growth and system reliability objectives. Capital expenditure needs are reviewed regularly by management and may change significantly as a result of such reviews. Estimates may change significantly at any time as a result of, among other factors, changes in rules and regulations, including environmental; changes in income tax laws; general business conditions; load projections; system reliability standards; the cost and

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report
Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4
	Notes to Financial Statements		

efficiency of construction labor, equipment, and materials; and the cost and availability of capital. Additionally, the Respondent has commitments to two of its largest customers to meet minimum levels of incremental capacity requests through 2022 and 2026.

Operating Leases, Easements and Maintenance Contracts

The Respondent has non-cancelable operating leases primarily for office space and rights-of-way. The minimum payments under these leases as of December 31, 2011 were \$1.9 million, \$1.9 million, \$1.8 million, \$1.4 million and \$1.4 million for the years 2012 through 2016, respectively, and \$5.5 million for the total of the years thereafter. These amounts are not reflected on the Balance Sheets. Rent expense on non-cancelable operating leases totaled \$4.1 million and \$3.8 million for the years ended December 31, 2011 and 2010, respectively, and was included in operating expenses on the Statements of Income.

(12) Credit Risk

The Respondent has a concentration of customers in the electric and gas utility industries, principally in the upper Midwestern states. This concentration of customers may impact the Respondent's overall exposure to credit risk in that the customer base may be similarly affected by changes in economic, industry, weather or other conditions. The Respondent's ten largest customers accounted for 65% of its system-wide transportation and storage revenue.

The following customers accounted for 10% or more of the Respondent's total operating revenues for the years ended December 31 and customer account receivables as of December 31:

	<u> Reve</u>	<u>nue </u>	Accounts	Receivable
	<u>2011</u>	<u>2010</u>	<u>2011</u>	2010
Xcel Energy, Inc.(1)	15%	15%	13%	11%
CenterPoint Energy Resources Corporation ⁽²⁾	12	11	15	14
MEC	11	10	11	10

- (1) The Respondent's agreements are with Northern States Power-Minnesota, Northern States Power-Wisconsin and Southwestern Public Service Company, subsidiaries of Xcel Energy, Inc.
- (2) The Respondent's agreements are with CenterPoint Energy Minnesota Gas, CenterPoint Energy Services and CenterPoint Energy Gas Transmission, subsidiaries of CenterPoint Energy Resources Corporation.

For shippers that have withdrawn gas prior to injection under the Respondent's deferred delivery services, the Respondent is exposed to credit risk with respect to those counterparties based upon the value of the gas withdrawn. The balances in miscellaneous current and accrued assets were \$8.9 million and \$39.8 million as of December 31, 2011 and 2010, respectively. Included in these amounts were balances owed from one customer of \$4.4 million and \$12.7 million as of December 31, 2011 and 2010, respectively, which were related to the Respondent's deferred delivery services.

As a general policy, collateral is not required for receivables from creditworthy customers. Customers' financial condition and creditworthiness are regularly evaluated, and historical losses have been minimal. In order to provide protection against credit risk, and as permitted by the terms of the Respondent's tariff, the Respondent has, among other alternatives, required customers that lack creditworthiness as defined by the tariff to provide letters of credit, cash security deposits or to establish separate legally restricted escrow funds to be held until these customers' creditworthiness can be demonstrated. As of December 31, 2011 and 2010, the Respondent has reflected on the Balance Sheets; escrow funds of \$2.1 million and \$2.4 million, respectively, in special deposits and \$13.4 million and \$7.0 million, respectively, in other special funds with offsetting amounts in customer deposits.

(13) Other Related Party Transactions

FERC FORM NO. 2/3-Q (REV 12-07)	122.28	

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report
Northern Natural Gas Company	(2) A Resubmission	/ /	2011/Q4
	Notes to Financial Statements		

The Respondent is identified as an affiliate of Berkshire Hathaway and its subsidiaries, including MEHC and its subsidiaries. The following transactions are provided for in the intercompany administrative services agreement between the Respondent and its affiliates.

The Respondent provided gas transportation, storage and other services to MEC totaling \$58.6 million and \$58.5 million for the years ended December 31, 2011 and 2010, respectively. MEC provides certain administrative and management services, including executive, financial, legal, human resources, payroll and tax, to the Respondent. Expenses incurred by MEC and billed to the Respondent are based on the individual services and expense items provided and were \$6.6 million and \$8.4 million for the years ended December 31, 2011 and 2010, respectively. MEC also provided electricity and other services to the Respondent of \$0.5 million and \$0.8 million for the years ended December 31, 2011 and 2010, respectively. The Respondent reimbursed MEC \$57.9 million and \$56.9 million for the years ended December 31, 2011 and 2010, respectively, for payroll, healthcare benefits and other benefit payments that MEC processed on behalf of the Respondent.

MEHC provides certain administrative and management services, including executive, financial, legal and tax, to the Respondent. Expenses incurred by MEHC and billed to the Respondent are based on the individual services and expense items provided and were \$4.4 million and \$6.8 million for the years ended December 31, 2011 and 2010, respectively. Income tax transactions with MEHC resulted in net receipts of \$21.2 million and net payments of \$6.8 million for the years ended December 31, 2011 and 2010, respectively.

The Respondent provides operating, administrative and management services, including executive, financial, regulatory and legal, to MEHC and certain subsidiaries. Expenses incurred by the Respondent and billed to MEHC are based on the individual services and expense items provided. Intercompany expenses were \$0.4 million and \$0.7 million for the years ended December 31, 2011 and 2010, respectively.

As of December 31, 2011 and 2010, the Respondent had net accounts payable to MEHC and certain subsidiaries for intercompany transactions totaling \$2.6 million and \$1.1 million, respectively.

The Respondent provides certain administrative and management services, including executive, financial, regulatory and legal, to Kern River Gas Transmission Company ("Kern River"), an indirect wholly-owned subsidiary of MEHC. The Respondent billed Kern River \$1.1 million and \$0.8 million for the years ended December 31, 2011 and 2010, respectively, for these services.

The Respondent provides risk management services to Kern River, pursuant to a service agreement dated August 1, 2008. The Respondent relinquishes all risks, liabilities, losses and profits associated with these risk management services. For the years ended December 31, 2011 and 2010, the Respondent entered into specific risk management transactions that settled on behalf of Kern River totaling \$0.6 million and \$3.8 million, respectively. As of December 31, 2011 and 2010, the Respondent recorded an insignificant derivative contracts liability and an insignificant net accounts receivable from Kern River on the Balance Sheets.

For the years ended December 31, 2011 and 2010, the Respondent received demand promissory notes bearing interest at a 30-day LIBOR plus a fixed per annum rate from MEHC in exchange for cash of \$80.0 million and \$160.0 million, respectively. The Respondent received \$- million and \$65.0 million from MEHC in exchange for demand promissory notes for the years ended December 31, 2011 and 2010, respectively. The balance of the demand promissory notes as of December 31, 2011 and 2010 was \$230.0 million and \$150.0 million, respectively. Interest income of \$1.4 million and \$3.6 million was recorded for the years ended December 31, 2011 and 2010, respectively.

For the years ended December 31, 2011 and 2010, the Respondent distributed dividends on common stock of \$69.0 million and \$-million, respectively, through its parent company to MEHC.

(14) Components of Accumulated Other Comprehensive Income

Accumulated other comprehensive income consists of losses from changes in the fair value on cash flow hedges of \$1.6 million, net of tax of \$1.1 million, and \$0.7 million, net of tax of \$0.5 million, as of December 31, 2011 and 2010, respectively.

·	(1) X An Original	(Mo, Da, Yr)	·		
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4		
General Description of Construction Overhead Procedure					

- 1. For each construction overhead explain: (a) the nature and extent of work, etc., the overhead charges are intended to cover, (b) the general procedure for determining the amount capitalized, (c) the method of distribution to construction jobs, (d) whether different rates are applied to different types of construction, (e) basis of differentiation in rates for different types of construction, and (f) whether the overhead is directly or indirectly assigned.
- 2. Show below the computation of allowance for funds used during construction rates, in accordance with the provisions of Gas Plant Instructions 3 (17) of the Uniform System of Accounts.
- 3. Where a net-of-tax rate for borrowed funds is used, show the appropriate tax effect adjustment to the computations below in a manner that clearly indicates the amount of reduction in the gross rate for tax effects.

Administrative and General Overhead

- (a) Engineering, supervision, general office salaries and expenses, including the cost of construction engineering and supervision services provided by others, related to the general oversight of capital construction or software development projects are charged to an overhead work order.
- (b) Engineering and operations payroll that support construction are direct charged to the overhead work order for allocation to capital construction projects. Property accounting payroll incurred in support of capital construction and software development projects is also charged directly to the overhead work order for allocation to both construction and software development projects. A study was conducted to determine which other employees devote a portion of their time in support of construction or software development activities. Based on this study a fixed amount of payroll and a proportionate share of Respondent's Omaha office cost are charged each month to the overhead work order to be allocated to both construction and software development projects.
- (c) The overhead costs are allocated to individual projects based on direct charges to each capital construction or internally developed software project. Allocation rates are periodically adjusted throughout the year based on the forecast of overhead costs to direct capital charges to ensure that the balance of the overhead work order at the end of the year is cleared.
- (d) Seperate overhead allocation rates are developed for construction and software development projects.
- (e) Overhead rates are based on the ratio of charges forecast to be charged as capital overhead to the total forecast of capital construction and software development expenditures to be charged directly to projects. Engineering and operations related overheads are allocated to capital construction projects and information technology related overhead charges are allocated to software development projects. General office salaries and expenses are allocated to both construction and software development projects.
- (f) Overhead is directly assigned to each work order based on current month charges to the project excluding overheads.

Engineering As-Built Overhead

- (a) Engineering, supervision, general office salaries and expenses, including the cost of engineering and supervision services provided by others, related to the creation of construction as-built drawings are charged to an overhead work order set up solely to capture as-built construction costs. The costs charged to this work order are separate from and are not included in the administrative and general overhead.
- (b) Engineering payroll and charges for engineering services provided by others incurred for the creation of capital construction as-built drawings and records are charged directly to the as-built overhead work order. A study was conducted to determine the ratio of engineering payroll capitalized for creation of as-built records for capital construction and based on this study a pro-rata share of Respondent's office building space and related costs is charged to the as-built overhead work order each month.
- (c) The overhead costs are allocated to individual projects based on direct charges to each capital construction. The allocation rate is periodically adjusted throughout the year based on the forecast of overhead costs fo direct cpaital charges to ensure that the balance in the overhead work order at the end of the year is cleared.

·	(1) X An Original	(Mo, Da, Yr)	
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 219 Line No.: 4 Column: c

Per Respondent's consolidated rate case settlement in Docket Nos. RP03-398 and RP04-155, Respondent was originally allowed to recover in its cost of service an annual allowance of \$1,320,306 to provide funds to cover the costs of its offshore asset retirement obligations. On May 1, 2011, the Commission approved the amendment to Respondent's consolidated stipulation and agreement for its RP03-398 and RP04-155 rate cases to suspend the \$3,004,781 annual payment to its Voluntary Employee Benefit Association (VEBA) trust fund due to overfunding, and increase its FAS 143 allowance, ARO Negative Salvage, annually to \$4,325,087.

Based on the rate case settlement, this allowance is to be charged to depreciation expense Account 403, similiar to Respondent's negative salvage depreciation allowance for its offshore assets. As a result of this recovery method, all accretion and depreciation expense related to asset retirement obligations are cleared from Account 411.10 accretion expense and Account 403.1 depreciation expense for Asset Retirement Obligations and deferred as a regulatory asset in Account 182.3. Therefore, Respondent does not reflect any net expense in Accounts 411.10 or 403.1 related to asset retirement obligations.

Schedule Page: 219 Line No.: 8 Column: c

Reclassification of Respondent's Omaha office building depreciation expense for overhead to Account 107 Construction Work-in-Progress.

Schedule Page: 219 Line No.: 12 Column: b

The difference of \$58,984,805 between the sum of line 12 and line 18, column b on page 219 and that reported for Gas Plant In Service, Page 204-209, line 125, column d is due to the following retirements:

1. \$58,973,528	Retirement of Software, which is classified as Intangible Plant and not reflected on page 219.
2. \$ 9,206	Retirement of Transmission Land Rights, which is classified as Intangible Plant and not reflected
	on page 219.
3. <u>\$ 2,071</u>	Sale of land, which is not depreciated.
<u>\$58,984,805</u>	Total

Schedule Page: 219 Line No.: 16 Column: c

The \$246,953 decrease to the balance in Account 108 is comprised of the following items:

1. (\$639,986)	Transfer of accumulated depreciation reserve to Account 102 Gas Plant Purchased or Sold for
	sale of the Milbank/Ortonville Branch Line.
2. \$377,320	For Contribution in aid of Construction (CIAC's) Paid by Others.
3. \$ 11,561	Correcting entry to transfer accumulated depreciation reserves for transmission plant from
	Account 111 Accumulated Provision for Amortization and Depletion of Gas Utility Plant.
4. <u>\$ 4,152</u>	Correcting entry to transfer accumulated depreciation reserves for Palmyra transmission
	equipment from Account 111 Accumulated Provision for Amortization and Depletion of Gas
	Utility Plant.
<u>(\$246,953)</u>	Total

Schedule Page: 219 Line No.: 22 Column: c

The accumulated depreciation reserve for production and gathering is related to Respondent's pipeline facilities located in the Gulf of Mexico offshore the coasts of Texas and Louisiana. The balance is made up of the following components.

Plant Reserve

Accumulated Depreciation	\$ 32,484,818
Cost of Plant Retired	(29,773,632)
Accumulated Plant Reserve	\$ 2,711,186

Retirement Work-In-Progress <u>\$ (1,171)</u>

⁽¹⁾ Refer to footnote 4 - Regulatory Matters in the Notes to Financial Statements on page 122 for more information regarding regulatory trackers.

Schedule Page: 232 Line No.: 7 Column: a

On May 11, 2011, the Federal Energy Regulatory Commission approved the Respondent's Petition for Approval of Modified Settlement Amendment (Settlement) to modify its Stipulation and Agreement of Settlement in Docket Nos. RP03-398-000 and RP04-155-000. The Settlement allows the Respondent to suspend effective April 1, 2011, the \$3,004,781 annual payment to its Voluntary Employee Beneficiary Association trust fund and increase its FAS No. 143 allowance by the same amount. As a result of the Settlement, the offsetting regulatory asset (post retirement medical plan accrual) and regulatory liability (post retirement benefits obligation) were written off to FERC account 926 - Employee pensions and benefits.

Schedule Page: 232 Line No.: 31 Column: a

During the year, fuel and storage/unaccounted for gas trackers changed to an under-retention position. The debit balance was transferred from account 254.

Securities legued or Accumed and Securities Befunded or Betired During the Year							

Securities Issued or Assumed and Securities Refunded or Retired During the Year

- 1. Furnish a supplemental statement briefly describing security financing and refinancing transactions during the year and the accounting for the securities, discounts, premiums, expenses, and related gains or losses. Identify as to Commission authorization numbers and dates.
- 2. Provide details showing the full accounting for the total principal amount, par value, or stated value of each class and series of security issued, assumed, retired, or refunded and the accounting for premiums, discounts, expenses, and gains or losses relating to the securities. Set forth the facts of the accounting clearly with regard to redemption premiums, unamortized discounts, expenses, and gain or losses relating to securities retired or refunded, including the accounting for such amounts carried in the respondent's accounts at the date of the refunding or refinancing transactions with respect to securities previously refunded or retired.
- 3. Include in the identification of each class and series of security, as appropriate, the interest or dividend rate, nominal date of issuance, maturity date, aggregate principal amount, par value or stated value, and number of shares. Give also the issuance of redemption price and name of the principal underwriting firm through which the security transactions were consummated.
- 4. Where the accounting for amounts relating to securities refunded or retired is other than that specified in General Instruction 17 of the Uniform System of Accounts, cite the Commission authorization for the different accounting and state the accounting method.
- 5. For securities assumed, give the name of the company for which the liability on the securities was assumed as well as details of the transactions whereby the respondent undertook to pay obligations of another company. If any unamortized discount, premiums, expenses, and gains or losses were taken over onto the respondent's books, furnish details of these amounts with amounts relating to refunded securities clearly earmarked.

On April 20, 2011 the Respondent issued \$200.0 million of 4.25% senior notes due June 1, 2021 at the offering price of 99.978%. The sale of the notes to institutional investors was conducted by BNP PARIBAS and Credit Suisse as joint book-running managers in reliance on the exemption from registration provided by Rule 144A and other provisions of the Securities Act of 1933. The net proceeds were used to repay at maturity the Respondent's \$250.0 million 7.00% senior notes due June 1, 2011.

I. Securities Issued

\$200,000,000 4.25% Senior Notes due 6/1/2021 dated 4/20/2011

With respect to members of the MEHC Sub-Group, MidAmerican Energy Holdings Company (MEHC) requires all subsidiaries to pay to or receive from MEHC an amount of tax based primarily on the stand-alone method of allocation. The computation includes all tax benefits from tax deductions stemming from cost borne by utility customers.

Schedule Page: 278 Line No.: 5 Column: c

During the year, fuel and storage/unaccounted for gas trackers changed to an under-retention position. The debit balance was transferred to account 182.3.

Schedule Page: 278 Line No.: 12 Column: a

On May 11, 2011, the Federal Energy Regulatory Commission approved the Respondent's Petition for Approval of Modified Settlement Amendment (Settlement) to modify its Stipulation and Agreement of Settlement in Docket Nos. RP03-398-000 and RP04-155-000. The Settlement allows the Respondent to suspend effective April 1, 2011, the \$3,004,781 annual payment to its Voluntary Employee Beneficiary Association trust fund and increase its FAS No. 143 allowance by the same amount. As a result of the Settlement, the offsetting regulatory asset (post retirement medical plan accrual) and regulatory liability (post retirement benefits obligation) were written off to FERC account 926 - Employee pensions and benefits.

Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 313 Line No.: 40 Column: b

Revenue reflects (1) all discounted firm reservation revenue; (2) all firm commodity revenue on contracts where the Respondent discounted any part of the reservation charge for the month; and (3) all discounted interruptible revenue. The amounts exclude revenue associated with non-traditional rate treatment reported on page 217.

Schedule Page: 313 Line No.: 40 Column: c

Volume reflects (1) all firm commodity volume on contracts where the Respondent discounted any part of the reservation charge for the month; and (2) all discounted interruptible volume.

Schedule Page: 313 Line No.: 40 Column: d

Reflects total revenue and volume for the year for any contract that was considered a 'negotiated rate' for any part of the year. The amounts exclude revenue associated with non-traditional rate treatment reported on page 217.

·	(1) X An Original	(Mo, Da, Yr)	·					
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4					
FOOTNOTE DATA								

Schedule Page: 336 Line No.: 3 Column: b

In its consolidated rate case settlement in Docket Nos. RP03-398 and RP04-155, the Respondent was authorized to include in its cost of service an annual allowance of \$1,320,306 for abandonment costs related to its Gulf Coast facilities asset retirement obligations. On May 1, 2011, the Commission approved the amendment to Northern's consolidated stipulation and agreement for its RP03-398 and RP04-155 rate cases to suspend the \$3,004,781 annual payment to its Voluntary Employee Benefit Association (VEBA) trust fund due to overfunding, and increase its FAS 143 allowance, ARO negative salvage, annually to \$4,325,087. The 2011 impact reflects the monthly increase of an additional \$250,398 for the period of April through December for a total allowance for 2011 of \$3,573,892.

For accounting purposes, this allowance is recorded as negative salvage with 1/12 of the annual allowance charged monthly to Account 403 Depreciation expense and related credits accumulated in a "negative salvage for ARO" subaccount of Account 108 Accumulated provision for depreciation. Actual costs of removal (asset removal costs) are charged against this accumulated allowance account as incurred.

Schedule Page: 336 Line No.: 3 Column: c

To meet the requirements of ASC 410, Asset Retirement and Environmental Obligations and the related requirements of the Uniform System of Accounts, the Respondent records its ARO obligations with credits to Account 230 Asset retirement obligations, with the related debit to Account 101 Gas plant in service using the appropriate gas plant detail account for asset retirement cost. Monthly entries are recorded to depreciate the capitalized retirement costs on a straight-line basis over the remaining life of the plant asset and to accrete the asset retirement obligation liability with an offsetting charge to Account 411.10 Accretion expense. The charges to depreciation expense and to accretion expense are deferred to Account 182.3 Other regulatory assets – ARO by recording credits to those expense accounts and charges to the ARO regulatory asset.

Schedule Page: 336 Line No.: 8 Column: c

To meet the requirements of ASC 410, Asset Retirement and Environmental Obligations and the related requirements of the Uniform System of Accounts, the Respondent records its ARO obligations with credits to Account 230 Asset retirement obligations, with the related debit to Account 101 Gas plant in service using the appropriate gas plant detail account for asset retirement cost. Monthly entries are recorded to depreciate the capitalized retirement costs on a straight-line basis over the remaining life of the plant asset and to accrete the asset retirement obligation liability with an offsetting charge to Account 411.10 Accretion expense. The charges to depreciation expense and to accretion expense are deferred to Account 182.3 Other regulatory assets – ARO by recording credits to those expense accounts and charges to the ARO regulatory asset.

Schedule Page: 336 Line No.: 2 Column: b
All plant bases are the balances as of 12-31-11.

Schedule Page: 336 Line No.: 2 Column: c

The 4.64% depreciation rate for Offshore Production and Gathering facilities is applied to those depreciable assets placed in service after 10/31/98 consistent with the General Rate Case Settlement in RP98-203. All offshore assets installed on or prior to 10/31/98 are fully depreciated. In addition to the 4.64% depreciation rate, the Respondent also accrues for expected negative salvage to be incurred on offshore plant retirements at an annual rate of .25% on all offshore facilities in service. The negative salvage accrual of .25% was established in the settlement agreement of Respondent's RP85-206 rate case and reaffirmed in the settlement agreements for each of the subsequent rate cases filed by Respondent. The Offshore Production and Gathering basis for the .25% negative salvage accrual as of 12/31/11 was \$11,631,663.

Schedule Page: 336 Line No.: 4 Column: c

The depreciation rate for Underground Storage facilities is 1.25% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 6 Column: c

The 4.64% depreciation rate for Offshore Transmission facilities is applied to those depreciable assets placed in service after 10/31/98 consistent with the General Rate Case Settlement in RP98-203. All offshore assets installed on or prior to 10/31/98 are fully depreciated. In addition to the 4.64% depreciation rate, the Respondent also accrues for expected negative salvage to be incurred on offshore plant retirements at an annual rate of .25% on all offshore facilities in service. The negative salvage accrual of .25% was established in the settlement agreement of Respondent's RP85-206 rate case

and reaffirmed in the settlement agreements for each of the subsequent rate cases filed by Respondent. The Offshore Transmission basis for the .25% negative salvage accrual as of 12/31/11 was \$55,133,982.

Schedule Page: 336 Line No.: 7 Column: c

The depreciation rate for Onshore Transmission Plant is 1.5% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 8 Column: c

The depreciation rate for General Plant structures is 2.75% with a plant basis of \$21,244,986 as of 12/31/11. The depreciation rate for Other General Plant is 10.0% with a plant basis of \$89,604,157 as of 12/31/11. Both rates are consistent with General Rate Case Dockets Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 9 Column: c

The depreciation rates for Asset Retirement Costs are determined based on the estimated life of each asset for which an asset retirement obligation was recorded.

Schedule Page: 336 Line No.: 10 Column: c

For Intangible Plant related to Contributions in aid of Construction and Leasehold Improvements associated with a contract, a separate straight line amortization rate was determined based on the initial term of the contract, otherwise the rate will be 10.0%. For all other Intangible Plant which includes software development and organizational costs, the amortization rate is 4.4% as stated in the consolidated rate case settlement in Docket Nos. RP03-398 and RP04-155. The plant basis on which the 4.4% rate was applied as of December 31, 2011, was \$99,705,231.

Schedule Page: 336 Line No.: 11 Column: c

The depreciation rate for Other Gas Storage Computer Control equipment is 10.0% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 12 Column: c

The depreciation rate for Underground Storage Computer Control equipment is 10.0% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 13 Column: c

The depreciation rate for Other Storage facilities is 1.25% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

Schedule Page: 336 Line No.: 14 Column: c

Per FERC Order 678, the Respondent must ensure that existing customers will not be subject to additional costs and separately account for costs, services, and commitments provided under section 4(f) authorizations for market-based rates. In order to comply with Order 678, straight line depreciation rates were derived for the Respondent's market-based facilities based on the average historical life experienced by the Respondent for that type of underground storage plant. Based on the Respondent's historical experience, the depreciation rate for market-based underground storage facilities is 2.34%.

Schedule Page: 336 Line No.: 15 Column: c

The depreciation rate for Transmission Computer Control equipment is 10.0% consistent with General Rate Case Docket Nos. RP03-398 and RP04-155 consolidated stipulation and agreement dated March 25, 2005.

	FOOTNOTE DATA		

Schedule Page: 352 Line No.: 3 Column: b

Post-retirement benefits other than pensions is negative primarily due to the Federal Energy Regulatory Commission approving the Respondent's Petition for Approval of Modified Settlement Amendment (Settlement) to modify its Stipulation and Agreement of Settlement in Docket Nos. RP03-398-000 and RP04-155-000 on May 11, 2011. The Settlement allows the Respondent to suspend effective April 1, 2011, the \$3,004,781 annual payment to its Voluntary Employee Beneficiary Association trust fund and increase its FAS No. 143 allowance by the same amount. As a result of the Settlement, the offsetting regulatory asset (post retirement medical plan accrual) and regulatory liability (post retirement benefits obligation) were written off to FERC account 926 – Employee pensions and benefits. In addition, the Respondent recorded a credit to its employee pensions and benefits expense (FERC account 926) for an annual accrual of medicare subsidies of \$682,702.

Affiliate company includes affiliates of Berkshire Hathaway and MEHC for goods and services amounting to \$250,000 or less

Schedule Page: 358 Line No.: 16 Column: a

Amounts which are chargeable from another affiliate are assigned first by coding to the specific affiliate. These charges were based on actual labor, benefits and operational costs incurred. Amounts not directly assignable to an individual affiliate, such as work performed where multiple affiliates benefit, are assigned on the basis of allocations from MidAmerican Energy Holdings Company, MHC Inc. and MidAmerican Energy Company, as described below:

Allocator	Description
Labor and	An equal weighting of each company's labor and assets expressed as a percentage of the
Assets	whole ((labor % + assets %) ÷ 2) determines the portion assigned to each company. Labor is 12
	months ended through December of the prior year. Assets are total assets at December 31 of the prior
	year. Five combinations of this allocator are used for allocating services that benefit different
	companies within the holding company organization.
Legislative and	The Legislative and Regulatory allocation is used to allocate costs incurred by the holding company's
Regulatory	Legislative & Regulatory groups. The Legislative & Regulatory groups work on a variety of legislative
	and regulatory subject matter for select groups of companies within the holding company organization.
	The Legislative and Regulatory allocation percentages are based on the Legislative & Regulatory
	groups' estimation of the time and resources that are being spent on these selected companies.
Information	Allocates costs related to shared information technology infrastructure owned by the affiliate to other
Technology	benefited affiliates based on an aggregation of various measures of usage of such infrastructure
Infrastructure	including storage capacity utilized, number of servers utilized, server processing times, etc.
Employee Count	This allocator distributes costs to benefited affiliates based on employee counts at such platforms as of the prior year-end.
Processes	This allocator distributes costs of electronic data interchange software and services based on the
	number of transactions within each affiliate using such software or services.
Oracle Users	This allocator distributes costs of Oracle software and services based on the number of employees
	within each affiliate using such software and services.
Plant	This allocator distributes costs of managing the corporate insurance function based on assets for each affiliate.

Affiliate company includes affiliates of Berkshire Hathaway and MEHC for goods and services amounting to \$250,000 or

less.

Schedule Page: 358 Line No.: 34 Column: a

Amounts which are chargeable to another affiliate are assigned first by coding to the specific affiliate. These charges were based on actual labor, benefits and operational costs incurred. Amounts not directly assignable to an individual affiliate, such as work performed where multiple affiliates benefit, are assigned on the basis of allocations to MidAmerican Energy Holdings Company and CalEnergy Generation Operating Company, as described below:

Allocator	Description
Building space	Allocates costs for rent and building services associated with occupied building space in Northern's office building in Omaha, Nebraska to affiliates of MEHC. This allocator distributes costs to benefited affiliates based on the occupied square footage of the office building.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
·	(1) X An Original	(Mo, Da, Yr)	
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 508 Line No.: 7 Column: a

The Fort Buford, North Dakota, compressor station is operated by Bear Paw Energy, Inc.

Schedule Page: 508 Line No.: 14 Column: a

Pursuant to the automatic blanket authorization of the Respondent's blanket certificate and Section 157.208(a) of the Commission's regulations, the Respondent replaced the existing 350-horsepower electric unit with an 800-horsepower electric unit at the Pierz compressor station located in Morrison County, Minnesota. The existing unit was abandoned in-place and the new unit was ready for service October 6, 2011.

Schedule Page: 508 Line No.: 20 Column: a

Pursuant to the automatic blanket authorization of the Respondent's blanket certificate and Section 157.208(a) of the Commission's regulations, the Respondent replaced the existing 1,500-horsepower electric motor with a 2,000-horsepower electric motor at the Popple Creek compressor station located in Benton County, Minnesota. The unit was ready for service October 21, 2011.

Schedule Page: 508 Line No.: 21 Column: a

Pursuant to the automatic blanket authorization of the Respondent's blanket certificate and Section 157.208(a) of the Commission's regulations, the Respondent constructed the Elk River compressor station located in Sherburne County, Minnesota. The station consists of a single 1,100-horsepower compressor driven by an electric motor and was ready for service October 20, 2011.

Schedule Page: 508.1 Line No.: 5 Column: a

Unit 5 at the Paulina, Iowa, compressor station is classified as "Gas Plant Held For Future Use," and is also reported on Page 214 "Gas Plant Held for Future Use" of the Form 2.

Schedule Page: 508.1 Line No.: 12 Column: a

One of the compressors at Bushton, Kansas, is operated for the Lyons, Kansas, underground storage facility.

Schedule Page: 508.1 Line No.: 18 Column: a

In accordance with Commission order issued April 5, 2011, in Docket No. CP11-98-000, the Respondent abandoned units 5, 6 and 7 totaling 4,800 horsepower at the Sunray compressor station located in Moore County, Texas. The units were abandoned November 1, 2011.

Schedule Page: 508.1 Line No.: 20 Column: a

The Pampa, Texas, compressor station was not operated in 2011 due to the lack of contract demand. The Respondent has no current plans to abandon the station.

Schedule Page: 508.1 Line No.: 21 Column: a

Pursuant to the automatic blanket authorization of the Respondent's blanket certificate and Section 157.208(a) of the Commission's regulations, the Respondent leases the Cargray compressor station located in Carson County, Texas, from Eagle Rock Field Services, LP.

Schedule Page: 508.2 Line No.: 9 Column: a

The Respondent owns 13.5% of the compressor installed on a platform owned and operated by Northstar Offshore Energy Partners, LLC, successor in interest to Reserve Oil Incorporated, in South Pelto Block 13 in the Gulf of Mexico offshore Louisiana. The Respondent does not know the ownership percentages of the other owners.

	FOOTNOTE DATA		

Schedule Page: 520 Line No.: 3 Column: c

The 13,033,046 Dth represents gas purchases recorded to FERC account 803.

Schedule Page: 520 Line No.: 12 Column: c

The 78,917,983 Dth represents gas withdrawn from storage (includes third party and company owned gas).

Schedule Page: 520 Line No.: 20 Column: c

Volumes transported for others equals invoiced volumes excluding deliveries to pooling points and deferred delivery points other than Ogden, Iowa. For the purpose of calculating the total volume eligible for the ACA surcharge, begin with the deliveries of gas transported for others on page 520, line 20 and adjust that volume by eliminating the December 2010 estimate reversal in January 2011 and the transportation estimate in and for December 2011.

	Amount in
	Dth
Line 20 Deliveries of gas transported for others	917,732,409
Plus December 2010 throughput estimate reversal	105,214,000
Less December 2011 throughput estimate	(93,796,000)
Total volume eligible for ACA surcharge	929,150,409

Gas sales volumes shown on line 18 and deliveries of contract storage gas volumes shown on line 22 are not additive to the calculation above because they are already included in the deliveries of gas transportation volumes shown on line 20.

Schedule Page: 520 Line No.: 27 Column: c

The 91,740,209 Dth represents gas injected into storage (includes third party and company owned gas).

Shipper Supplied Gas for the Current Quarter							
1. Report monthly (1) shipper supplied gas for the current quarter and gas consumed in pipeline operations, (2) the disposition of any excess, the accounting recognition given to such disposition and the specific account(s) charged or credited, and (3) the source of gas used to meet any deficiency, the accounting recognition given to the gas used to meet the deficiency, including the accounting basis of the gas and the specific account(s) charged or credited. 2. On lines 7, 14, 22 and 30 report only the dekatherms of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dekatherms must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 24-29. The dekatherms must be reported in column (d) unless the company has discounted or negotiated rates which should be reported in columns (b) and (c). 3. On lines 7, 14, 22 and 30 report only the dollar amounts of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dollar amounts must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 23-29. The dollar amounts must be reported in column (h) unless the company has discounted or negotiated rates which should be reported in columns (f) and (g). The accounting should disclose the account(s) debited and credited in columns (m) and (n). 4. Indicate in a footnote the basis for valuing the gas reported in Columns (f), (g) and (h). 5. Report in columns (j), (k) and (l) the amount of fuel waived, discounted or reduced as part of a negotiated rate agreement. 6. On lines 32-37 report the dekatherms, the dollar amount and the account(s) credited in Column (o) for the dispositions of gas

	Shipper Supplied Gas for the Current Quarter						
1. Report monthly (1) shipper supplied gas for the current quarter and gas consumed in pipeline operations, (2) the disposition of any excess, the accounting recognition given to such disposition and the specific account(s) charged or credited, and (3) the source of gas used to meet any deficiency, the accounting recognition given to the gas used to meet the deficiency, including the accounting basis of the gas and the specific account(s) charged or credited. 2. On lines 7, 14, 22 and 30 report only the dekatherms of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dekatherms must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 24-29. The dekatherms must be reported in column (d) unless the company has discounted or negotiated rates which should be reported in columns (b) and (c). 3. On lines 7, 14, 22 and 30 report only the dollar amounts of gas provided by shippers under tariff terms and conditions for gathering, production/ extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dollar amounts must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 23-29. The dollar amounts must be reported in column (h) unless the company has discounted or negotiated rates which should be reported in columns (f) and (g). The accounting should disclose the account(s) debited and credited in columns (m) and (n). 4. Indicate in a footnote the basis for valuing the gas reported in Columns (h), (g) and (h). 5. Report in columns (j), (k) and (j) the amount of fuel waived, discounted or reduced as part of a negotiated rate agreement. 6. On lines 32-37 report the dekatherms, the dollar amount and the account(s) credited in Column (o) for the dispositions of gas

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
	(1) X An Original	(Mo, Da, Yr)	
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 521 Line No.: 22 Column: e

Gas used for other operation purposes:

		Month 1	Month 1
		Gas Used (Dth)	Amount (\$)
LNG Compressor Station Fuel	842.1	26,883	\$100,696
Line Operations	856	92,383	346,039
Purification Underground Storage	821	456	1,708
Other Underground Storage Operations	817	3,651	13,676
Other Compressor Station Fuel	819	2,260	8,465
		125,633	\$470,584

Volume of gas used for other deliveries and gas used for other operations does not equal the volume reported on line 29 page 520. The variance is due to the exclusion of drip shrinkage and gas associated with work orders which are not considered shipper supplied gas.

Schedule Page: 521 Line No.: 22 Column: e

Gas used for other operation purposes:

		Month 2	Month 2
		Gas Used (Dth)	Amount (\$)
LNG Compressor Station Fuel	842.1	49,873	\$177,069
Line Operations	856	120,732	428,392
Purification Underground Storage	821	2,415	8,574
Other Underground Storage Operations	817	5,144	18,263
Other Compressor Station Fuel	819	2,062	7,321
		180,226	\$639,619

Volume of gas used for other deliveries and gas used for other operations does not equal the volume reported on line 29 page 520. The variance is due to the exclusion of drip shrinkage and gas associated with work orders which are not considered shipper supplied gas.

Schedule Page: 521 Line No.: 22 Column: e

Gas used for other operation purposes:

		Month 3	Month 3
		Gas Used (Dth)	Amount (\$)
LNG Compressor Station Fuel	842.1	38,951	\$130,412
Line Operations	856	166,338	556,592
Purification Underground Storage	821	6,467	21,652
Other Underground Storage Operations	817	14,384	48,159
Other Compressor Station Fuel	819	3,667	12,277
		229,807	\$769,092

Volume of gas used for other deliveries and gas used for other operations does not equal the volume reported on line 29 page 520. The variance is due to the exclusion of drip shrinkage and gas associated with work orders which are not considered shipper supplied gas.

FE	RC FORM NO. 2 (12-96)	Page 552.1

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
·	(1) X An Original	(Mo, Da, Yr)	
Northern Natural Gas Company	(2) _ A Resubmission	11	2011/Q4
	FOOTNOTE DATA		

Schedule Page: 521 Line No.: 44 Column: a

All excess gas is held in a volumetric tracker and returned to shippers.

Schedule Page: 521 Line No.: 56 Column: a

All deficiency gas is to be recovered from shippers and is recorded in a volumetric tracker.

Schedule Page: 521 Line No.: 64 Column: a

For Balance Sheet accounts carried and resolved volumetrically, the Respondent carries the balance priced at the end of the month Northern Natural Gas Demarcation index as published in Gas Daily.

The Respondent allocated discounted, negotiated and recourse amounts for lines 14, 22 and 30 based on the corresponding functional category line for shipper supplied gas.

Schedule Page: 521 Line No.: 1 Column:

The Respondent is a reticulated pipeline and backhaul volume service is not offered under the tariff, all volumes are reported as forwardhaul volume.

Forwardhaul volumes represent invoiced volumes excluding deliveries to pooling point and deferred delivery points other than Ogden, lowa.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report	
	(1) X An Original	(Mo, Da, Yr)		
Northern Natural Gas Company	(2) A Resubmission	1 1	2011/Q4	
System Mans				

- 1. Furnish five copies of a system map (one with each filed copy of this report) of the facilities operated by the respondent for the production, gathering, transportation, and sale of natural gas. New maps need not be furnished if no important change has occurred in the facilities operated by the respondent since the date of the maps furnished with a previous year's annual report. If, however, maps are not furnished for this reason, reference should be made in the space below to the year's annual report with which the maps were furnished.
- 2. Indicate the following information on the maps:
 - (a) Transmission lines.
 - (b) Incremental facilities.
 - (c) Location of gathering areas.
 - (d) Location of zones and rate areas.
 - (e) Location of storage fields.
 - (f) Location of natural gas fields.
 - (g) Location of compressor stations.
 - (h) Normal direction of gas flow (indicated by arrows).
 - (i) Size of pipe.
 - (j) Location of products extraction plants, stabilization plants, purification plants, recycling areas, etc.
 - (k) Principal communities receiving service through the respondent's pipeline.
- 3. In addition, show on each map: graphic scale of the map; date of the facts the map purports to show; a legend giving all symbols and abbreviations used; designations of facilities leased to or from another company, giving name of such other company.
- 4. Maps not larger than 24 inches square are desired. If necessary, however, submit larger maps to show essential information. Fold the maps to a size not larger then this report. Bind the maps to the report.
