Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2
	Important Changes During the Quarter/Yea	*	

Give details concerning the matters indicated below. Make the statements explicit and precise, and number them in accordance with the inquiries. Answer each inquiry. Enter "none" or "not applicable" where applicable. If the answer is given elsewhere in the report, refer to the schedule in which it appears.

- 1. Changes in and important additions to franchise rights: Describe the actual consideration and state from whom the franchise rights were acquired. If the franchise rights were acquired without the payment of consideration, state that fact.
- 2. Acquisition of ownership in other companies by reorganization, merger, or consolidation with other companies: Give names of companies involved, particulars concerning the transactions, name of the Commission authorizing the transaction, and reference to Commission authorization.
- 3. Purchase or sale of an operating unit or system: Briefly describe the property, and the related transactions, and cite Commission authorization, if any was required. Give date journal entries called for by Uniform System of Accounts were submitted to the Commission.
- 4. Important leaseholds (other than leaseholds for natural gas lands) that have been acquired or given, assigned or surrendered: Give effective dates, lengths of terms, names of parties, rents, and other conditions. State name of Commission authorizing lease and give reference to such authorization.
- 5. Important extension or reduction of transmission or distribution system: State territory added or relinquished and date operations began or ceased and cite Commission authorization, if any was required. State also the approximate number of customers added or lost and approximate annual revenues of each class of service.

Each natural gas company must also state major new continuing sources of gas made available to it from purchases, development, purchase contract or otherwise, giving location and approximate total gas volumes available, period of contracts, and other parties to any such arrangements, etc.

- 6. Obligations incurred or assumed by respondent as guarantor for the performance by another of any agreement or obligation, including ordinary commercial paper maturing on demand or not later than one year after date of issue: State on behalf of whom the obligation was assumed and amount of the obligation. Cite Commission authorization if any was required.
- 7. Changes in articles of incorporation or amendments to charter: Explain the nature and purpose of such changes or amendments.
- 8. State the estimated annual effect and nature of any important wage scale changes during the year.
- 9. State briefly the status of any materially important legal proceedings pending at the end of the year, and the results of any such proceedings culminated during the year.
- 10. Describe briefly any materially important transactions of the respondent not disclosed elsewhere in this report in which an officer, director, security holder, voting trustee, associated company or known associate of any of these persons was a party or in which any such person had a material interest.
- 11. Estimated increase or decrease in annual revenues caused by important rate changes: State effective date and approximate amount of increase or decrease for each revenue classification. State the number of customers affected.
- 12. Describe fully any changes in officers, directors, major security holders and voting powers of the respondent that may have occurred during the reporting period.
- 13. In the event that the respondent participates in a cash management program(s) and its proprietary capital ratio is less than 30 percent please describe the significant events or transactions causing the proprietary capital ratio to be less than 30 percent, and the extent to which the respondent has amounts loaned or money advanced to its parent, subsidiary, or affiliated companies through a cash management program(s). Additionally, please describe plans, if any to regain at least a 30 percent proprietary ratio.
- 1. None
- 2. None
- 3. None
- 4. None
- 5. No important extensions or reductions of the Respondent's transmission system pursuant to Section 7 of the Natural Gas Act and Part 157 of the regulations of the Federal Energy Regulatory Commission occurred from April 1 through June 30, 2012.

BLANKET CERTIFICATE ACTIVITIES

Pursuant to Respondent's blanket authority granted September 1, 1982, in Docket No. CP82-401-000, approximately 9.6 miles of 12-inch-diameter pipeline was constructed in Hemphill County, Texas, to connect a new receipt interconnect for Penn Virginia Resource Partners, L.P.'s Antelope Hills plant. The interconnect facilities, which were constructed to provide contracted volumes of 90,000 DTH/day, were placed in-service May 25, 2012.

§311 FACILITIES

No important extensions or reductions of the Respondent's transmission system pursuant to §311(a) of the Natural Gas Policy Act of 1978 occurred from April 1 through June 30, 2012.

Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2
	Notes to Financial Statements		

- 1. Provide important disclosures regarding the Balance Sheet, Statement of Income for the Year, Statement of Retained Earnings for the Year, and Statement of Cash Flow, or any account thereof. Classify the disclosures according to each financial statement, providing a subheading for each statement except where a disclosure is applicable to more than one statement. The disclosures must be on the same subject matters and in the same level of detail that would be required if the respondent issued general purpose financial statements to the public or shareholders.
- 2. Furnish details as to any significant contingent assets or liabilities existing at year end, and briefly explain any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or a claim for refund of income taxes of a material amount initiated by the utility. Also, briefly explain any dividends in arrears on cumulative preferred stock.
- 3. Furnish details on the respondent's pension plans, post-retirement benefits other than pensions (PBOP) plans, and post-employment benefit plans as required by instruction no. 1 and, in addition, disclose for each individual plan the current year's cash contributions. Furnish details on the accounting for the plans and any changes in the method of accounting for them. Include details on the accounting for transition obligations or assets, gains or losses, the amounts deferred and the expected recovery periods. Also, disclose any current year's plan or trust curtailments, terminations, transfers, or reversions of assets. Entities that participate in multiemployer postretirement benefit plans (e.g. parent company sponsored pension plans) disclose in addition to the required disclosures for the consolidated plan, (1) the amount of cost recognized in the respondent's financial statements for each plan for the period presented, and (2) the basis for determining the respondent's share of the total plan costs.
- 4. Furnish details on the respondent's asset retirement obligations (ARO) as required by instruction no. 1 and, in addition, disclose the amounts recovered through rates to settle such obligations. Identify any mechanism or account in which recovered funds are being placed (i.e. trust funds, insurance policies, surety bonds). Furnish details on the accounting for the asset retirement obligations and any changes in the measurement or method of accounting for the obligations. Include details on the accounting for settlement of the obligations and any gains or losses expected or incurred on the settlement.
- 5. Provide a list of all environmental credits received during the reporting period.
- 6. Provide a summary of revenues and expenses for each tracked cost and special surcharge.
- 7. Where Account 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these item. See General Instruction 17 of the Uniform System of Accounts.
- 8. Explain concisely any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 9. Disclose details on any significant financial changes during the reporting year to the respondent or the respondent's consolidated group that directly affect the respondent's gas pipeline operations, including: sales, transfers or mergers of affiliates, investments in new partnerships, sales of gas pipeline facilities or the sale of ownership interests in the gas pipeline to limited partnerships, investments in related industries (i.e., production, gathering), major pipeline investments, acquisitions by the parent corporation(s), and distributions of capital.
- 10. Explain concisely unsettled rate proceedings where a contingency exists such that the company may need to refund a material amount to the utility's customers or that the utility may receive a material refund with respect to power or gas purchases. State for each year affected the gross revenues or costs to which the contingency relates and the tax effects and explain the major factors that affect the rights of the utility to retain such revenues or to recover amounts paid with respect to power and gas purchases.
- 11. Explain concisely significant amounts of any refunds made or received during the year resulting from settlement of any rate proceeding affecting revenues received or costs incurred for power or gas purchases, and summarize the adjustments made to balance sheet, income, and expense accounts.
- 12. Explain concisely only those significant changes in accounting methods made during the year which had an effect on net income, including the basis of allocations and apportionments from those used in the preceding year. Also give the approximate dollar effect of such changes.
- 13. For the 3Q disclosures, respondent must provide in the notes sufficient disclosures so as to make the interim information not misleading. Disclosures which would substantially duplicate the disclosures contained in the most recent FERC Annual Report may be omitted.
- 14. For the 3Q disclosures, the disclosures shall be provided where events subsequent to the end of the most recent year have occurred which have a material effect on the respondent. Respondent must include in the notes significant changes since the most recently completed year in such items as: accounting principles and practices; estimates inherent in the preparation of the financial statements; status of long-term contracts; capitalization including significant new borrowings or modifications of existing financing agreements; and changes resulting from business combinations or dispositions. However were material contingencies exist, the disclosure of such matters shall be provided even though a significant change since year end may not have occurred.
- 15. Finally, if the notes to the financial statements relating to the respondent appearing in the annual report to the stockholders are applicable and furnish the data required by the above instructions, such notes may be included herein.

(1) General

Northern Natural Gas Company (the "Respondent") is an indirect wholly owned subsidiary of MidAmerican Energy Holdings Company ("MEHC"), a holding company based in Des Moines, Iowa that owns subsidiaries principally engaged in the energy business. MEHC is a consolidated subsidiary of Berkshire Hathaway Inc. ("Berkshire Hathaway"). The Respondent owns the largest interstate natural gas pipeline system in the United States, as measured by pipeline miles, which reaches from southern Texas to Michigan's Upper Peninsula (the "System"). The System, which is interconnected with many interstate and intrastate pipelines in the national grid system, consists of two operationally integrated systems. Its traditional end-use and distribution market area, referred to as the Market Area, includes points in Iowa, Nebraska, Minnesota, Wisconsin, South Dakota, Michigan and Illinois. Its natural gas supply and delivery service area, referred to as the Field Area, includes points in Kansas, Texas, Oklahoma and New Mexico. The Respondent primarily transports and stores natural gas for utilities, municipalities, other pipeline companies, gas marketing companies, including 6,500 miles of mainline transmission pipelines and 8,400 miles of branch and lateral pipelines, with a Market Area design

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report
Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2
	Notes to Financial Statements		

capacity of 5.5 billion cubic feet ("bcf") per day and a Field Area delivery capacity of 2.0 bcf per day to the Market Area. Additionally, the Respondent has three underground natural gas storage facilities and two liquefied natural gas storage peaking units that have a total firm service and operational storage cycle capacity of over 73 bcf and over 2.0 bcf of peak day delivery capability. The System is configured with approximately 2,400 active receipt and delivery points which are integrated with the facilities of local distribution companies ("LDC"). Many of the Respondent's LDC customers are part of combined utilities that also use natural gas as a fuel source for electric generation. The Respondent delivers over 0.9 trillion cubic feet of natural gas to its customers annually.

The financial statements and supporting schedules were prepared in accordance with the Uniform System of Accounts as prescribed by the Federal Energy Regulatory Commission ("FERC"). The FERC-approved tariff establishes rates, terms and conditions under which the Respondent provides services to its customers. The Uniform System of Accounts is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America ("GAAP"). Financial accounting and reporting differences between FERC and GAAP for the Respondent are principally related to account classifications such as but not limited to: Costs incurred and revenues collected for future plant retirement costs are classified as a regulatory liability for GAAP and as accumulated provision for depreciation for FERC; and deferred tax assets and liabilities are presented as gross assets and liabilities for FERC purposes, but are netted for GAAP.

The unaudited Financial Statements do not include all of the information and disclosures required for the Respondent's annual financial statements in its 2011 FERC Form No. 2. Management believes the unaudited Financial Statements contain all adjustments (consisting only of normal recurring adjustments) considered necessary for the fair presentation of the Financial Statements as of June 30, 2012 and for the six-month periods ended June 30, 2012 and 2011. The results of operations for the six-month period ended June 30, 2012 are not necessarily indicative of the results to be expected for the full year. The Respondent has evaluated subsequent events through August 29, 2012, which is the date the unaudited Financial Statements were available to be issued.

The preparation of the unaudited Financial Statements in conformity with FERC guidelines requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the Financial Statements and the reported amounts of revenues and expenses during the period. Actual results may differ from the estimates used in preparing the unaudited Financial Statements. Note 2 of Notes to Financial Statements included in the Respondent's FERC Form No. 2 for the year ended December 31, 2011 describes the most significant accounting policies used in the preparation of the Financial Statements. There have been no significant changes in the Respondent's assumptions regarding significant accounting estimates and policies during the six-month period ended June 30, 2012.

(2) New Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011 11, which amends FASB Accounting Standards Codification ("ASC") Topic 210, "Balance Sheet." The amendments in this guidance require an entity to provide quantitative disclosures about offsetting financial instruments and derivative instruments. Additionally, this guidance requires qualitative and quantitative disclosures about master netting agreements or similar agreements when the financial instruments and derivative instruments are not offset. This guidance is effective for fiscal years beginning on or after January 1, 2013, and for interim periods within those fiscal years. The Respondent is currently evaluating the impact of adopting this guidance on its disclosures included within Notes to Financial Statements. In June 2011, the FASB issued ASU No. 2011 05, which amends FASB ASC Topic 220, "Comprehensive Income." ASU No. 2011-05 provides an entity with the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of the option chosen, this guidance also requires presentation of items on the face of the financial statements that are reclassified from other comprehensive income to net income. This guidance does not change the items that must be reported in other comprehensive income, when an item of other comprehensive income must be reclassified to net income or how tax effects of each item of other comprehensive income are presented. This guidance is effective for reporting periods beginning after December 15, 2011. In December 2011, the FASB issued ASU No. 2011-12, which also amends FASB ASC Topic 220 to defer indefinitely the ASU No. 2011-05 requirement to present items on the face of the financial statements that are reclassified from other comprehensive income to net income. ASU No. 2011-12 is also effective for reporting periods beginning after December

Northern Natural Gas Company	(2) A Resubmission	11	2012/Q2
	Notes to Financial Statements		

15, 2011. The Respondent adopted this guidance on January 1, 2012 and elected the two separate but consecutive statements option.

In May 2011, the FASB issued ASU No. 2011-04, which amends FASB ASC Topic 820, "Fair Value Measurements and Disclosures." The amendments in this guidance are not intended to result in a change in current accounting. ASU No. 2011 04 requires additional disclosures relating to fair value measurements categorized within Level 3 of the fair value hierarchy, including quantitative information about unobservable inputs, the valuation process used by the entity and the sensitivity of unobservable input measurements. Additionally, entities are required to disclose the level of the fair value hierarchy for assets and liabilities that are not measured at fair value in the balance sheet, but for which disclosure of the fair value is required. This guidance is effective for reporting periods beginning after December 15, 2011. The Respondent adopted ASU No. 2011-04 on January 1, 2012. The adoption of this guidance did not have a material impact on the Respondent's disclosures included within Notes to Financial Statements.

(3) Fair Value Measurements

The Respondent has various financial assets and liabilities that are measured at fair value on the Financial Statements using inputs from the three levels of the fair value hierarchy. A financial asset or liability classification within the hierarchy is determined based on the lowest level input that is significant to the fair value measurement. The three levels are as follows:

- Level 1 Inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the Respondent has the ability to access at the measurement date.
- Level 2 Inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for
 identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are
 observable for the asset or liability and inputs that are derived principally from or corroborated by observable
 market data by correlation or other means (market corroborated inputs).
- Level 3 Unobservable inputs reflect the Respondent's judgments about the assumptions market participants would use in pricing the asset or liability since limited market data exists. The Respondent develops these inputs based on the best information available, including its own data.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report
·	(1) <u>X</u> An Original	(Mo, Da, Yr)	·
Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2
	Notes to Financial Statements		

The following table presents the Respondent's assets and liabilities recognized on the Balance Sheets and measured at fair value on a recurring basis (in thousands):

	Input Levels for Fair Value Measurements							
	Level 1	Level 2	Level 3	Other ⁽¹⁾	<u>Total</u>			
As of June 30, 2012 Assets: Commodity derivatives Money market mutual funds ⁽²⁾	\$ - 53,804 \$53,804	\$ 1,992 	\$ - 	\$ (1,987) 	\$ 5 53,804 \$ 53,809			
Liabilities - commodity derivatives	<u>\$</u>	<u>\$ (79,149)</u>	\$	\$ 1,987	<u>\$ (77,162</u>)			
As of December 31, 2011 ⁽³⁾ Assets: Commodity derivatives	\$ -	\$ 4,331	\$ -	\$ (2,415)	\$ 1,916			
Money market mutual funds ⁽²⁾	65,013 \$ 65,013	\$ 4,331	<u> </u>	\$ (2,415) \$ (2,415)	65,013 \$ 66,929			
Liabilities - commodity derivatives	\$	<u>\$ (71,043)</u>	<u> </u>	<u>\$ 2,415</u>	<u>\$ (68,628</u>)			

- (1) Represents netting under master netting arrangements.
- (2) Amounts are included in cash, special deposits, temporary cash investments and other special funds on the Balance Sheets. The fair value of these money market mutual funds approximates cost.
- (3) Prior year amounts have been reclassified to conform to current year presentation.

Derivative contracts are recorded on the Balance Sheets as either assets or liabilities and are stated at fair value unless they are designated as normal purchases or normal sales and qualify for the exception afforded by GAAP. When available, the fair value of derivative contracts is estimated using unadjusted quoted prices for identical contracts in the market in which the Respondent transacts. When quoted prices for identical contracts are not available, the Respondent uses forward price curves. Forward price curves represent the Respondent's estimates of the prices at which a buyer or seller could contract today for delivery or settlement at future dates. The Respondent bases its forward price curves upon market price quotations, when available, or internally developed and commercial models, with internal and external fundamental data inputs. Market price quotations are obtained from independent energy brokers, exchanges, direct communication with market participants and actual transactions executed by the Respondent. Market price quotations for certain major natural gas trading hubs are generally readily obtainable for the applicable term of the Respondent's outstanding derivative contracts; therefore, the Respondent's forward price curves for those locations and periods reflect observable market quotes. The estimated fair value of these derivative contracts is a function of underlying forward commodity prices, related volatility, counterparty creditworthiness and duration of contracts. Refer to Note 4 for further discussion regarding the Respondent's risk management and hedging activities.

The Respondent's investments in money market mutual funds are accounted for as available-for-sale securities and are stated at fair value. A readily observable quoted market price or net asset value of an identical security in an active market is used to record the fair value.

(4) Risk Management and Hedging Activities

The Respondent is exposed to the impact of market fluctuations in natural gas prices as supply and demand are impacted by, among many other unpredictable items, weather, market liquidity, customer usage, storage and transportation constraints. The Respondent does not engage in a material amount of proprietary trading activities.

The Respondent has established a risk management process that is designed to identify, assess, monitor, report, manage

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report			
Northern Natural Gas Company	(2) _ A Resubmission	/ /	2012/Q2			
Notes to Financial Statements						

and mitigate each of the various types of risk involved in its business. To mitigate a portion of its natural gas price risk, the Respondent uses commodity derivative contracts generally at fixed prices to hedge natural gas for operational and preferred deferred delivery ("PDD") storage, storage losses, fuel requirements and other transactions. The Respondent uses natural gas commodity swaps to hedge the margin on forecasted gas sales and purchases required for operational storage balancing purposes, to hedge the margin on anticipated future PDD storage contracts and to hedge the cost of replacing forecasted storage losses.

For certain designated markets, certain customers pay a fixed price of \$0.09 per decatherm ("dth") of volumes delivered to purchase compressor fuel and system use gas from the Respondent. The Respondent estimates it will be required to purchase an annual average of 1.0 bcf of natural gas through October 2022 to meet these requirements based on a projected average system requirements factor of 1.2% of volumes delivered. The Respondent's contracts with these customers provide service through October 2019, with annual renewal options for one customer to continue service through October 2022. As of June 30, 2012, the Respondent had purchased gas and entered into swap agreements covering more than the expected contractual requirements through October 2022.

Interest rate risk exists on future debt issuances. The Respondent manages its interest rate risk by limiting its exposure to variable interest rates primarily through the issuance of fixed-rate long-term debt and by monitoring market changes in interest rates. Additionally, the Respondent may from time to time enter into interest rate derivative contracts, such as interest rate swaps or locks, to mitigate the Respondent's exposure to interest rate risk. The Respondent does not hedge all of its commodity price and interest rate risks, thereby exposing the unhedged portion to changes in market prices.

There have been no significant changes in the Respondent's accounting policies related to derivatives. Refer to Note 3 for additional information on derivative contracts.

- (1) Derivative assets are included in current and accrued assets on the Balance Sheets. Derivative liabilities are included in current and accrued liabilities on the Balance Sheets.
- (2) The Respondent's commodity derivatives not designated as hedging contracts are generally included in regulated rates, and as of June 30, 2012 and December 31, 2011, a regulatory asset of \$77.2 million and \$63.9 million, respectively, was recorded related to the net derivative liability of \$77.2 million and \$63.9 million, respectively.
- (3) The net notional amounts of outstanding commodity derivative contracts with fixed price terms that comprise the mark-to-market values included above is 21 million dth of natural gas purchases as of June 30, 2012 and December 31, 2011.
- (4) Prior year amounts have been reclassified to conform to current year presentation.

Not Designated as Hedging Contracts

The following table reconciles the beginning and ending balances of the Respondent's net regulatory assets and summarizes the pre-tax gains and losses on commodity derivative contracts recognized in net regulatory assets, as well as amounts reclassified to earnings for the six-month periods ended June 30 (in thousands):

	<u> 2012</u>	2011
Beginning balance	\$ 63,907	\$ 50,124
Changes in fair value recognized in net regulatory assets	14,125	(5,528)
Net gains (losses) reclassified to gas operating revenues	3,546	(1,350)
Net losses reclassified to operating expenses	(4,426)	(2,908)
Ending balance	<u>\$ 77,152</u>	<u>\$ 40,338</u>

FERC FORM NO. 2/3-Q (REV 12-07)	122.6	

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
	(1) <u>X</u> An Original	(Mo, Da, Yr)	·			
Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2			
	Notes to Financial Statements					

The Respondent recognized pre-tax gains of \$0.2 million and pre-tax losses of \$0.2 million resulting from unrealized valuation changes on purchase contracts for the six-month periods ended June 30, 2012 and 2011, respectively, which are included in operating expenses and other income and deductions on the Statements of Income.

Designated as Hedging Contracts

The following table reconciles the beginning and ending balances of the Respondent's accumulated other comprehensive loss (pre-tax) and summarizes pre-tax gains and losses on commodity derivative contracts designated and qualifying as cash flow hedges recognized in other comprehensive income ("OCI"), as well as amounts reclassified to earnings for the six-month periods ended June 30 (in thousands):

	<u> 2012 </u>	<u> 2011 </u>
Beginning balance ⁽¹⁾	\$ 2,651	\$ 2,475
Changes in fair value recognized in OCI	(2,646)	(1,063)
Net gains reclassified to gas operating revenues	-	1,518
Net losses reclassified to operating expenses		(1,501)
Ending balance ⁽¹⁾	<u>\$ 5</u>	<u>\$ 1,429</u>

(1) Certain derivative contracts have settled and the fair value at the date of settlement remains in accumulated other comprehensive loss and is recognized in earnings when the forecasted transactions impact earnings.

Realized gains and losses on hedges and hedge ineffectiveness are recognized on the Statements of Income as gas operating revenues or operating expenses depending upon the nature of the item being hedged. For each of the six-month periods ended June 30, 2012 and 2011, hedge ineffectiveness was insignificant. As of June 30, 2012, the Respondent had cash flow hedges with expiration dates extending through December 2013 and the pre-tax unrealized losses forecasted to be reclassified from accumulated other comprehensive loss into earnings over the next twelve months are insignificant.

Credit Risk

The Respondent extends unsecured credit to energy marketing companies, financial institutions and other market participants in conjunction with its derivative contracts. Credit risk relates to the risk of loss that might occur as a result of nonperformance by counterparties on their contractual obligations to make or take delivery of natural gas and to make financial settlements of these obligations. Credit risk may be concentrated to the extent that one or more groups of counterparties have similar economic, industry or other characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in market or other conditions. In addition, credit risk includes not only the risk that a counterparty may default due to circumstances relating directly to it, but also the risk that a counterparty may default due to circumstances involving other market participants that have a direct or indirect relationship with the counterparty.

The Respondent analyzes the financial condition of each counterparty before entering into any transactions, establishes limits on the amount of unsecured credit to be extended to each counterparty and evaluates the appropriateness of unsecured credit limits on an ongoing basis. To mitigate exposure to the financial risks of counterparties, the Respondent enters into netting arrangements that may include margining and cross-product netting agreements and may obtain third-party guarantees, letters of credit and cash deposits. Counterparties may be assessed fees for delayed payments. If required, the Respondent exercises rights under these arrangements, including calling on the counterparty's credit support arrangement.

Collateral and Contingent Features

In accordance with industry practice, certain derivative contracts contain provisions that require the Respondent to maintain specific credit ratings from one or more of the major credit rating agencies on its unsecured debt. These derivative contracts may either specifically provide bilateral rights to demand cash or other security if credit exposures on a net basis exceed specified rating-dependent threshold levels ("credit-risk-related contingent features"). These rights can

	FERC FORM NO. 2/3-Q (REV 12-07)	122.7	
--	---------------------------------	-------	--

Name of Respondent	This Report is: (1) X An Original	Date of Report (Mo, Da, Yr)	Year/Period of Report				
Northern Natural Gas Company	(2) A Resubmission	/ /	2012/Q2				
	Notes to Financial Statements						

vary by contract and by counterparty. As of June 30, 2012, the Respondent's credit ratings from the three recognized credit rating agencies were investment grade.

The aggregate fair value of the Respondent's derivative contracts in liability positions with specific credit-risk-related contingent features totaled \$79.1 million and \$71.0 million as of June 30, 2012 and December 31, 2011, respectively, for which the Respondent had not posted collateral. If all credit-risk-related contingent features for derivative contracts in liability positions had been triggered as of June 30, 2012 and December 31, 2011, the Respondent would have been required to post \$77.2 million and \$68.6 million, respectively, of collateral. The Respondent's collateral requirements could fluctuate considerably due to market price volatility, changes in credit ratings, changes in legislation or regulation, or other factors.

(5) Employee Benefit Plans

The Respondent participates in multi-employer benefit plans sponsored by MidAmerican Energy Company ("MEC"), an indirect wholly owned subsidiary of MEHC. The MidAmerican Energy Company Retirement Plan provides pension benefits for eligible employees ("pension plan") and the MidAmerican Energy Company Welfare Benefit Plan provides certain postretirement health care and life insurance benefits for eligible retirees ("other postretirement plan") on behalf of the Respondent. The Respondent's contributions to the pension and other postretirement plans were \$0.6 million for each of the six month periods ended June 30, 2012 and 2011. As of June 30, 2012, the Respondent recorded an affiliate company payable included in accumulated provision for pensions and benefits relating to the pension plan and an affiliate company receivable included in other special funds relating to the other postretirement plan of \$5.1 million and \$16.0 million, respectively. As of December 31, 2011, the Respondent recorded an affiliate company payable included in accumulated provision for pensions and benefits relating to the pension plan and an affiliate company receivable included in other special funds relating to the other postretirement plan of \$5.1 million and \$15.4 million, respectively. Amounts attributable to the Respondent were allocated from MEC to the Respondent in accordance with the intercompany administrative service agreement. Offsetting regulatory assets and liabilities have been recorded related to the amounts not yet recognized as a component of net periodic benefit costs that will be included in regulated rates.

(6) Commitments and Contingencies

Legal Matters

The Respondent is party to a variety of legal actions arising out of the normal course of business. Plaintiffs occasionally seek punitive or exemplary damages. The Respondent does not believe that such normal and routine litigation will have a material impact on its financial results. The Respondent is also involved in other kinds of legal actions, some of which assert or may assert claims or seek to impose fines, penalties and other costs in substantial amounts and are described below.

The Respondent's storage gas has migrated from its former certificated storage field boundaries near Cunningham, Kansas and has been produced on leaseholds held by Nash Oil & Gas, Inc. ("Nash"), L.D. Drilling Company ("LD Drilling"), Val Energy, Inc. ("Val Energy") and Iuka-Carmi Development, LLC. In order to mitigate its losses, the Respondent has initiated the following actions:

In September 2009, the Respondent filed an application with the FERC to extend the boundaries of the Cunningham natural gas storage facility. In June 2010, FERC issued an order granting the Respondent certificate authority to extend the boundaries of the Cunningham natural gas storage facility by 12,320 acres. The Respondent has either acquired leases or purchased the property on 3,580 acres, or 29% of the extension area. In July 2010, the Respondent filed a complaint in federal district court to acquire the remaining necessary interests by eminent domain. In June 2011, the Respondent filed a motion for preliminary injunction seeking access to the extension area to construct the facilities necessary to implement its containment plan to control the migrating storage gas. In March 2012, the federal district court judge issued an order granting the Respondent's motion for the preliminary injunction and required security in the form of a cash deposit of \$2.7 million and a bond of \$7.8 million, both of which were deposited with the court by the Respondent. In June 2012, the federal district court granted the Respondent's motion to establish a three-person compensation commission to determine the value of the interests to be taken. The court held a

Name of Respondent	This Report is:	Date of Report	Year/Period of Report			
•	(1) X An Original	(Mo, Da, Yr)	·			
Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2			
Notes to Financial Statements						

discovery status conference on August 24, 2012. The court ordered the defendants to respond to all discovery requests by September 28, 2012, and set October 15, 2012, as the deadline to identify fact witnesses and for the Respondent to designate experts. The court set another status conference for October 19, 2012.

- The Respondent filed a lawsuit in December 2008 against Nash, LD Drilling and Val Energy in the United States District Court for the District of Kansas ("District Court") for conversion, nuisance and unjust enrichment. Shortly after the FERC order granting the Respondent authority to expand the boundaries of the Cunningham natural gas storage facility was issued in June 2010, the Respondent filed a motion to shut-in the production of the third-party wells producing the Respondent's storage gas. In December 2010, the District Court granted the Respondent's motion and ordered all of the wells in the extension area to be shut-in, which was completed in February 2011. The defendants appealed the injunction order to the Tenth Circuit Court of Appeals. Oral argument on the appeal was held in November 2011 and a decision is pending. Discovery has been stayed pending the outcome of the Kansas Supreme Court appeal discussed below.
- In December 2009, the Respondent filed a lawsuit in the 13th Judicial District, District Court, Pratt County, Kansas ("Pratt County State District Court") against ONEOK Field Services Company and Lumen Energy Corporation alleging conversion based on their purchase of the storage gas from the producers. In April 2010, the Pratt County State District Court granted the defendants' motion for summary judgment, finding that the Respondent does not have title to storage gas that has migrated beyond adjoining property. The Respondent appealed the decision to the Kansas Court of Appeals in April 2010, and the appeal was transferred to the Kansas Supreme Court at the Respondent's request. Oral argument was held in March 2011. A decision on the merits is expected in the second half of 2012.

In December 2011, state court petitions were filed against the Respondent in three counties in Kansas, alleging trespass, nuisance and unjust enrichment, arising out of the migration of the Respondent's storage gas. The cases were moved to federal district court in Wichita, Kansas on December 27, 2011, at the request of the Respondent. The Respondent filed responses to the petitions in January 2012, and the actions have been stayed pending the outcome of the Kansas Supreme Court appeal discussed above.

The Respondent has recorded Cunningham storage gas losses of 13.7 bcf from 2004 through 2011. The wells were shut-in in 2011. The replacement cost of storage gas losses is \$- million and \$4.0 million for the six-month periods ended June 30, 2012 and 2011, respectively, which are included in operating expenses on the Statements of Income.

While it is not possible to predict with certainty the outcome of the aforementioned litigation and other contingencies, the Respondent believes that the ultimate resolution of these matters will not have a material adverse effect on the Respondent's financial results.

(7) Other Related Party Transactions

The Respondent provided gas transportation, storage and other services to MEC totaling \$30.3 million and \$31.0 million for the six-month periods ended June 30, 2012 and 2011, respectively. MEC provides certain administrative and management services, including executive, financial, legal, human resources, payroll and tax, to the Respondent. Expenses incurred by MEC and billed to the Respondent are based on the individual services and expense items provided and were \$3.1 million and \$3.3 million for the six-month periods ended June 30, 2012 and 2011, respectively. MEC also provided electricity and other services to the Respondent of \$0.2 million for each of the six-month periods ended June 30, 2012 and 2011. The Respondent reimbursed MEC \$26.6 million for each of the six-month periods ended June 30, 2012 and 2011 for payroll, healthcare benefits and other benefit payments that MEC processed on behalf of the Respondent.

MEHC provides certain administrative and management services, including executive, financial, legal and tax, to the Respondent. Expenses incurred by MEHC and billed to the Respondent are based on the individual services and expense items provided and were \$0.9 million for each of the six-month periods ended June 30, 2012 and 2011. Income tax transactions with MEHC resulted in net payments of \$53.2 million and \$26.6 million for the six-month periods ended June 30, 2012 and 2011, respectively.

Name of Respondent	This Report is:	Date of Report	Year/Period of Report		
·	(1) <u>X</u> An Original	(Mo, Da, Yr)	·		
Northern Natural Gas Company	(2) _ A Resubmission	11	2012/Q2		
Notes to Financial Statements					

As of June 30, 2012 and December 31, 2011, the Respondent had net accounts payable to MEHC and certain subsidiaries for intercompany transactions totaling \$0.6 million and \$2.6 million, respectively.

The Respondent provides certain administrative and management services, including executive, financial, regulatory and legal, to Kern River Gas Transmission Company ("Kern River"), an indirect wholly owned subsidiary of MEHC. The Respondent billed Kern River \$0.6 million and \$0.5 million for the six-month periods ended June 30, 2012 and 2011, respectively, for these services.

The Respondent provides risk management services to Kern River, pursuant to a service agreement dated August 1, 2008. The Respondent relinquishes all risks, liabilities, losses and profits associated with these risk management services. For the six-month periods ended June 30, 2012 and 2011, the Respondent entered into insignificant risk management transactions that settled on behalf of Kern River.

BNSF Railway Company, an affiliate of the Respondent, provided contributions in aid of construction totaling \$3.9 million and \$- million for the six-month periods ended June 30, 2012 and 2011, respectively.

For the six-month periods ended June 30, 2012 and 2011, the Respondent received demand promissory notes bearing interest at a 30-day LIBOR plus a fixed per annum rate from MEHC in exchange for cash of \$- million and \$80.0 million, respectively. The balance of the demand promissory notes as of both June 30, 2012 and December 31, 2011 was \$230.0 million. Interest income of \$0.8 million and \$0.7 million was recorded for the six-month periods ended June 30, 2012 and 2011, respectively.

(8) Subsequent Event

In August 2012, the Respondent issued \$250.0 million of 4.10% Senior Bonds due September 15, 2042. The net proceeds will be used to partially repay the Respondent's \$300.0 million of 5.375% Senior Notes due October 31, 2012.

Minor items (5% of the Balance at End of Year for Account 182.3 or amounts less than \$250,000, whichever is less) may be grouped by classes. Report separately any "Deferred Regulatory Commission Expenses" that are also reported on pages 350-351, Regulatory Commission Expenses. Provide in a footnote, for each line item, the regulatory citation where authorization for the regulatory asset has been granted (e.g. Commission Order, state									
commission order, court decision).

Nort	hern Natural Gas Company	1 ' ' -	submission	11	End of <u>2012/Q2</u>				
	Shipper Supplied	I Gas for the Currer	nt Quarter						
1. Report monthly (1) shipper supplied gas for the current quarter and gas consumed in pipeline operations, (2) the disposition of any excess, the accounting recognition given to such disposition and the specific account(s) charged or credited, and (3) the source of gas used to meet any deficiency, the accounting recognition given to the gas used to meet the deficiency, including the accounting basis of the gas and the specific account(s) charged or credited. 2. On lines 7, 14, 22 and 30 report only the dekatherms of gas provided by shippers under tariff terms and conditions for gathering, production/extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dekatherms must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 24-29. The dekatherms must be reported in column (d) unless the company has discounted or negotiated rates which should be reported in columns (b) and (c). 3. On lines 7, 14, 22 and 30 report only the dollar amounts of gas provided by shippers under tariff terms and conditions for gathering, production/extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dollar amounts must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 24-29. The dollar amounts must be reported in column (h) unless the company has discounted or negotiated rates which should be reported in columns (f) and (g). The accounting should disclose the account(s) debited and credited in columns (m) and (g). 4. Indicate in a footnote the basis for valuing the gas reported in Columns (f), (g) and (h). 5. Report in columns (j), (k) and (j) the amount of fuel waived, discounted or reduced as part of a negotiated rate agreement. 6. On lines 32-37 report the dekatherms, the dollar amount and the account(s) debited in Column (o) for the dispositions of gas lis

On lines 7, 14, 22 and 30 report only the dollar amounts of gas provided by shippers under tariff terms and conditions for gathering, production/extraction/processing, transmission, distribution and storage service and the use of that gas for compressor fuel, other operational purposes and lost and unaccounted for. The dollar amounts must be broken out by functional categories on Lines 2-6, 9-13, 16-21 and 23-29. The dollar amounts must be proprted in column (h) unless the company has discounted or negotiated rates which should be reported in columns (f) and (g). The accounting should disclose the account(s) debited and credited in columns (m) and (n). 4. Indicate in a footnote the basis for valuing the gas reported in Columns (f), (g) and (h). 5. Report in columns (f), (k) and (f) the amount of fuel walved, discounted or reduced as part of a negotiated rate agreement. 6. On lines 32-37 report the dekatherms and dollar value of the excess or deficiency in shipper supplied gas broken out by function

	FOOTNOTE DATA		

Schedule Page: 117 Line No.: 5 Column: g

The (\$860,319) pertains to natural gas commodity swaps.

Fair Value Hedges

The Respondent has entered into natural gas commodity swaps accounted for as fair value hedges with the following objectives: hedge the change in fair value of firm fixed-price gas sale and purchase contracts required for operational storage balancing purposes.

As of June 30, 2011, the fair value of the hedged items was (\$3,681,018) reported in account 242. The fair value of the hedging instruments was (\$380,670) reported in account 245 and \$4,415,426 was reported in account 176. Ineffectiveness gains of \$353,738 were reported in account 182.3.

Schedule Page: 117 Line No.: 10 Column: g

The (\$3,164) pertains to natural gas commodity swaps.

Fair Value Hedges

As of June 30, 2012, there were no fair value hedges.
